## STANBIC IBTC HOLDINGS PLC

### Directors' report

#### For the year ended 31 December 2021

The Directors present their annual report on the affairs of Stanbic IBTC Holdings PLC ("the Company") and its subsidiaries (together "the Group"), together with the consolidated and separate annual financial statements and auditor's report for the year ended 31 December 2021.

#### a. Legal form

The company was incorporated in Nigeria under the Companies & Allied Matters Act (CAMA) as a public limited liability company on 14 March 2012. The company's shares were listed on 23 November 2012 on the floor of The Nigerian Stock Exchange (NGX).

#### b. Principal activity and business review

The principal activity of the company is to carry on business as a financial holding company, to invest and hold controlling shares, in as well as manage equity in its subsidiary companies.

The company has ten direct subsidiaries, namely: Stanbic IBTC Bank PLC, Stanbic IBTC Pension Managers Limited, Stanbic IBTC Asset Management Limited, Stanbic IBTC Capital Limited, Stanbic IBTC Insurance Limited, Stanbic IBTC Stockbrokers Limited, Stanbic IBTC Ventures Limited, Stanbic IBTC Insurance Brokers Limited, Stanbic IBTC Trustees Limited, Stanbic IBTC Financial Services Limited (formerly Stanbic IBTC Bureau De Change Limited) and one indirect subsidiary, namely: Stanbic IBTC Nominees Limited. Stanbic IBTC Financial Services Limited is yet to commence operations.

On 30th November 2021, Stanbic IBTC Bank PLC disposed Stanbic IBTC Financial Services Limited in its entirety to Stanbic IBTC Holdings PLC. The relinquishment of the investment in Stanbic IBTC Financial Services Limited ultimately resulted to Stanbic IBTC Holdings PLC assuming the role of the new Parent Company with a capital injection of N368 million deposit for shares.

The Company prepares consolidated financial statements, which includes separate financial statements of the Company.

#### c. Operating results and dividends

The Group's gross earnings decreased by 12.22%, profit before tax decreased by 30.32% and profit after tax decreased by 31.54% by for the year ended 31 December 2021. The directors' recommended the approval of a final dividend of 200 kobo per share (31 December 2020: 360 kobo per share) for the year ended 31 December 2021.

Highlights of the Group's and company's operating results for the year under review are as follows:

	<b>31 Dec. 2021</b>	31 Dec. 2020	<b>31 Dec. 2021</b>	31 Dec. 2020

## STANBIC IBTC HOLDINGS PLC

### Directors' report

For the year ended 31 December 2021

#### I. Events after the reporting date

There were no events after the reporting date which could have a material effect on the financial position of the Group as at 31 December 2021 which have not been recognised or disclosed.

#### m. Human resources

##### *Employment of physically challenged*

The company continues to maintain a policy of giving fair consideration to applications for employment made by physically challenged persons with due regard to their abilities and aptitude. The company's policy prohibits discrimination against physically challenged persons or persons with HIV in the recruitment, training and career development of its employees. In the event of members of staff becoming physically challenged, efforts will be made to ensure that, as far as possible, their employment with company continues and appropriate training is arranged to ensure that they fit into the company's working environment.

##### *Health safety and welfare at work*

The company enforces strict health and safety rules and practices at the work environment which are reviewed and tested regularly. The company's staff are covered under a comprehensive health insurance scheme pursuant to which the medical expenses of staff and their immediate family are covered up to a defined limit. Fire prevention and firefighting equipment are installed in strategic locations within the company's premises.

The company has both Group Personal Accident and Workmen's Compensation Insurance cover for the benefit of its employees. It also operates a contributory pension plan in line with the Pension Reform Act 2014.

#### n. Employee involvement and training

The company ensures, through various fora, that employees are kept informed on matters concerning them. Formal and informal channels are employed for communication with employees with an appropriate two – way feedback mechanism. In accordance with the company's policy of continuous staff development, training facilities are provided in the Group's well equipped Training School (the Blue Academy). Employees of the Company attend training programmes organized by the Standard Bank Group (SBG) in South Africa and elsewhere and participate in programmes at the Standard Bank Global Leadership centre in South Africa. The company also provides its employees with on the job training in the company and at various Standard Bank locations.

#### o. Credit Ratings

The revised prudential guidelines, as released by the CBN, requires that banks should have themselves credit rated by a credit rating agency on a regular basis. It is also required that the credit rating be updated on a continuous basis from year to year.

Below are the credit ratings that Stanbic IBTC Group has been assigned by the various credit rating agencies, in no particular order:

Rating Agency	Rated Entity	Report Date	National		Issuer		Outlook
			Long term	Short term	Long term	Short term	
Fitch	Stanbic IBTC Bank	October 2021	AAA(nga)	F1+(nga)	-	-	-
	Stanbic IBTC Holdings		AAA(nga)	F1+(nga)	-	-	-

## STANBIC IBTC HOLDINGS PLC

### Statement of Directors' responsibilities in relation to the financial statements For the year ended 31 December 2021

The Directors accept responsibility for the preparation of consolidated and separate annual financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act 2020, the Financial Reporting Council of Nigeria Act, 2011 and the Banks and Other Financial Institutions Act, 2020 and relevant Central Bank of Nigeria (CBN) Guidelines and Circulars.

The Directors further accept responsibility for maintaining adequate accounting records as required by the Companies and Allied Matters Act of Nigeria and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

The Directors have made an assessment of the Company's ability to continue as a going concern and have no reason to believe the Company will not remain a going concern in the year ahead.

#### SIGNED ON BEHALF OF THE Directors BY:

---

Basil Omiyi  
Chairman  
FRC/2016/IODN/00000014093

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report For the year ended 31 December 2021

#### Introduction

The company is a member of the Standard Bank Group, which holds a 67.51% equity holding (through Stanbic Africa Holdings Limited) in the company.

Standard Bank Group (“SBG”) is committed to implementing initiatives that improve corporate governance for the benefit of all stakeholders. SBG’s board of Directors remains steadfast in implementing governance practices that comply with international best practice, where substance prevails over form.

Subsidiary entities within SBG are guided by these principles in establishing their respective governance frameworks, which are aligned to SBG’s standards in addition to meeting the relevant jurisdictional requirements in their areas of operation.

Stanbic IBTC Holdings PLC (“the company”), and its subsidiaries (“the Group”), as a member of SBG, operate under a governance framework which enables the board to balance its role of providing oversight and strategic counsel with its responsibility to ensure conformance with regulatory requirements, Group standards and acceptable risk tolerance parameters.

The direct subsidiaries of the company are: Stanbic IBTC Bank PLC, Stanbic IBTC Asset Management Limited, Stanbic IBTC Pension Managers Limited, Stanbic IBTC Insurance Brokers Limited, Stanbic IBTC Trustees Limited, Stanbic IBTC Stockbrokers Limited, Stanbic IBTC Ventures Limited, Stanbic IBTC Insurance Limited, Stanbic IBTC Financial Services Limited and Stanbic IBTC Capital Limited and these subsidiaries have their own distinct boards and take account of the particular statutory and regulatory requirements of the businesses they operate. These subsidiaries operate under a governance framework that enables their boards to balance their roles in providing oversight and strategic counsel with their responsibility for ensuring compliance with the regulatory requirements that apply in their areas of operation and the standards and acceptable risk tolerance parameters adopted by the company. In this regard they have aligned their respective governance frameworks to that of the company. As Stanbic IBTC Holdings PLC is the holding company for the subsidiaries in the Group, the company’s board also acts as the Group board, with oversight of the full activities of the Group.

A number of committees has been established by the company’s board that assist the board in fulfilling its stated objectives. The committees’ roles and responsibilities are set out in their mandates, which are reviewed periodically to ensure they remain relevant. The mandates set out their roles, responsibilities, scope of authority, composition and procedures for reporting to the board.

#### Codes and regulations

The company operates in highly regulated markets and compliance with applicable legislation, regulations, standards and codes, including transparency and accountability, remain an essential characteristic of its culture. The board monitors compliance with these by means of management reports, which include information on the outcome of any significant interaction with key stakeholders such as regulators.

The Group complies with all applicable legislation, regulations, standards and codes.

#### Shareholders’ responsibilities

The shareholders’ role is to approve appointments to the board of Directors and the external auditors as well as to grant approval for certain corporate actions that are by legislation or the company’s articles of association specifically reserved for shareholders. Their role is extended to holding the board accountable and responsible for efficient and effective corporate governance.

#### Developments during the year ended 31 December 2021

During the year under review, the following developments in the company’s corporate governance practices occurred:

- The Company held its 9th Annual General Meeting (virtually) on Thursday 27 May 2021 at which shareholders approved the 2020 Audited Financial Statements as well as other resolutions tabled before the meeting.
- At the same meeting, shareholders approved a final dividend of N3.60 per ordinary share of N0.50kobo each payable to shareholders whose names were in the Register of Members as at 07 April 2021. In addition, shareholders approved the declaration of bonus shares and authorised that the sum of N925,499,797.50 be set aside out of the Company’s General Reserve, capitalised and that same be applied in paying in full for 1,850,999,595 Ordinary Shares of 50 kobo each in the capital of the Company and such Ordinary Shares be allotted and credited as fully paid-up and issued to Shareholders, who are on the Register of Members as at close of business on Thursday 10 June 2021 in the proportion of One new Ordinary Share for every Six existing Ordinary Shares held by them in the Capital of the Company as at close of business on Thursday 10 June 2021. The Shares so distributed shall rank parri-passu with the existing Ordinary Shares in all respects, subject to receipt of all required regulatory approvals.
- The company filed its first report based to the Financial Reporting Council (FRC) in compliance with the Nigerian Code of Corporate Governance 2018.
- In response to the outbreak of the Corona Virus pandemic which continued for a second year in 2021, the Board of the Company adopted the use of technology and collaborative tools that enabled the Board to continue to operate virtually, as all Board meetings and other board activities were held remotely or by virtual means enabled by technology. The Annual General Meeting of the Company was held in a hybrid manner ( physical and virtual) and broadcast on public platforms with few participants attending physical within social distancing requirements.
- The Company made significant progress in the execution of its Sustainability Strategy.
- The Company’s Board Strategy Session was held in July 2021 in accordance with regulatory and corporate Governance Best Practice Requirements.

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued) For the year ended 31 December 2021

#### Internal Control over Financial Reporting (ICFR) Regulation Implementation

- The Securities and Exchange Commission issued the 'Guidance on the Implementation of Sections 60-63 of The Investments And Securities Act 2007' in March 2021.
- The objective of the SEC guidance issued in March 2021 is to assist management to certify the accuracy of the financial statements prepared as stated in section 60 (2) by submitting on an annual basis, a report of management's assessment of the company's internal control over financial reporting.
- The Group engaged the firm of Deloitte & Touche for the project implementation and worked with the Consultant to complete the assessments and put in remedial controls 90days before the end of the reporting period as required by the regulations.
- However, in November 2021, SEC extended the deadline by two years with year-end compliance date moved from December 31st, 2021 to December 31st, 2023.
- Management continues to review on an ongoing basis, the effectiveness of the internal controls system/processes supporting financial reports prepared.

#### The Group intends during 2022 to:

- continue the focus on directors' training via formal training sessions and information bulletins on relevant issues that they should have to adequately supervise Management;
- focus on broadening the composition of the board by appointing an additional independent non- executive director, to ensure diversity of experience and gender on the Board in line with the CBN Code of Corporate Governance and the Companies and Allied Matters Act 2020.
- continue to enhance the level of information provided to and interaction with shareholders, investors and stakeholders generally.

## Board and Directors

### Board structure and composition

Ultimate responsibility for governance rests with the board of Directors of the company, who ensure that appropriate controls, systems and practices are in place. The company has a unitary board structure and the roles of chairman and chief executive are separate and distinct. The company's chairman is a non-executive director. The number and stature of non-executive Directors ensure that sufficient consideration and debate are brought to bear on decision thereby contributing to the efficient running of the board.

One of the features of the manner in which the board operates is the role played by board committees, which facilitate the discharge of board responsibilities. The committees each have a board approved mandate that is regularly reviewed. The list of Board members as at 31 December 2021 are as follows:

NAME OF DIRECTOR	DESIGNATION	CBN APPROVAL	CUMULATIVE YEARS OF SERVICE AS AT 31 December 2021
Basil Omiyi CON	Chairman	25-Mar-15	6 years, 9 months
Demola Sogunle	Chief Executive	1-Jul-20	1 year, 6 months
Kunle Adedeji	Executive Director	22-Feb-19	2 years , 10 months
Ballama Manu MFR	Non-Executive Director	25-Mar-15	6 years, 9 months
Salamatu Suleiman	Independent Non-Executive Director	13-Jul-16	5 years, 5 months
Ngozi Edozien	Independent Non-Executive Director	25-Mar-15	6 years, 9 months
Ben Kruger	Non-Executive Director	27-Nov-18	3 Years, 1 month
Ifeoma Esiri	Non-Executive Director	1-Nov-12	9 Years, 1 month
Fabian Ajogwu SAN	Non-Executive Director	21-Jun-17	4 Years , 6 months
Nkemdilim Uwaje	Non-Executive Director	18-Nov-19	2 Year, 1 month
Sola David-Borha	Non-Executive Director	11-Aug-20	1 year, 5 months

### Corporate governance report (continued)

For the year ended 31 December 2021

#### Strategy

The board considers and approves the company's strategy. Once the financial and governance objectives for the following year have been agreed, the board monitors performance against financial objectives and detailed budgets on an on-going basis, through quarterly reporting.

Regular interaction between the board and the executive is encouraged. Management is invited, as required, to make presentations to the board on material issues under consideration.

Directors are provided with unrestricted access to the company's management and company information, as well as the resources required to carry out their responsibilities, including external legal advice, at the company's expense.

It is the board's responsibility to ensure that effective management is in place to implement the agreed strategy, and to consider issues relating to succession planning. The board is satisfied that the current pool of talent available within the company, and the ongoing work to deepen the talent pool, provides adequate succession depth in both the short and long term.

#### Skills, knowledge, experience and attributes of Directors

The board ensures that Directors possess the skills, knowledge and experience necessary to fulfill their obligations. The Directors bring a balanced mix of attributes to the board, including:

- international and domestic experience;
- operational experience;
- knowledge and understanding of both the macroeconomic and the microeconomic factors affecting the Group;
- local knowledge and networks; and
- financial, legal, entrepreneurial and banking skills.

The credentials and demographic profile of the board are regularly reviewed, to ensure the board's composition remains both operationally and strategically appropriate.

#### Appointment philosophy

The appointment philosophy ensures alignment with all necessary legislation and regulations which include, but are not limited to the requirements of the Central Bank of Nigeria; SEC Code of Corporate Governance; the Companies & Allied Matters Act as well as the legislations of Standard Bank Group's home country.

Consideration for the appointment of Directors and key executives take into account compliance with legal and regulatory requirements and appointments to external boards to monitor potential for conflicts of interest and ensure Directors can dedicate sufficient focus to the company's business. The board takes cognisance of the skills, knowledge and experience of the candidate, as well as other attributes considered necessary to the prospective role.

In terms of Section 285 (1) of the Company and Allied Matters Act 2020, Mr Kunle Adedeji, Ms Ngozi Edozien and Mrs Salamatu Suleiman shall be retiring at the next AGM and being eligible, shall offer themselves for re-election

The board's size as at 31 December 2021 was eleven (11), comprising two (2) executive directors and nine (9) non-executive directors. It is important to note that of the nine (9) non-executive directors, two (2) namely; Dr Salamatu Hussaini Suleiman and Ms. Ngozi Edozien are Independent Non-Executive Directors in compliance with the CBN Code. The Board is also seeking to appoint an additional Independent Non-Executive Director in compliance with S. 275 of the Companies and Allied Matters Act 2020. The board has the right mix of competencies and experience.

#### Board responsibilities

The key terms of reference in the board's mandate, which forms the basis for its responsibilities, are to:

- agree the Group's objectives, strategies and plans for achieving those objectives;
- annually review the corporate governance process and assess achievement against objectives;
- review its mandate at least annually and approve recommended changes;

**Corporate governance report (continued)**  
**For the year ended 31 December 2021**

**Board responsibilities (continued)**

- delegate to the chief executive or any director holding any executive office or any senior executive any of the powers, authorities and discretions vested in the board's Directors, including the power of sub-delegation; and to delegate similarly such powers, authorities and discretions to any committee and subsidiary company board as may exist or be created from time to time;
- determine the terms of reference and procedures of all board committees and review their reports and minutes;
- consider and evaluate reports submitted by members of the executive;
- ensure that an effective risk management process exists and is maintained throughout the bank and its subsidiaries to ensure financial integrity and safeguarding of the Group's assets;
- review and monitor the performance of the chief executive and the executive team;
- ensure consideration is given to succession planning for the chief executive and executive management;
- establish and review annually, and approve major changes to, relevant Group policies;
- approve the remuneration of non-executive Directors on the board and board committees, based on recommendations made by the remuneration committee, and recommend to shareholders for approval;
- approve capital funding for the Group, and the terms and conditions of rights or other issues and any prospectus in connection therewith;
- ensure that an adequate budget and planning process exists, performance is measured against budgets and plans, and approve annual budgets for the Group;
- approve significant acquisitions, mergers, take-overs, divestments of operating companies, equity investments and new strategic alliances by the Group;
- consider and approve capital expenditure recommended by the executive committee;
- consider and approve any significant changes proposed in accounting policy or practice, and consider the recommendations of the statutory audit committee;
- consider and approve the annual financial statements, quarterly results and dividend announcements and notices to shareholders, and consider the basis for determining that the Group will be a going concern as per the recommendation of the audit committee;
- assume ultimate responsibility for financial, operational and internal systems of control, and ensure adequate reporting on these by committees to which they are delegated;
- take ultimate responsibility for regulatory compliance and ensure that management reporting to the board is comprehensive;
- ensure a balanced and understandable assessment of the Group's position in reporting to stakeholders;
- review non financial matters that have not been specifically delegated to a management committee; and
- specifically agree, from time to time, matters that are reserved for its decision, retaining the right to delegate any of these matters to any committee from time to time in accordance with the articles of association.

**Delegation of authority**

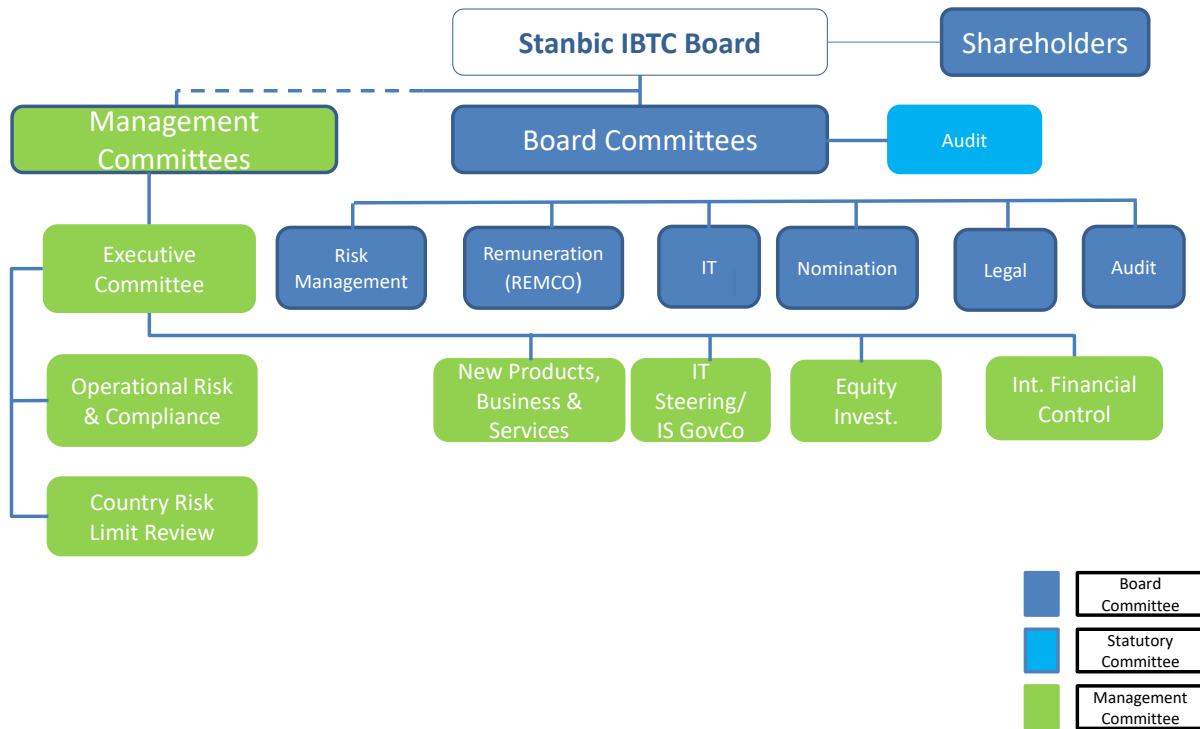

The ultimate responsibility for the company and its operations rests with the board. The board retains effective control through a well-developed governance structure of board committees. These committees provide in-depth focus on specific areas of board responsibility.

The board delegates authority to the Chief Executive to manage the business and affairs of the company. The executive Membership of the executive committee is set out on page xii.

In addition, a governance framework for executive management assists the Chief Executive in his task. Board-delegated authorities are regularly monitored by the company secretary's office.

The corporate governance framework was adopted by the board on 28 November 2012 and formalised with mandate approvals which were reviewed in July 2021. The corporate governance framework is set out below:

STANBIC IBTC HOLDCO GOVERNANCE STRUCTURE

**Board effectiveness and evaluation**

The board is focused on continued improvements in its corporate governance performance and effectiveness.

The Directors will undergo an evaluation by independent consultants as required by Section 2.8.1 of the Central Bank of Nigeria (CBN) Code of Corporate Governance for Banks in Nigeria ("the Code"). The report of the consultants will also assess the performance of the individual Directors on the Board for the year under review as perceived by the other Directors based on their individual competence, level of attendance to Board and Board Committee meetings, contribution and participation at these meetings and relationship with other Board members. Individual Director's Assessment reports will be prepared and made available to each director while a consolidated report of the performance of all Directors will also be submitted to the Chairman of the Board.

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued) For the year ended 31 December 2021

#### Induction and training

An induction programme designed to meet the needs of each new director is being implemented. One-on-one meetings are scheduled with management to introduce new Directors to the company and its operations. The company secretary manages the induction programme. The CBN Code of Conduct as well as the Securities & Exchange Commission's code of corporate governance is provided to new Directors on their appointment.

Directors are kept abreast of all relevant legislation and regulations as well as sector developments leading to changing risks to the organisation on an on - going basis. This is achieved by way of management reporting and quarterly board meetings, which are structured to form part of ongoing training.

Directors attended various trainings at different periods during the period that included trainings on Risk Management; enhancing Board performance, Change Management, and Financial Reporting. These trainings were aimed at enhancing the understanding of key issues, and skills of Directors.

#### Executive committee members

As at 31 December 2021, the Group Executive committee comprised of 25 members drawn from key functions within the Company as well as its subsidiaries.

**Corporate governance report (continued)**  
**For the year ended 31 December 2021**

**Board committees**

Some of the functions of the board have been delegated to board committees, consisting of board members appointed by the board, which operates under mandates approved by the board.

**Risk management committee**

The board is ultimately responsible for risk management. The main purpose of the risk management committee, as specified in its mandate is the provision of independent and objective oversight of risk management within the company. The committee is assisted in fulfilling its mandate by a number of management committees.

To achieve effective oversight, the committee reviews and assesses the integrity of risk control systems and ensures that risk policies and strategies are effectively managed and contribute to a culture of discipline and control that reduces the opportunity for fraud.

The risk management committee during the year under review was vested, among others, with the following responsibilities:

- to oversee management’s activities in managing credit, market, liquidity, operational, legal and other risks of the Group;
- to periodically review the Group’s risk management systems and report thereon to the board;
- to ensure that the Group’s material business risks are being effectively identified, quantified, monitored and controlled and that the systems in place to achieve this are operating effectively at all times; and
- such other matters relating to the Group’s risk assets as may be specifically delegated to the committee by the board.

The committee’s mandate is in line with SBG’s standards, while taking account of local circumstances.

As at 31 December 2021, the committee consisted of six directors, five of whom, including the chairman are non – executive directors.

Members’ attendance at risk management committee meetings for the year ended 31 December 2021 is stated below:

Name	February	April	Out of Cycle (May)	Out of Cycle (June)	July	Out of Cycle (August)	Out of Cycle (September)	October	Out of Cycle (November)

Ngozi Edozien	√	√	√	√	√	√	√	√	√

√ = Attendance

**Remuneration committee**

The remuneration committee (REMCO) was vested with responsibilities during the year under review that included:

- reviewing the remuneration philosophy and policy;
- considering the guaranteed remuneration, annual performance bonus and pension incentives of the Group’s executive Directors and managers;
- reviewing the performance measures and criteria to be used for annual incentive payments for all employees;
- determining the remuneration of the chairman and non-executive Directors, which are subject to board and shareholder approval;
- considering the average percentage increases of the guaranteed remuneration of executive management across the Group, as well as long-term and short-term incentives; and
- agreeing incentive schemes across the Group.

The chief executive attends meetings by invitation. Other members of executive management are invited to attend when appropriate. No individual, irrespective of position, is expected to be present when his or her remuneration is discussed.

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued)

For the year ended 31 December 2021

#### Remuneration committee (continued)

When determining the remuneration of executive and non-executive Directors as well as senior executives, REMCO is expected to review market and competitive data, taking into account the company's performance using indicators such as earnings.

REMCO utilises the services of a number of suppliers and advisors to assist it in tracking market trends relating to all levels of staff, including fees for non-executive Directors.

The board reviews REMCO's proposals and, where relevant, will submit them to shareholders for approval at the annual general meeting (AGM.). The board remains ultimately responsible for the remuneration policy.

As at 31 December 2021, the committee consisted of four Directors, all of whom are non-executives, with the Chairman being an Independent Director.

Members' attendance at REMCO meetings during the year ended 31 December 2021 is stated below:

Name	February	April	July	October
Salamatu Suleiman	√	√	√	√
Prof. Fabian Ajogwu	√	√	√	√
Barend Kruger	√	√	√	√
Sola David-Borha	/	/	/	√

√ = Attendance

- = Not a member of the Committee at the relevant time

#### Remuneration

##### Introduction

The purpose of this section is to provide stakeholders with an understanding of the remuneration philosophy and policy applied across the Group for executive management, employees, and Directors (executive and non-executive).

##### Remuneration philosophy

The Group's board and remuneration committee set a remuneration philosophy which is guided by SBG's philosophy and policy as well as the specific social, regulatory, legal and economic context of Nigeria.

In this regard, the Group employs a cost to company structure, where all benefits are included in the listed salary and appropriately taxed.

The following key factors have informed the implementation of reward policies and procedures that support the achievement of business goals:

- the provision of rewards that enable the attraction, retention and motivation of employees and the development of a high performance culture;
- maintaining competitive remuneration in line with the market, trends and required statutory obligations;
- rewarding people according to their contribution;
- allowing a reasonable degree of flexibility in remuneration processes and choice of benefits by employees;
- utilising a cost-to-company remuneration structure; and
- educating employees on the full employee value proposition.

The Group's remuneration philosophy aligns with its core values, including growing our people, appropriately remunerating high performers and delivering value to our shareholders. The philosophy emphasises the fundamental value of our people and their role in ensuring sustainable growth. This approach is crucial in an environment where skills remain scarce.

The board sets the principles for the Group's remuneration philosophy in line with the approved business strategy and objectives. The philosophy aims to maintain an appropriate balance between employee and shareholder interests. The deliberations of REMCO inform the philosophy, taking into account reviews of performance at a number of absolute and relative levels – from a business, an individual and a competitive point of view.

A key success factor for the Group is its ability to attract, retain and motivate the talent it requires to achieve its strategic and operational objectives. The Group's remuneration philosophy includes short-term and long-term incentives to support this ability.

Short-term incentives, which are delivery specific, are viewed as strong drivers of competitiveness and performance. A significant portion of top management's reward is therefore variable, being determined by financial performance and personal contribution against specific criteria set in advance. This incites the commitment and focus required to achieve targets.

Long-term incentives seek to ensure that the objectives of management and shareholders are broadly aligned over longer time periods.

**Remuneration policy**

The Group has always had a clear policy on the remuneration of staff, executive and non-executive Directors which set such remuneration at levels that are fair and reasonable in a competitive market for the skills, knowledge, experience required and which complies with all relevant tax laws.

REMCO assists the Group’s board in monitoring the implementation of the Group remuneration policy, which ensures that:

- salary structures and policies, as well as cash and long term incentives, motivate sustained high performance and are linked to corporate performance objectives;
- stakeholders are able to make a reasonable assessment of reward practices and the governance process; and
- the Group complies with all applicable laws and codes.

**Remuneration structure**

**Non-executive Directors**

**Terms of service**

Directors are appointed by the shareholders at the AGM, although board appointments may be made between AGMs.

These appointments are made in terms of the company’s policy. Shareholder approvals for such annual appointments are however sought at the annual general meeting that holds immediately after such appointments are made.

Non-executive Directors are required to retire after three years and may offer themselves for re-election. If recommended by the board, their re-election is proposed to shareholders at the AGM.

In terms of CAMA, if a director over the age of 70 is seeking re-election to the board his age must be disclosed to shareholders at the meeting at which such re-election is to occur.

**Fees**

Non-executive Directors’ receive fixed annual fees and sitting allowances for service on the board and board committees. There are no contractual arrangements for compensation for loss of office. Non-executive Directors do not receive short-term incentives, nor do they participate in any long-term incentive schemes.

REMCO reviews the non-executive Directors’ fees annually and makes recommendations on same to the board for consideration. Based on these recommendations, the board in turn recommends a gross fee to shareholders for approval at the annual General Meeting (AGM).

Fees that are payable for the reporting year 1 January to 31 December of each year.

Category	2021 <sup>(i)</sup>	2020
	=N=	=N=
Chairman	49,420,000	49,420,000
Non-Executive Directors	33,200,000	33,200,000
Sitting Allowances for Board Meetings <sup>(ii)</sup>		
- Chairman	650,000	640,000
- Non-Executive Directors	570,000	562,000

(i) Approved by Shareholders at the 9th AGM of the Company to be held on 27 May 2021.

(ii) Fees quoted as sitting allowance represent per meeting sitting allowance paid for board, board & audit committees and ad hoc meetings. No annual fees are payable to committee members with respect to their roles on such committees.

**Retirement benefits**

Non-executive Directors do not participate in the pension scheme.

**Executive Directors**

The company had only two Executive Directors as at 31 December 2021.

Executive Directors receive a remuneration package and qualify for long-term incentives on the same basis as other employees.

Executive Directors' bonus and incentives are subject to an assessment by REMCO of performance against various criteria. The criteria include the financial performance of the company, based on key financial measures and qualitative aspects of performance, such as effective implementation of Group strategy and human resource leadership. In addition, the Group’s remuneration philosophy is designed in such a way as to prevent excessive risk taking by Management.

**Management and general staff**

Total remuneration packages for employees comprises the following:

- guaranteed remuneration – based on market value and the role played;
- annual bonus – used to stimulate the achievement of Group objectives;
- long term incentives – rewards the sustainable creation of shareholder value and aligns behaviour to this goal;
- pension – provides a competitive post-retirement benefit in line with other employees.
- where applicable, expatriate benefits in line with other expatriates in Nigeria.

**Terms of service**

The minimum terms and conditions for managers are governed by relevant legislation and the notice period is between one to three months.

**Fixed remuneration**

Managerial remuneration is based on a total cost-to-company structure. Cost-to-company comprises a fixed cash portion, compulsory benefits (medical aid and retirement fund membership) and optional benefits. Market data is used to benchmark salary levels and benefits. Salaries are normally reviewed annually in March.

For all employees, performance-related payments have formed an increasing proportion of total remuneration over time to achieve business objectives and reward individual contribution.

All employees (executives, managers and general staff) are rated on the basis of performance and potential and this is used to influence performance-related remuneration rating and the consequent pay decision is done on an individual basis.

There is therefore a link between rating, measuring individual performance and reward. However, as noted earlier, the Group’s remuneration philosophy is designed in such a way as to prevent excessive risk taking by Management.

**Short-term incentives**

All staff participate in a performance bonus scheme. Individual awards are based on a combination of business unit performance, job level and individual performance. In keeping with the remuneration philosophy, the bonus scheme seeks to attract and retain high-performing managers.

As well as taking performance factors into account, the size of the award is assessed in terms of market-related issues and pay levels for each skill set, which may for instance be influenced by the scarcity of skills in that area.

The company has implemented a deferred bonus scheme (DBS) to compulsorily defer a portion of incentives over a minimum threshold for some senior managers and executives. This improves alignment of shareholder and management interests and enables clawback under certain conditions, which supports risk management.

**Long-term incentives**

It is essential for the Group to retain key skills over the longer term. The Group has put in place a deferred bonus scheme for top talents. The scheme is designed to reward and retain top talents.

**Post-retirement benefits**

**Pension**

Retirement benefits are typically provided on the same basis for employees of all levels and are in line and comply with the Pension Reform Act 2014.

**Remuneration as at 31 December 2021**

The amounts specified below represent the total remuneration paid to executive and non-executive Directors for the year under review:

	<b>Dec. 2021</b>	<b>Dec. 2020</b>
	<b>N'million</b>	<b>N'million</b>
<b>Fees &amp; sitting allowance</b>	744	642
<b>Executive compensation</b>	928	752
<b>Total</b>	<b>1,672</b>	<b>1,394</b>

The Group will continue to ensure its remuneration policies and practices remain competitive, drive performance and are aligned across the Group and with its values.

**Corporate governance report (continued)**  
**For the year ended 31 December 2021**

**The board nomination committee**

The board nominations committee is a sub-committee of the Board of Directors (“the board”) of the company and has the responsibility to:

- a) provide oversight on the selection nomination and re-election process for Directors;
- b) provide oversight on the performance of Directors on the various committees established by the board; and
- c) provide oversight in relation to the board evaluation and governance process and the reports that are to be made to the Securities & Exchange Commission, Central Bank of Nigeria and shareholders with respect to same.

The goal of the committee is to review nomination and election and re- election for Directors in such a way as to attract and retain the highest quality Directors whose attributes will ensure that their membership of the board will be of benefit and add value to the bank.

The committee consists of such number of Directors as may be approved by the board, but shall not be less than three and shall include the Chief Executive. In addition, any member of senior management may be invited to attend meetings of the committee.

**Composition**

The committee is made up of three non-executive Directors appointed by the Board. The Board Nomination Committee met twice in 2021 and all members of the Committee were in attendance.

**The Audit Committee**

The role of the audit committee is defined by the Companies & Allied Matters Act and includes making recommendations to the board on financial matters. These matters include assessing the integrity and effectiveness of accounting, financial, compliance and other control systems. The committee also ensures effective communication between internal auditors, external auditors, the board and management.

The committee’s key terms of reference comprise various categories of responsibilities and include the following:

- review the audit plan with the external auditors with specific reference to the proposed audit scope, and approach to risk activities and the audit fee;
- meet with external auditors to discuss the audit findings and consider detailed internal audit reports with the internal auditors;
- annually evaluate the role, independence and effectiveness of the internal audit function in the overall context of the risk management systems;
- review the accounting policies adopted by the Group and all proposed changes in accounting policies and practices;
- consider the adequacy of disclosures;
- review the significant differences of opinion between management and internal audit;
- review the independence and objectivity of the auditors; and
- all such other matters as are reserved to the audit committee by the Companies & Allied Matters Act and the company’s Articles of Association.

As required by law, the audit committee members have recent and relevant financial experience.

**Composition**

As at 31 December 2021, the committee was made up of five members, two of whom are non-executive Directors while the remaining three members are shareholders elected at the annual General Meeting (AGM). The committee, whose membership is stated below, is chaired by a shareholder representative.

As at 31 December 2021, the committee consists of the following persons:

Mr. Samuel Ayininuola*	Chairman
Mr. Ibhadde George*	Member
Mr. Olatunji Bamidele*	Member
Ms. Ngozi Edozien**	Member
Mrs. Ifeoma Esiri**	Member

\* = Shareholders representative

\*\* = Non Executive Director

Name	February	April	July	October
Mr Ballama Manu	√	√	√	√
Ms. Ngozi Edozien	√	√	√	√
Mrs. Ifeoma Esiri	√	√	√	√

√ = Attendance

#### The board IT committee

The board IT committee is one of the committees established by the Board in 2015. The committee has the following responsibilities:

- provide guidance on how IT decisions are made, enforced and evaluated within Stanbic IBTC in accordance with Central Bank of Nigeria (CBN) IT standards blue print;
- assist the Board to fulfil its oversight responsibilities for Stanbic IBTC's investments, operations and strategy in relation to
- review Stanbic IBTC's assessment of risks associated with IT including disaster recovery, business continuity and IT

The committee consists of a minimum of two Non-Executive Directors and shall also include the Chief Executive. In addition, any member of senior management may be invited to attend meetings of the committee.

Members' attendance at the Board IT Committee meetings for the period 01 January to 31 December 2021 is stated below:

Name	February	April	July	October
Mr Ben Kruger (Chairman)	√	√	√	√
Mr. Ballama Manu	√	√	√	√
Dr Demola Sogunle	√	√	/	/
Ms. Ngozi Edozien	√	√	√	√
Mr. Kunle Adedeji	√	√	√	√
Ms Nkemdilim Uwaje	√	√	√	√
Dr Demola Sogunle	√	√	√	√

√ = Attendance

/ = Not a member of the Committee at the relevant time

#### The board legal committee

The committee's key terms of reference comprise various categories of responsibilities and include the following:

- reviewing the legal risks and other legal issues facing Stanbic IBTC and its subsidiaries and for discussing appropriate strategies to address the risk arising from the litigation portfolios of Stanbic IBTC and its subsidiaries (the litigation Portfolio).
- review and assess the likely success of the individual matters included in the Litigation Portfolio and of any threatened litigation and where necessary shall recommend that Management seek appropriate out-of-court settlement of specific matters

#### Composition

The committee is made up of at least two non-executive Directors and one executive director appointed by the Board.

Members' attendance at the Board Legal Committee meetings for the period 01 January to 31 December 2021 is stated

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued) For the year ended 31 December 2021

#### The board legal committee (continued)

Name	February	April	May (OfC)	July	October
Mrs. Ifeoma Esiri	√	√	√	√	√
Dr Demola Sogunle	√	√	√	√	√
Prof Fabian Ajogwu	√	√	√	√	√
Mrs. Salamatu Suleiman	√	√	√	√	√

√ = Attendance

The Board has also established a number of Ad-Hoc Committees with specific responsibilities. As those Committees are not Standing Committees of the Board, those Ad-Hoc Committees would be dissolved as soon as they have concluded their responsibilities as delegated by the Board.

#### Company secretary

It is the role of the company secretary to ensure that the board remains cognisant of its duties and responsibilities. In addition to providing the board with guidance on its responsibilities, the company secretary keeps the board abreast of relevant changes in legislation and governance best practices. The company secretary oversees the induction of new Directors, including subsidiary Directors, as well as the ongoing training of Directors. All Directors have access to the services of the company secretary.

#### Going concern

On the recommendation of the audit committee, the board annually considers and assesses the going concern basis for the preparation of the financial statements at the year end.

The board continues to view the company as a going concern for the foreseeable future.

#### Management committees

The Group has the following management committees:

- Executive committee (Exco)
- Equity Investment Committee
- Information Strategy & Data Governance Committee
- Operational risk and compliance committee
- New & Amended Products committee
- Risk oversight committee
- Internal Financial Control committee

#### Relationship with shareholders

As an indication of its fundamental responsibility to create shareholder value, effective and ongoing communication with shareholders is seen as essential. In addition to the ongoing engagement facilitated by the company secretary and the head of investor relations, the company encourages shareholders to attend the annual general meeting and other shareholder meetings where interaction is welcomed. The chairman of the company's audit committee is available at the meeting to respond to questions from shareholders.

Voting at general meetings is conducted either through a show of hands or a poll depending on the subject matter of the resolution on which a vote is being cast and separate resolutions are proposed on each significant issue.

#### Dealing in securities

In line with its commitment to conduct business professionally and ethically, the company has introduced policies to restrict the dealing in securities by Directors, shareholder representatives on the audit committee and embargoed employees. A personal account trading policy is in place to prohibit employees and Directors from trading in securities during close periods. Compliance with this policy is monitored on an ongoing basis.

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued) For the year ended 31 December 2021

#### Sustainability

The company as a member of the Standard Bank Group (SBG) is committed to conducting business professionally, ethically, with integrity and in accordance with international best practice. To this end, the company subscribes to and adopts risk management standards, policies and procedures that have been adopted by the SBG. The company is also bound by the Nigerian Stock Exchange Sustainability Disclosure Guidelines and the Nigerian Sustainable Banking Principles and the provisions of these frameworks are incorporated into policies approved by the Board.

SBG's risk management standards, policies and procedures have been amended to be more reflective of the Nigerian business and regulatory environment. All such amendments to the risk management standards, policies and procedures have been agreed to by Standard Bank Africa (SBAF) Risk Management.

The Group is committed to contributing to sustainable development through ethical, responsible financing and business practices which unlocks value for our stakeholders. We manage the environmental and social aspects that impact our activities, products and services whilst ensuring sustainable value creation for our customers. We are passionately committed to encouraging financial inclusion through the provision of banking and other financial services to all cadres of the society and a promoter of gender equality.

#### Social responsibility

As an African business, the Group understands the challenges and benefits of doing business in Africa, and owes its existence to the people and societies within which it operates.

The Group is therefore committed not only to the promotion of economic development but also to the strengthening of civil society and human well being.

The Group is concentrating its social investment expenditure in defined focus area which currently include education in order to make the greatest impact. These areas of focus will be subject to annual revision as the country socio-economic needs change.

#### Ethics and organisational integrity

The board aims to provide effective and ethical leadership and ensures that its conduct and that of management is aligned to the organization's values and code of ethics. The board subscribes to the SBG Group's values and enables decision making at all levels of the business according to defined ethical principles and values.

#### Compliance with the Nigerian Stock Exchange's listing rule

Stanbic IBTC Holdings PLC ("SIBTC") has adopted a Personal Account Trading Policy ("PATP") for both employees and Directors which incorporates a code of conduct regarding securities transactions by Directors and employees. The PATP was circulated to all employees who in the course of the year had any insider or material information about SIBTC; it is also published in the company's internal communication on a regular basis and also hoisted on the company's website.

For the year ended 31 December 2021, the Company confirm that all Directors, complied with the PATP regarding their SIBTC securities transacted on their account during the year.

#### Compliance with the Securities and Exchange Commission's code of corporate governance

As a public company, Stanbic IBTC Holdings PLC confirms that as at 31 December 2021 the company has complied with the principles set out in the Securities and Exchange Commission's code of corporate governance.

The company applies the code's principles of transparency, integrity and accountability through its own behaviour, corporate governance best practice and by adopting, as appropriate and proportionate for a company of its size and nature. The policies and procedures adopted by the Board and applicable to the company's businesses are documented in mandates, which also set out the roles and delegated authorities applying to the Board, Board Committees, and the Executive Committee.

## STANBIC IBTC HOLDINGS PLC

### Corporate governance report (continued) For the year ended 31 December 2021

#### Compliance with the Central Bank of Nigeria code of corporate governance

As a financial holding company, Stanbic IBTC Holdings PLC is primarily regulated by the Central Bank of Nigeria (“CBN”). In this regard, compliance with the CBN Code of Corporate Governance, as well as all regulations issued by the CBN for Financial Holding Companies remain an essential characteristic of its culture. We confirm that as at the year ended 31 December 2021 the company has complied in all material respects with the principles set out in the CBN’s code of corporate governance.

#### Compliance with the Central Bank of Nigeria Whistleblowing Guidelines

In accordance with clause 4.11 of the CBN Guidelines for Whistleblowing, Stanbic IBTC Holdings PLC and its subsidiaries have complied in all material respects with the principles set out in the Whistleblowing Guidelines, as at year end.

#### Complaints Management Policy

Stanbic IBTC Holdings PLC has a Complaints Management Policy in place in compliance with the Securities & Exchange Commission rule which became effective in February 2015. Shareholders may have access to this policy via any of the following options:

- By accessing same through our website  
<http://www.stanbicibtc.com/nigeriaGroup/AboutUs/Code-of-Ethics>
- By requesting for a copy through the office of the Company Secretary

#### Disclosure on diversity in employment

The Group is an equal opportunity employer that is committed to maintaining a positive work environment that facilitates high level of professional efficiency at all times. The Group’s policy prohibits discrimination of gender, disabled persons or persons with HIV in the recruitment, training and career development of its employees.

##### i) Persons with disability:

The Group continues to maintain a policy of giving fair consideration to applications for employment made by disabled persons with due regard to their abilities and aptitude.

##### ii) Gender diversity within the Group

**Certification by Chief Executive and Chief Financial Officer  
For the year ended 31 December 2021**

**Certification Under Section 405 (1) of the Companies and Allied Matters Act 2020**

We the undersigned hereby certify the following with regards to our audited annual financial statements (AFS) for the year ended 31 December 2021 that:

1. We have reviewed the AFS and to the best of our knowledge:

i. the AFS do not contain any untrue statement of material facts or omit to state a material fact, which would make the statements misleading, in the light of the circumstances under which such statement was made, and

ii. the AFS and all other financial information included in the statements fairly present, in all material respects, the financial condition and results of operation of the company as of and for, the periods covered by the AFS;

2. We are responsible for establishing and maintaining internal controls and has designed such internal controls to ensure that material information relating to the company and its subsidiaries is made known to the officer by other officers of the companies, particularly during the period in which the audited financial statement report is being prepared;

3. We have evaluated the effectiveness of the company's internal controls within 90 days before the date of AFS, and certify that the company's internal controls are effective as of that date;

4. We have disclosed to the company's auditors and audit committee –

i. all significant deficiencies in the design or operation of internal controls which could adversely affect the company's ability to record, process, summarise and report financial data, and has identified for the company's auditors any material weaknesses in internal controls, and

ii. any fraud whether or not, material that involves management or other employees who have a significant role in the company's internal control.

5. There were no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

3 February 2022

**Report of the audit committee  
For the year ended 31 December 2021**

**To the members of Stanbic IBTC Holdings PLC**

In compliance with the provisions of Section 404 of the Companies & Allied Matters Act 2020, the Audit Committee considered the audited consolidated and separate annual financial statements for the year ended 31 December 2021 together with the management controls report from the auditors and the company's response to this report at its meeting held on 31 January 2022.

In our opinion, the scope and planning of the audit for the year ended 31 December 2021 were adequate.

We have exercised our statutory functions under Section 404 (7) of the Companies and Allied Matters Act of Nigeria and acknowledge the co-operation of management and staff in the conduct of these responsibilities.

We are of the opinion that the accounting and reporting policies of the company and the Group are in accordance with legal requirements and agreed ethical practices, and that the scope and planning of both the external and internal audits for the year ended 31 December 2021 were satisfactory and reinforce the Group's internal control systems.

After due consideration, the Audit Committee accepted the report of the Auditors that the financial statements were in accordance with ethical practice and International Financial Reporting Standards.

The Committee reviewed Management's response to the auditors findings in respect of management matters and we are satisfied with management's response thereto.

We are satisfied that the company has complied with the provisions of Central Bank of Nigeria circular BSD/1/2004 dated 18 February 2004 on "Disclosure of insider related credits in the financial statements of banks", and hereby confirm that an aggregate amount of N29,637,684,713 (31 December 2020: N54,320,123,792) was outstanding as at 31 December 2021. The performance status of insider related credits is as disclosed in Note 38.

The Committee also approved the provision made in the consolidated and separate annual financial statements in relation to the remuneration of the auditors.

---

Mr. Samuel Ayininuola  
**Chairman, Audit Committee**  
**FRC/2016/CAN/00000015248**  
**31 January 2022**

Members of the audit committee are:

1. Mr. Samuel Ayininuola\*
2. Mr. Ibhadé George\*
3. Mr. Olatunji Bamidele\*
4. Ms Ngozi Edozien\*\*
5. Mr. Ballama Manu\*\*

\*=Shareholders' representative

\*\*=Non-Executive Directors

## *Independent auditor's report*

To the Members of Stanbic IBTC Holdings PLC

### *Report on the audit of the consolidated and separate financial statements*

---

#### *Our opinion*

In our opinion, the consolidated and separate financial statements give a true and fair view of the consolidated and separate financial position of Stanbic IBTC Holdings PLC (“the company”) and its subsidiaries (together “the group”) as at 31 December 2021, and of their consolidated and separate financial performance and their consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies and Allied Matters Act and the Financial Reporting Council of Nigeria Act.

#### **What we have audited**

Stanbic IBTC Holdings PLC’s consolidated and separate financial statements comprise:

- the consolidated and separate statements of financial position as at 31 December 2021;
- the consolidated and separate statements of profit or loss for the year then ended;
- the consolidated and separate statements of other comprehensive income for the year then ended;
- the consolidated and separate statements of changes in equity for the year then ended;
- the consolidated and separate statements of cash flows for the year then ended; and
- the notes to the consolidated and separate financial statements, which include a summary of significant accounting policies.

---

#### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated and separate financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Independence**

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), i.e. the IESBA Code issued by the International Ethics Standards Board for Accountants. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><i>Impairment allowance of loans and advances to customers – N25 billion (refer to notes 4.3, 6.2 and 12.1b)</i></p> <p>This is considered a key audit matter because of the size of the loans and advances to customers balance net of impairment (N921 billion) and the significant use of management judgement in determining the timing and recognition of impairment.</p> <p>The measurement of impairment allowance involves the exercise of significant judgements and the use of complex models and assumptions. The key areas of significant judgement in the calculation of Expected Credit Loss (ECL) include:</p> <ul style="list-style-type: none"><li>• Definition of default applied by the bank;</li><li>• Assessment of exposures which experienced significant increase in credit risk (SICR);</li><li>• Estimation of point-in-time probability of default (PD) used in the ECL models;</li><li>• Estimation of the Loss Given Default (LGD);</li><li>• estimation of the Exposure at default (EAD) used in computing expected credit losses over the life of risk assets as well as credit conversion factor (CCF) used for off balance sheet exposures; and</li><li>• Incorporation of forward-looking information (FLI) in the PD parameter within the ECL model.</li></ul> <p>This is considered a key audit matter in the consolidated financial statements.</p>	<p>We adopted a combination of controls and substantive approach in assessing the allowance for impairment made by the management.</p> <p>We evaluated and tested the design and operating effectiveness of controls around the system's computation of days past due and we tested controls over inputs into the credit rating system.</p> <p>We evaluated management's default definition against the 90 days past due rebuttable presumption and performed a detailed review of selected customer files and account statements to assess the appropriateness of the days past due on sampled loan accounts.</p> <p>We assessed the classification of loan accounts into the various stages by reviewing the identified indicators of SICR for selected exposures.</p> <p>With the assistance of our credit - modelling experts, we:</p> <ul style="list-style-type: none"><li>• evaluated the appropriateness of the IFRS 9 impairment methodology;</li><li>• assessed the modelling principles implemented in the ECL framework which includes definition of default, historical behavioural performance and forward-looking macroeconomic information in the estimation of risk parameters used in the ECL calculation;</li><li>• assessed the reasonableness of the PD by performing a recalculation of the probability of default estimate;</li><li>• checked the accuracy of the computed LGD. For stage 3 loans, we assessed the reasonableness of collateral information as well as the validity of recoveries applied;</li><li>• checked the appropriateness of the EAD estimation for on balance sheet exposures and CCF estimation used for loan commitments and off-balance sheet exposures by reviewing the methodology and logic applied;</li></ul>

- checked the methodology for incorporating FLI into the ECL model and assessed the FLI for reasonableness given current economic factors;
- assessed the methodology applied in the IFRS 9 impairment calculation engine used to combine PD, LGD and EAD term structures to arrive at an expected credit loss.

We checked the IFRS 9 disclosures for reasonableness.

---

*Valuation of Derivative financial instruments – Derivative Assets – N41.2 billion and Derivative liabilities – N25.4bn (refer to notes 4.3, 4.4, 10, 29.3 and 29.4)*

This is considered a key audit matter due to the complexity of the instruments and the significant assumptions and judgments made in estimating the fair value of these instruments.

The Group's derivative financial instruments comprise foreign currency swaps and foreign exchange forward contracts used to manage foreign exchange risk. In estimating the fair value of the derivative financial instruments, the Group uses complex valuation methodologies involving multiple inputs which include discount rates, exchange rates, earnings yield among others.

The fair valuation of the swap transaction that gave rise to Day one gain was calculated using Interest rate parity method as the fair value exceeded the transaction price.

In determining the fair value of derivative instruments, some of the valuation inputs were not directly observable from publicly available market transactions in the same instrument. Unobservable inputs into the model included Own credit risk, Counterparty credit risk and Cross-correlation risk. As a result of these unobservable inputs, the Day one gain was deferred on initial recognition.

This is considered a key audit matter in the consolidated financial statements.

---

We adopted a substantive approach in assessing the fair valuation of Derivative financial instruments.

We compared sample derivative contract documents against the terms of the respective transactions.

For the swap transaction that gave rise to a Day one gain;

- We understood the method for calculating Day one gain and checked the calculation performed on the transaction date.
- With the assistance of our Accounting Consulting experts, we assessed the appropriateness of the treatment of the instrument as a derivative transaction and the recognition of Day one gain in line with IFRS 9.

With the assistance of our Valuation experts, we:

- assessed the appropriateness of the methodology and assumptions to determine whether the valuation model was in line with acceptable market practice; and
- checked the fair value of derivative assets and liabilities by comparing the rates used in the valuation model to publicly available information.

We checked the appropriateness of disclosures made on derivative financial instruments.

---

### *Other information*

The directors are responsible for the other information. The other information comprises Directors' report, Statement of Directors' responsibilities, Corporate governance report, Report of the external consultants on Board effectiveness and evaluation, Certification by Chief Executive Officer and Chief Financial Officer, Report of the audit committee, Value added statement Five-Year financial summary, COVID-19 impact on the Group and Details of professionals who provided services to the financial statements (but does not include the consolidated and separate financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the other sections of the Stanbic IBTC Holdings PLC 2021 Annual Report, which are expected to be made available to us after that date.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other sections of the Stanbic IBTC Holdings PLC 2021 Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

---

### *Responsibilities of the directors and those charged with governance for the consolidated and separate financial statements*

The directors are responsible for the preparation of the consolidated and separate financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Companies and Allied Matters Act, the Financial Reporting Council of Nigeria Act, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

---

### *Auditor's responsibilities for the audit of the consolidated and separate financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

---

## *Report on other legal and regulatory requirements*

The Companies and Allied Matters Act requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- ii) the company has kept proper books of account, so far as appears from our examination of those books and returns adequate for our audit have been received from branches not visited by us;
- iii) the company's statement of financial position, statement of profit or loss and statement of other comprehensive income are in agreement with the books of account and returns.

The accompanying notes from page 7 to 127 form an integral part of these financial statements

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 1 Reporting entity

Stanbic IBTC Holdings PLC (the 'Company') is a company domiciled in Nigeria. The company's registered office is at I.B.T.C. Place Walter Carrington Crescent Victoria Island, Lagos, Nigeria. These consolidated annual financial statements comprise the company and its subsidiaries (together referred to as the 'Group'). The separate financial statement relates to Stanbic IBTC Holdings PLC. The Group is primarily involved in the provision of banking and other financial services to corporate and individual customers.

#### 2 Basis of preparation

##### (a) Statement of compliance

The consolidated and separate annual financial statements for the year ended 31 December 2021 have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The financial statements comply with the Companies and Allied Matters Act of Nigeria, Bank and Other Financial Institution Act, Financial Reporting Council of Nigeria Act, and relevant Central Bank of Nigeria circulars.

The consolidated and separate annual financial statements for the year ended 31 December 2021 was approved by the Board of Directors on 3 February 2022.

##### (b) Basis of measurement

These consolidated and separate annual financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- derivative financial instruments are measured at fair value
- financial instruments at fair value through profit or loss are measured at fair value
- certain financial assets are measured at fair value through other comprehensive income
- liabilities for cash-settled share-based payment arrangements are measured at fair value
- trading assets and liabilities are measured at fair value

The Group applies accrual accounting for recognition of its income and expenses.

##### (c) Going concern assumption

These consolidated and separate annual financial statements have been prepared on the basis that the Group and company will continue to operate as a going concern.

##### (d) Functional and presentation currency

These consolidated and separate annual financial statements are presented in Nigerian Naira, which is the company and its subsidiaries functional and presentation currency. All financial information presented in Naira has been rounded to the nearest million, except when otherwise stated.

##### (e) Use of estimates and judgement

The preparation of the consolidated and separate annual financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

##### Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated annual financial statements is included in the note below;

- Note 6.9 Depreciation and useful life of property and equipment
- Impairment of financial instruments: assessment of whether credit risk on the financial asset has increased significantly since initial recognition (see note 26).
- Classification of financial assets: assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.
- Determination of whether the Group controls investment funds where it act as fund manager (see note 6.8).
- Provision for contingent items such as legal claims, fines, penalties and other tax penalties. (see note 6.7).
- Determination of the fair value of financial instruments with significant unobservable inputs (see note 6.3).
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources (see notes 26 & 31).

##### Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 December 2021 is included in the following notes.

- Determination of the fair value of financial instruments with significant unobservable inputs (see note 6.3).
- Determination of the fair value of share-based payments (see note 6.4).
- Impairment of financial instruments: incorporation of forward-looking information in the measurement of ECL.
- Recognition of deferred tax assets: availability of future taxable profit against which carry-forward tax losses can be used (see note 16) as well as the likelihood and uncertainties of the extension of the tax exempt status of income on Government securities which we have assumed to be highly likely. Included in the recoverability review of deferred tax assets is assumptions about interest rates, exchange rates, inflation rate as well as the likelihood of the extension of the tax-exempt status of income on Government securities which the Group assumes is more than likely (see note 16).

#### 3 Changes in accounting policies

Except as described below, the Group has consistently applied the accounting policies as set out in Note 4 to all periods presented in these annual financial statements.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 3 Changes in significant accounting policies (continued)

##### Adoption of amended standards effective for the current financial year

- **IFRS 4 Insurance Contracts (IFRS 4), IFRS 7 Financial Instruments: Disclosures (IFRS 7), IFRS 9 Financial Instruments (IFRS 9), IFRS 16 Leases (IFRS 16), IAS 39 Financial Instruments: Recognition and Measurement (IAS 39) (amendments):** The second phase of Interest Rate Benchmark Reform (IBOR) resulted in amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 requirements to enable companies to deal with its effect on financial instruments and to continue providing useful information to investors. The amendments require entities to update the effective interest rate to reflect the change to the alternative risk-free rates (ARRs), instead of derecognising or adjusting the carrying amount of financial instruments, for changes required by the reform if the transition from the IBOR rate to the ARR is as a direct consequence of the reform and on an economically equivalent basis. The amendment also provides specific hedge accounting relief, including that an entity will not have to discontinue hedge accounting solely because it makes changes required by the reform to hedge designations and hedge documentation, if the hedge meets the other hedge accounting criteria. The amendments also require companies to provide additional information about new risks arising from the reform and how it manages the transition to ARR. The group will transition to ARR as each interest rate benchmark is replaced.
- **IFRS 16 Leases (amendment):** In light of the recent Covid-19 pandemic and resultant rent concessions to be granted by lessors, the amendment permits lessees, as a practical expedient, not to assess whether particular Covid-19 related rent concessions are lease modifications and instead account for those rent concessions as if they were not lease modifications. The amendment permits lessees to apply the practical expedient as an accounting policy choice to rent concessions for which any reduction in lease payments affects payments originally due on or before 30 June 2021. The group elected not to apply this practical expedient.

The above mentioned amendments and interpretation to the IFRS standards, adopted on 1 January 2021, did not effect the Group's previously reported financial results, disclosures or accounting policies and did not impact the Group's results materially upon transition.

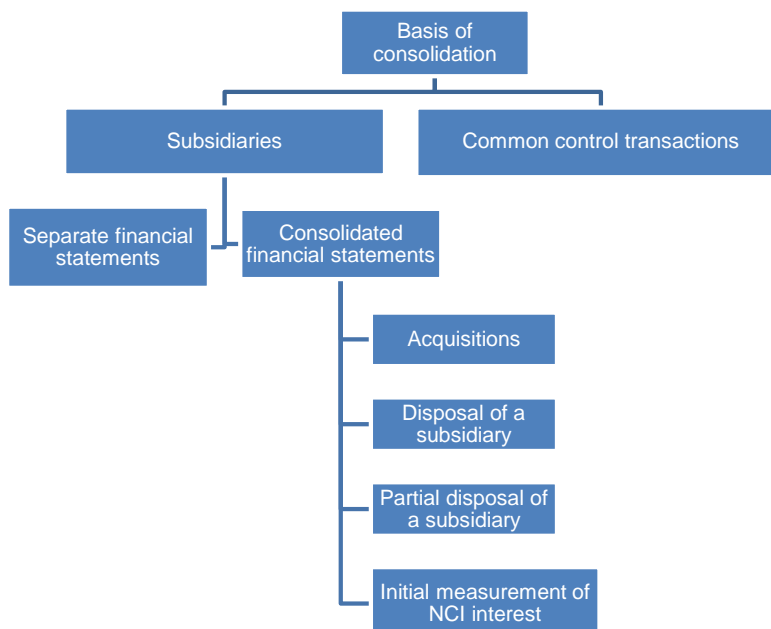

# STANBIC IBTC HOLDINGS PLC

## Notes to the consolidated and separate financial statements For the year ended 31 December 2021

### 4 Statement of significant accounting policies

Except for the changes explained in note 3, the Group has consistently applied the following accounting policies to all periods presented in these consolidated and separate annual financial statements.

#### 4.1 Basis of consolidation

**Subsidiaries (including mutual funds, in which the Group has both an irrevocable asset management agreement and a significant investment)**

#### Separate financial statements

Investments in subsidiaries are accounted for at cost less accumulated impairment losses (where applicable) in the separate financial statements. The carrying amounts of these investments are reviewed annually for impairment indicators and, where an indicator of impairment exists, are impaired to the higher of the investment's fair value less costs to sell or value in use.

#### Consolidated financial statements

The accounting policies of subsidiaries that are consolidated by the Group conform to the Group's accounting policies. IntraGroup transactions, balances and unrealised gains/(losses) are eliminated on consolidation. Unrealised losses are eliminated in the same manner as unrealised gains, but only to the extent that there is no evidence of impairment. The proportion of comprehensive income and changes in equity allocated to the Group and non-controlling interest are determined on the basis of the Group's present ownership interest in the subsidiary.

<b>Acquisitions</b>	<p>Subsidiaries are entities controlled by the Group and are consolidated from the date on which the Group acquires control up to the date that control is lost. The Group controls an entity if it is exposed to, or has the rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Control is assessed on a continuous basis. For mutual funds the Group further assesses its control by considering the existence of either voting rights or significant economic power.</p> <p>The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The consideration transferred is measured as the sum of the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the acquisition date. The consideration includes any asset, liability or equity resulting from a contingent consideration arrangement. The obligation to pay contingent consideration is classified as either a liability or equity based on the terms of the arrangement. The right to a return of previously transferred consideration is classified as an asset. Transaction costs are recognised within profit or loss as and when they are incurred. Where the initial accounting is incomplete by the end of the reporting period in which the business combination occurs (but no later than 12 months since the acquisition date), the Group reports provisional amounts.</p>
---------------------	---

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements For the year ended 31 December 2021

#### 4 Statement of significant accounting policies (continued)

<b>Acquisitions (continued)</b>	<p>Where applicable, the Group adjusts retrospectively the provisional amounts to reflect new information obtained about facts and circumstances that existed at the acquisition date and affected the measurement of the provisional amounts. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any NCI. The excess (shortage) of the sum of the consideration transferred (including contingent consideration), the value of NCI recognised and the acquisition date fair value of any previously held equity interest in the subsidiary over the fair value of identifiable net assets acquired is recorded as goodwill in the statement of financial position (gain on bargain purchase, which is recognised directly in profit or loss). When a business combination occurs in stages, the previously held equity interest is remeasured to fair value at the acquisition date and any resulting gain or loss is recognised in profit or loss.</p> <p>Increases in the Group's interest in a subsidiary, when the Group already has control, are accounted for as transactions with equity holders of the Group. The difference between the purchase consideration and the Group's proportionate share of the subsidiary's additional net asset value acquired is accounted for directly in equity.</p>
<b>Loss of control in a subsidiary</b>	<p>When the Group loses control of a subsidiary, the Group derecognizes the assets and liabilities of the subsidiary, any related non controlling interest and the other components of equity relating to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in the profit or loss statement. If the loss of control is due to a disposal, the profit or loss on disposal is calculated as the difference between the fair value of the consideration received (including the fair value of any retained interest in the underlying investee) and the carrying amount of the assets and liabilities and any non-controlling interest. Any gains or losses in OCI that relate to the subsidiary are reclassified to profit or loss at the time of the disposal. On disposal of a subsidiary that includes a foreign operation, the relevant amount in the FCTR is reclassified to profit or loss at the time at which the profit or loss on disposal of the foreign operation is recognised.</p> <p>Upon loss of control, the Group recognises any investment retained in the former subsidiary and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant IFRSs.</p>
<b>Partial disposal of a subsidiary</b>	<p>A partial disposal arises as a result of a reduction in the Group's ownership interest in an investee that is not a disposal (i.e. a reduction in the Group's interest in a subsidiary whilst retaining control). Decreases in the Group's interest in a subsidiary, where the Group retains control, are accounted for as transactions with equity holders of the Group. Gains or losses on the partial disposal of the Group's interest in a subsidiary are computed as the difference between the sales consideration and the Group's proportionate share of the investee's net asset value disposed of, and are accounted for directly in equity.</p>
<b>Initial measurement of NCI</b>	<p>The Group elects on each acquisition to initially measure NCI on the acquisition date at either fair value or at the NCI's proportionate share of the investees' identifiable net assets.</p>

#### Common control transactions

Common control transactions, in which the company is the ultimate parent entity both before and after the transaction, are accounted for at book value.

#### Foreign currency translations

Foreign currency transactions are translated into the respective Group entities' functional currencies at exchange rates prevailing at the date of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period-end exchange rates, are recognised in profit or loss.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at historical cost are translated using the exchange rate at the transaction date, and those measured at fair value are translated at the exchange rate at the date that the fair value was determined. Foreign exchange rate differences on non-monetary items are accounted for based on the classification of the underlying items.

In the case of foreign currency gains and losses on debt instruments classified as FVOCI, a distinction is made between foreign currency differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. Foreign currency differences related to changes in the amortised cost are recognised in profit or loss, and other changes in the carrying amount, except impairment, are recognised in equity. For FVOCI equity investments, foreign currency differences are recognised in OCI and cannot be reclassified to profit/loss.

Foreign currency gains and losses on intraGroup loans are recognised in profit or loss except where the settlement of the loan is neither planned nor likely to occur in the foreseeable future.

#### 4.2 Cash and cash equivalents

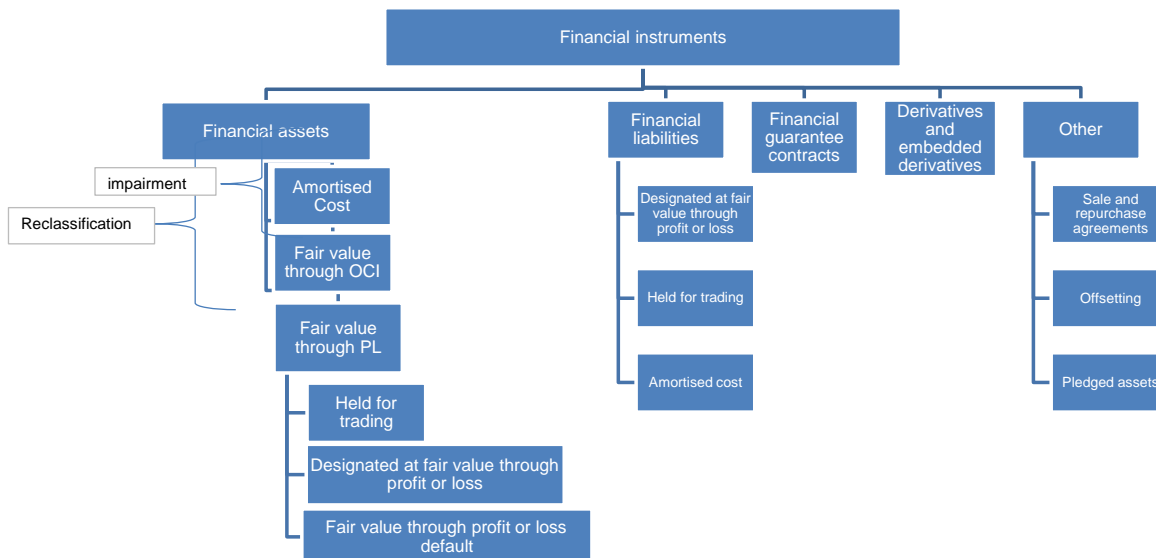

Cash and cash equivalents presented in the statement of cash flows consist of cash and balances with central banks (excluding cash reserve), and balances with other banks with original maturities of 3 months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair values and are used by management to fulfill short term commitments. Cash and balances with central banks comprise coins and bank notes, balances with central banks and other short term investments.

**STANBIC IBTC HOLDINGS PLC**  
**Notes to the consolidated and separate financial statements**  
**For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**4.3 Financial instruments**

The relevant financial instruments are financial assets classified at amortised cost, fair value through OCI, fair value through P/L and financial liabilities.

**Recognition and initial measurement – financial instruments**

All financial instruments are measured initially at fair value plus directly attributable transaction costs and fees, except for those financial instruments that are subsequently measured at fair value through profit or loss where such transaction costs and fees are immediately recognised in profit or loss. Financial instruments are recognised (derecognised) on the date the Group commits to purchase (sell) the instruments (trade date accounting).

**Financial assets**

<b>Amortised cost</b>	A debt instrument that meets both of the following conditions (other than those designated at fair value through profit or loss): <ul style="list-style-type: none"> <li>• held within a business model whose objective is to hold the debt instrument (financial asset) in order to collect contractual cash flows; and</li> <li>• The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.</li> </ul> This assessment includes determining the objective of holding the asset and whether the contractual cash flows are consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are not considered de minimis and are inconsistent with a basis lending arrangement, the financial asset is classified as fair value through profit or loss – default.
<b>Fair value through OCI</b>	Includes: <ul style="list-style-type: none"> <li>• A debt instrument that meets both of the following conditions (other than those designated at fair value through profit or loss):               <ul style="list-style-type: none"> <li>— held within a business model in which the debt instrument (financial asset) is managed to both collect contractual cash flows and sell financial assets; and</li> <li>— the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.</li> </ul>               This assessment includes determining the objective of holding the asset and whether the contractual cash flows are consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are not considered de minimis and are inconsistent with a basis lending arrangement, the financial asset is classified as fair value through profit or loss – default.             </li> <li>• Equity financial assets which are not held for trading and are irrevocably elected (on an instrument-by-instrument basis) to be presented at fair value through OCI.</li> </ul>
<b>Held for trading</b>	Those financial assets acquired principally for the purpose of selling in the near term, those that form part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking.
<b>Designated at fair value through profit or loss</b>	Financial assets are designated to be measured at fair value in the following instances: <ul style="list-style-type: none"> <li>- to eliminate or significantly reduce an accounting mismatch that would otherwise arise</li> <li>- where the financial assets are managed and their performance evaluated and reported on a fair value basis</li> <li>- where the financial asset contains one or more embedded derivatives that significantly modify the financial asset's cash flows.</li> </ul>
<b>Fair value through profit or loss default</b>	Financial assets that are not classified into one of the above-mentioned financial asset categories.

Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021

4 Statement of significant accounting policies (continued)

**Subsequent measurement**

Subsequent to initial measurement, financial assets are classified in their respective categories and measured at either amortised cost or fair value as follows:

<b>Amortised cost</b>	Amortised cost using the effective interest method with interest recognised in interest income, less any impairment losses which are recognised as part of credit impairment charges. Directly attributable transaction costs and fees received are capitalised and amortised through interest income as part of the effective interest rate.
<b>Fair value through OCI</b>	Debt instrument: Fair value, with gains and losses recognised directly in the fair value through OCI reserve. When a debt financial asset is disposed of, the cumulative fair value adjustments, previously recognised in OCI, are reclassified to the other gains and losses on financial instruments within non-interest revenue. Interest income on debt financial asset is recognised in interest income in terms of the effective interest rate method. Dividends received are recognised in interest income within profit or loss. Equity instrument: Fair value, with gains and losses recognised directly in the fair value through OCI reserve. When equity financial assets are disposed of, the cumulative fair value adjustments in OCI are reclassified within reserves to retained income. Dividends received on equity instruments are recognised in other revenue within non-interest income.
<b>Held for trading</b>	Fair value, with gains and losses arising from changes in fair value) (including interest and dividends) recognised in trading revenue.
<b>Designated at fair value through profit or loss</b>	Fair value gains and losses (including interest and dividends) on the financial asset are recognised in the income statement as part of other gains and losses on financial instruments within non-interest revenue.
<b>Fair value through profit or loss – default</b>	Fair value gains and losses (including interest and dividends) on the financial asset are recognised in the income statement as part of other gains and losses on financial instruments within non-interest revenue.

**Impairment**

Expected credit losses (ECL) are recognised on debt financial assets classified as at either amortised cost or fair value through OCI, financial guarantee contracts that are not designated at fair value through profit or loss as well as loan commitments that are neither measured at fair value through profit or loss nor are used to provide a loan at a below market interest rate.

The measurement basis of the ECL of a financial asset includes assessing whether there has been a significant increase in credit risk (SICR) at the reporting date which includes forward-looking information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. The measurement basis of the ECL, which is set out in the table that follows, is measured as the unbiased and probability weighted amount that is determined by evaluating a range of possible outcomes, the time value of money and forward looking information.

<b>Stage 1</b>	A 12-month ECL is calculated for financial assets which are neither credit-impaired on origination nor for which there has been a SICR.
<b>Stage 2</b>	A lifetime ECL allowance is calculated for financial assets that are assessed to have displayed a SICR since origination and are not considered low credit risk.
<b>Stage 3</b>	A lifetime ECL is calculated for financial assets that are assessed to be credit impaired. The following criteria are used in determining whether the financial asset is impaired: <ul style="list-style-type: none"> <li>• default</li> <li>• significant financial difficulty of borrower and/or modification</li> <li>• probability of bankruptcy or financial reorganisation</li> <li>• disappearance of an active market due to financial difficulties.</li> </ul>

Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021

4 Statement of significant accounting policies (continued)

The key components of the impairment methodology are described as follows:

<b>Significant increase in credit risk (SICR)</b>	At each reporting date the Group assesses whether the credit risk of its exposures has increased significantly since initial recognition by considering the change in the risk of default occurring over the expected life of the financial asset. Credit risk of exposures which are overdue for more than 30 days are also considered to have increased significantly.
<b>Low credit risk</b>	Exposures are generally considered to have a low credit risk where there is a low risk of default, the exposure has a strong capacity to meet its contractual cash flow obligations and adverse changes in economic and business conditions may not necessarily reduce the exposure's ability to fulfil its contractual obligations.
<b>Default</b>	The Group's definition of default has been aligned to its internal credit risk management definitions and approaches. A financial asset is considered to be in default when there is objective evidence of impairment. The following criteria are used in determining whether there is objective evidence of impairment for financial assets or Groups of financial assets: <ul style="list-style-type: none"> <li>• significant financial difficulty of borrower and/or modification (i.e. known cash flow difficulties experienced by the borrower)</li> <li>• a breach of contract, such as default or delinquency in interest and/or principal payments</li> <li>• disappearance of active market due to financial difficulties</li> <li>• it becomes probable that the borrower will enter bankruptcy or other financial reorganisation</li> <li>• where the Group, for economic or legal reasons relating to the borrower's financial difficulty, grants the borrower a concession that the Group would not otherwise consider.</li> </ul> Exposures which are overdue for more than 90 days are also considered to be in default.
<b>Forward-looking information</b>	Forward looking information is incorporated into the Group's impairment methodology calculations and in the Group's assessment of SICR. The Group includes all forward looking information which is reasonable and available without undue cost or effort. The information will typically include expected macro-economic conditions and factors that are expected to impact portfolios or individual counterparty exposures.
<b>Write-off</b>	Financial assets are written off when there is no reasonable expectation of recovery. Financial assets which are written off may still be subject to enforcement activities.

ECLs are recognised within the statement of financial position as follows:

<b>Financial assets measured at amortised cost (including commitments)</b>	Recognised as a deduction from the gross carrying amount of the asset (Group of assets). Where the impairment allowance exceeds the gross carrying amount of the asset (Group of assets), the excess is recognised as a provision within other liabilities.
<b>Off-balance sheet exposures (excluding loan commitments)</b>	Recognised as a provision within provisions.
<b>Financial assets measured at fair value through OCI</b>	Recognised in the fair value reserve within equity. The carrying value of the financial asset is recognised in the statement of financial position at fair value.

**Reclassification**

Reclassifications of financial assets are permitted only in the following instances:

Reclassifications of debt financial assets are permitted when, and only when, the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified. Reclassifications are accounted for prospectively from the date of reclassification as follows:
<ul style="list-style-type: none"> <li>• Financial assets that are reclassified from amortised cost to fair value are measured at fair value at the date of reclassification with any difference in measurement basis being recognised in other gains and losses on financial instruments</li> </ul>
<ul style="list-style-type: none"> <li>• The fair value of a financial asset that is reclassified from fair value to amortised cost becomes the financial asset's new carrying value</li> </ul>
<ul style="list-style-type: none"> <li>• Financial assets that are reclassified from amortised cost to fair value through OCI are measured at fair value at the date of reclassification with any difference in measurement basis being recognised in OCI</li> </ul>
<ul style="list-style-type: none"> <li>• The fair value of a financial asset that is reclassified from fair value through OCI to amortised cost becomes the financial asset's new carrying value with the cumulative fair value adjustment recognised in OCI being recognised against the new carrying value</li> </ul>
<ul style="list-style-type: none"> <li>• The carrying value of financial assets that are reclassified from fair value through profit or loss to fair value through OCI remains at fair value</li> </ul>
<ul style="list-style-type: none"> <li>• The carrying value of financial assets that are reclassified from fair value through OCI to fair value through profit or loss remains at fair value, with the cumulative fair value adjustment in OCI being recognised in the income statement at the date of reclassification.</li> </ul>

Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021

4 Statement of significant accounting policies (continued)

Financial liabilities

Nature

<b>Held for trading</b>	Those financial liabilities incurred principally for the purpose of re-purchasing in the near term, those that form part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking.
<b>Designated at fair value through profit or loss</b>	Financial liabilities are designated to be measured at fair value in the following instances: - to eliminate or significantly reduce an accounting mismatch that would otherwise arise where the financial liabilities are managed and their performance evaluated and reported on a fair value basis - where the financial liability contains one or more embedded derivatives that significantly modify the financial asset's cash flows.
<b>At amortised cost</b>	All other financial liabilities not included the above categories.

Subsequent measurement

Subsequent to initial measurement, financial liabilities are classified in their respective categories and measured at either amortised cost or fair value as follows:

<b>Held for trading</b>	Fair value, with gains and losses arising from changes in fair value) (including interest and dividends) recognised in trading revenue.
<b>Designated at fair value through profit or loss</b>	Fair value, with gains and losses arising from changes in fair value (including interest and dividends but excluding fair value gains and losses attributable to own credit risk) are recognised in other gains and losses on financial instruments as part of non-interest revenue. Fair value gains and losses attributable to changes in own credit risk are recognised within OCI, unless this would create or enlarge an accounting mismatch in which case the own credit risk changes are recognised within OCI.
<b>At amortised cost</b>	Amortised cost using the effective interest method with interest recognised in interest expense.

Derecognition of financial assets and liabilities

Financial assets and liabilities are derecognised in the following instances:

<b>Financial assets</b>	Financial assets are derecognised when the contractual rights to receive cash flows from the financial assets have expired, or where the Group has transferred its contractual rights to receive cash flows on the financial asset such that it has transferred substantially all the risks and rewards of ownership of the financial asset. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.  The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or a portion of the risks or rewards of the transferred assets. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised. Transfers of assets with the retention of all or substantially all risks and rewards include securities lending and repurchase agreements.  In transfers where control over the asset is retained, the Group continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset. Any cumulative gain/loss recognised in OCI in respect of equity investment securities designated at FVOCI is not recognised in profit or loss on derecognition of such securities.
<b>Financial liabilities</b>	Financial liabilities are derecognised when the obligation of the financial liabilities are extinguished, that is, when the obligation is discharged, cancelled or expires.

Modification of financial assets and liabilities

Where an existing financial asset or liability is replaced by another with the same counterparty on substantially different terms, or the terms of an existing financial asset or liability are substantially modified, such an exchange or modification is treated as a derecognition of the original asset or liability and the recognition of a new asset or liability at fair value and recalculates a new effective interest rate, with the difference in the respective carrying amounts being recognised in other gains and losses on financial instruments within non-interest revenue. The date of recognition of a new asset is consequently considered to be the date of initial recognition for impairment calculation purposes.

If the terms are not substantially different for financial assets or financial liabilities, the Group recalculates the new gross carrying amount by discounting the modified cash flows of the financial asset or financial liability using the original effective interest rate. The difference between the new carrying gross carrying amount and the original gross carrying amount is recognised as a modification gain or loss within credit impairments (for distressed financial asset modifications) or gains and losses on financial instruments within non-interest revenue (for all other modifications).

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**Financial guarantee contracts**

A financial guarantee contract is a contract that requires the Group (issuer) to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts and loan commitments at a below market interest rate are initially recognised when the Group become party to the irrevocable commitment at fair value, which is generally equal to the premium received, and then amortised over the life of the financial guarantee. Financial guarantee contracts (that are not designated at fair value through profit or loss) and loan commitments at a below market interest rate, are subsequently measured at the higher of the:

- the ECL calculated for the financial guarantee; and
- unamortised premium.

**Derivatives and embedded derivatives**

A derivative is a financial instrument whose fair value changes in response to an underlying variable, requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors and is settled at a future date. Derivatives are initially recognised at fair value on the date on which the derivatives are entered into and subsequently remeasured at fair value.

All derivative instruments are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative, subject to offsetting principles as described under the heading "Offsetting" below.

All gains and losses from changes in the fair values of derivatives are recognised immediately in profit or loss as trading revenue.

**Other**

**Pledged assets**

Financial assets transferred to external parties that do not qualify for de-recognition are reclassified in the statement of financial position from financial investments or trading assets to pledged assets, if the transferee has received the right to sell or re-pledge them in the event of default from agreed terms. Initial recognition of pledged assets is at fair value, whilst subsequently measured at amortized cost or fair value as appropriate. These transactions are performed in accordance with the usual terms of securities lending and borrowing.

**Sale and repurchase agreements**

Securities sold subject to linked repurchase agreements (repurchase agreements) are reclassified in the statement of financial position as pledged assets when the transferee has the right by contract or custom to sell or repledge the collateral. The liability to the counterparty is included under deposit and current accounts or trading liabilities, as appropriate.

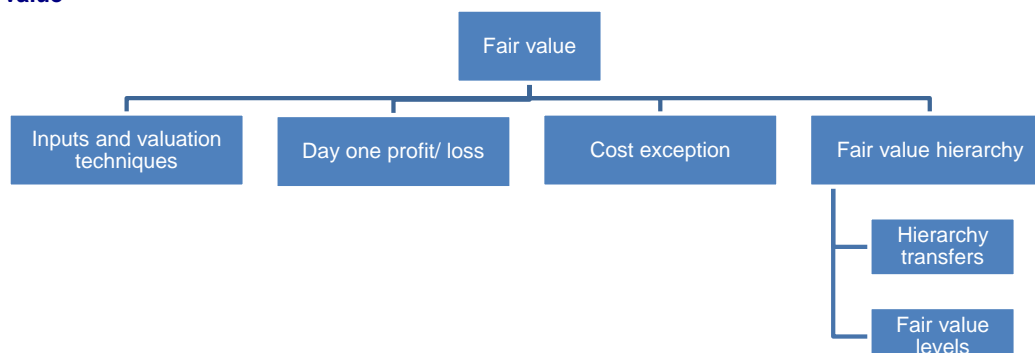

Securities purchased under agreements to resell (reverse repurchase agreements), at either a fixed price or the purchase price plus a lender's rate of return, are recorded as loans and included under trading assets or loans and advances, as appropriate. For repurchase and reverse repurchase agreements measured at amortised cost, the difference between the purchase and sales price is treated as interest and amortised over the expected life using the effective interest rate method.

**Offsetting**

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle the asset and the liability on a net basis, or to realise the asset and settle the liability simultaneously.

4 Statement of significant accounting policies (continued)

4.4 Fair value

In terms of IFRS, the Group is either required to or elects to measure a number of its financial assets and financial liabilities at fair value. Regardless of the measurement basis, the fair value is required to be disclosed, with some exceptions, for all financial assets and financial liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market between market participants at the measurement date under current market conditions. Fair value is a market based measurement and uses the assumptions that market participants would use when pricing an asset or liability under current market conditions. When determining fair value it is presumed that the entity is a going concern devoid of any circumstance that indicates a forced transaction, involuntary liquidation or a distressed sale. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date.

**Inputs and valuation techniques**

Fair value is measured based on quoted market prices or dealer price quotations for identical assets and liabilities that are traded in active markets, which can be accessed at the measurement date, and where those quoted prices represent fair value. If the market for an asset or liability is not active or the instrument is not quoted in an active market, the fair value is determined using other applicable valuation techniques that maximise the use of relevant observable inputs and minimises the use of unobservable inputs. These include the use of recent arm's length transactions, discounted cash flow analyses, pricing models and other valuation techniques commonly used by market participants.

Fair value measurements are categorised into level 1, 2 or 3 within the fair value hierarchy based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement.

Where discounted cash flow analyses are used, estimated future cash flows are based on management's best estimates and a market related discount rate at the reporting date for an asset or liability with similar terms and conditions.

If an asset or a liability measured at fair value has both a bid and an ask price, the price within the bid-ask spread that is most representative of fair value is used to measure fair value.

The Group's valuation control framework governs internal control standards, methodologies, and procedures over its valuation processes, which include the following valuation techniques and main inputs and assumptions per type of instrument:

Item	Description	Valuation technique	Main inputs and assumptions (Level 2 and 3 fair value hierarchy items)
<b>Derivative financial instruments</b>	Derivative financial instruments comprise foreign exchange, interest rate, credit and equity derivatives that are held-for trading.	Standard derivative contracts are valued using market accepted models and quoted parameter inputs. More complex derivative contracts are modelled using more sophisticated modelling techniques applicable to the instrument. Techniques include: <ul style="list-style-type: none"> <li>• Discounted cash flow model</li> <li>• Black-Scholes model</li> <li>• Combination technique models.</li> </ul>	<ul style="list-style-type: none"> <li>• Discount rate*</li> <li>• Spot prices of the underlying assets</li> <li>• Correlation factors</li> <li>• Volatilities</li> <li>• Dividend yields</li> <li>• Earnings yield</li> <li>• Valuation multiples</li> </ul>
<b>Trading assets and Trading liabilities</b>	Trading assets and liabilities comprise instruments which are part of the Group's underlying trading activities. These instruments primarily include sovereign and corporate debt, and collateral.	Where there are no recent market transactions in the specific instrument, fair value is derived from the last available market price adjusted for changes in risks and information since that date.	

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

<b>Item</b>	<b>Description</b>	<b>Valuation technique</b>	<b>Main inputs and assumptions (Level 2 and 3 fair value hierarchy items)</b>
<b>Pledged assets</b>	Pledged assets comprise instruments that may be sold or repledged by the Group's counterparty in the absence of default by the Group. Pledged assets include sovereign debt (government treasury bills and bonds) pledged in terms of repurchase agreements.	Where a proxy instrument is quoted in an active market, the fair value is determined by adjusting the proxy fair value for differences between the proxy instrument and the financial investment being fair valued. Where proxies are not available, the fair value is estimated using more complex modelling techniques. These techniques include discounted cash flow and Black-Scholes models using current market rates for credit, interest, liquidity, volatility and other risks. Combination techniques are used to value unlisted equity securities and include inputs such as earnings and dividend yields of the underlying entity.	<ul style="list-style-type: none"> <li>• Discount rate*</li> <li>• Spot prices of the underlying</li> <li>• Correlation factors</li> <li>• Volatilities</li> <li>• Dividend yields</li> <li>• Earnings yield</li> <li>• Valuation multiples</li> </ul>
<b>Financial investments</b>	Financial investments are non-trading financial assets and primarily comprise of sovereign and corporate debt, unlisted equity instruments, investments in mutual fund investments and unit-linked investments.		
<b>Loans and advances to banks and customers</b>	Loans and advances comprise: <ul style="list-style-type: none"> <li>• Loans and advances to banks: call loans, loans granted under resale agreements and balances held with other banks.</li> <li>• Loans and advances to customers: mortgage loans (home loans and commercial mortgages), other asset-based loans, including collateralised debt obligations (instalment sale and finance leases), and other secured and unsecured loans (card debtors, overdrafts, other demand lending, term lending and loans granted under resale agreements).</li> </ul>	For certain loans, fair value may be determined from the market price of a recently occurring transaction adjusted for changes in risks and information between the transaction and valuation dates. Loans and advances are reviewed for observed and verified changes in credit risk and the credit spread is adjusted at subsequent dates if there has been an observable change in credit risk relating to a particular loan or advance. In the absence of an observable market for these instruments, discounted cash flow models are used to determine fair value. Discounted cash flow models incorporate parameter inputs for interest rate risk, foreign exchange risk, liquidity and credit risk, as appropriate. For credit risk, probability of default and loss given default parameters are determined using the relevant terms of the loan and loan counterparty such as the industry classification and subordination of the loan.	<ul style="list-style-type: none"> <li>• Discount rate.</li> <li>• Probability of default.</li> <li>• Loss given default.</li> </ul>
<b>Deposits (including banks and customers) and debt funding</b>	Deposits from banks and customers comprise amounts owed to banks and customers, deposits under repurchase agreements, negotiable certificates of deposit, credit-linked deposits and other deposits.	For certain deposits, fair value may be determined from the market price on a recently occurring transaction adjusted for all changes in risks and information between the transaction and valuation dates. In the absence of an observable market for these instruments discounted cash flow models are used to determine fair value based on the contractual cash flows related to the instrument. The fair value measurement incorporates all market risk factors including a measure of the Group's credit risk relevant for that financial liability. The market risk parameters are valued consistently to similar instruments held as assets stated in the section above. For collateralised deposits that are designated to be measured at fair value through profit or loss, such as securities repurchase agreements, the credit enhancement is incorporated into the fair valuation of the liability.	<ul style="list-style-type: none"> <li>• Discount rate.</li> </ul>

\* Discount rates, where applicable, include the risk-free rate, risk premiums, liquidity spreads, credit risk (own and counterparty as appropriate), timing of settlement, storage/service costs, prepayment and surrender risk assumptions and recovery rates/loss given default.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements For the year ended 31 December 2021

#### 4 Statement of significant accounting policies (continued)

##### Day one profit or loss

For financial instruments, where the fair value of the financial instrument differs from the transaction price, the difference is commonly referred to as day one profit or loss. Day one profit or loss is recognised in profit or loss immediately where the fair value of the financial instrument is either evidenced by comparison with other observable current market transactions in the same instrument, or is determined using valuation models with only observable market data as inputs.

Day one profit or loss is deferred where the fair value of the financial instrument is not able to be evidenced by comparison with other observable current market transactions in the same instrument, or determined using valuation models that utilise non-observable market data as inputs.

The timing of the recognition of deferred day one profit or loss is determined individually depending on the nature of the instrument and availability of market observable inputs. It is either amortised over the life of the transaction, deferred until the instrument's fair value can be determined using market observable inputs, or realised through settlement.

Any difference between the fair value at initial recognition and the amount that would be determined at that date using a valuation technique in a situation in which the valuation is dependent on unobservable parameters is not recognised in profit or loss immediately but is recognised over the life of the instrument on an appropriate basis or when the instrument is redeemed.

##### Fair value hierarchy

The Group's financial instruments that are both carried at fair value and for which fair value is disclosed are categorised by the level of fair value hierarchy. The different levels are based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement.

##### Hierarchy levels

The levels have been defined as follows:

<b>Level 1</b>	Fair value is based on quoted market prices (unadjusted) in active markets for an identical financial asset or liability. An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
<b>Level 2</b>	Fair value is determined through valuation techniques based on observable inputs, either directly, such as quoted prices, or indirectly, such as those derived from quoted prices. This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
<b>Level 3</b>	Fair value is determined through valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instrument being valued and the similar instrument.

##### Hierarchy transfer policy

Transfers of financial assets and financial liabilities between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period during which change occurred.

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**4.5 Employee benefits**

Type	Description	Statement of financial position	Statement of other comprehensive income	Income statement
Defined contribution plans	The Group operates a contributory pension plan in line with the Pension Reform Act 2014. Employees and the Bank contribute 8% and 10% respectively of each of the qualifying staff salary in line with the provisions of the Pension Reforms Act 2014.	Liability is recognised for unpaid contributions.	No impact.	Contributions are recognised as an expense in profit or loss in the periods during which services are rendered by employees.
Termination benefits	Termination benefits are recognised when the Group is committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy when it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.	A liability is recognised for the termination benefit representing the best estimate of the amount payable.	No impact.	Termination benefits are recognised as an expense if the Group has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.
Short-term benefits	Short-term benefits consist of salaries, accumulated leave payments, profit share, bonuses and any non-monetary benefits such as medical aid contributions.	A liability is recognised for the amount expected to be paid under short-term cash bonus plans or accumulated leave if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.	No direct impact.	Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

**STANBIC IBTC HOLDINGS PLC**

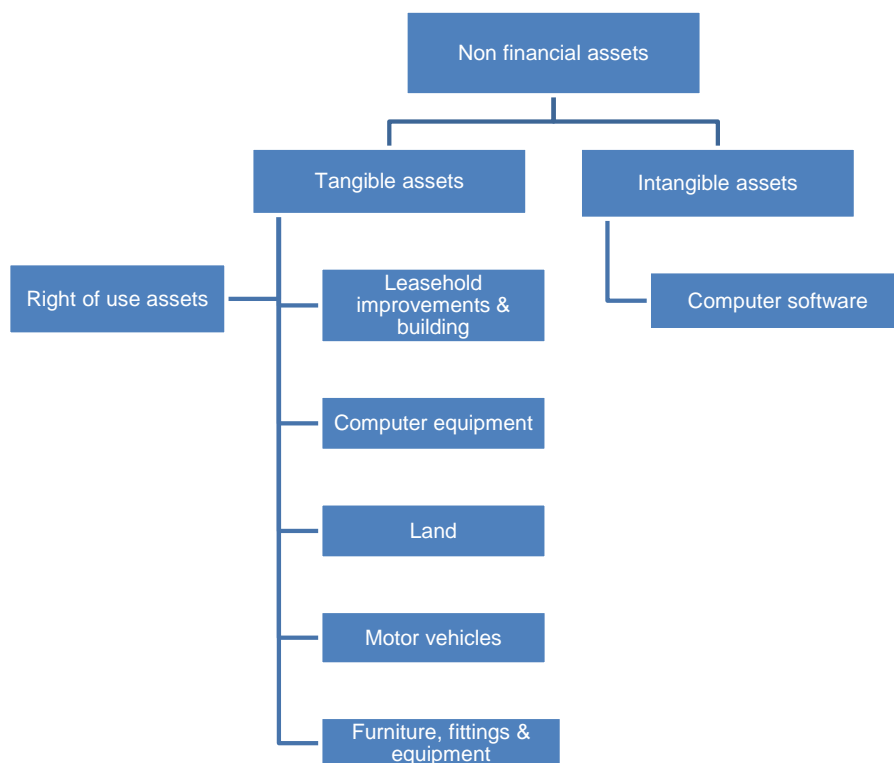

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**Equity-linked transactions**

<b>Equity-settled share based payments</b>	<p>The fair value of the equity-settled share based payments are determined on grant date and accounted for within operating expenses - staff costs over the vesting period with a corresponding increase in the Group's share-based payment reserve. Non-market vesting conditions, such as the resignation of employees and retrenchment of staff, are not considered in the valuation but are included in the estimate of the number of options expected to vest. At each reporting date, the estimate of the number of options expected to vest is reassessed and adjusted against profit or loss and equity over the remaining vesting period.</p> <p>On vesting of the equity-settled share based payments, amounts previously credited to the share-based payment reserve are transferred to retained earnings through an equity transfer.</p>
<b>Cash-settled share based payments</b>	<p>Cash-settled share based payments are accounted for as liabilities at fair value until the date of settlement. The liability is recognised over the vesting period and is revalued at every reporting date up to and including the date of settlement. All changes in the fair value of the liability are recognised in operating expenses – staff costs.</p>

**4.6 Non-financial assets (Intangible assets, Property and equipment, Right of use assets)**

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

Type	Initial and subsequent measurement	Useful lives, depreciation/ amortisation method or fair value basis	Impairment	Derecognition														
Tangible assets	<p>Property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. Land is measured at cost less accumulative impairment loss. Land is not depreciated.</p> <p>Costs that are subsequently incurred are included in the asset's related carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits will flow to the Group and the cost of the item can be measured reliably. Expenditure, which does not meet these criteria, is recognised in profit or loss as incurred.</p> <p>Where significant parts of an item of property or equipment have different useful lives, they are accounted for as separate major components of property and equipment.</p>	<p>Property and equipment are depreciated on the straight-line basis over estimated useful lives (see below) of the assets to their residual values. Land and Work-in progress are not depreciated.</p> <table border="0"> <tr> <td>Land</td> <td>N/A</td> </tr> <tr> <td>Buildings</td> <td>25 years</td> </tr> <tr> <td>Computer</td> <td>3-5 years</td> </tr> <tr> <td>Motor vehicles</td> <td>4 years</td> </tr> <tr> <td>Office equipments</td> <td>6 years</td> </tr> <tr> <td>Furniture</td> <td>4 years</td> </tr> <tr> <td>Capitalised leased assets/ branch refurbishments</td> <td>greater of 6 years or useful life of underlying asset</td> </tr> </table> <p>The residual values, useful lives and the depreciation method applied are reviewed, and adjusted if appropriate, at each financial year end.</p>	Land	N/A	Buildings	25 years	Computer	3-5 years	Motor vehicles	4 years	Office equipments	6 years	Furniture	4 years	Capitalised leased assets/ branch refurbishments	greater of 6 years or useful life of underlying asset	<p>Intangible assets that have an indefinite useful life are tested annually for impairment and additionally when an indicator of impairment exists.</p> <p>Other non-financial assets are reviewed for impairment at each reporting date and tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.</p> <p>An impairment loss is recognised in profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is determined as the higher of an asset's fair value less costs to sell and value in use.</p>	<p>The non-financial assets are derecognised on disposal or when no future economic benefits are expected from their use or disposal. The gain or loss on derecognition is recognised in profit or loss and is determined as the difference between the net disposal proceeds and the carrying amount of the non-financial asset.</p>
Land	N/A																	
Buildings	25 years																	
Computer	3-5 years																	
Motor vehicles	4 years																	
Office equipments	6 years																	
Furniture	4 years																	
Capitalised leased assets/ branch refurbishments	greater of 6 years or useful life of underlying asset																	
Intangible assets/ Computer software	<p>Costs associated with developing or maintaining computer software programmes and the acquisition of software licences are generally recognised as an expense as incurred.</p> <p>However, direct computer software development costs that are clearly associated with an identifiable and unique system, which will be controlled by the Group and have a probable future economic benefit beyond one year as well as acquired software, are recognised as intangible assets.</p> <p>Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses from the date that the assets are available for use.</p> <p>Expenditure subsequently incurred on computer software is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.</p>	<p>Amortisation is recognised in profit or loss on a straight-line basis at rates appropriate to the expected lives of the assets (2 to 15 years) from the date that the asset is available for use.</p> <p>Amortisation methods, useful lives and residual values are reviewed at each financial yearend and adjusted, if necessary.</p>	<p>Fair value less costs to sell is determined by ascertaining the current market value of an asset and deducting any costs related to the realisation of the asset.</p> <p>In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.</p>															

**STANBIC IBTC HOLDINGS PLC**  
**Notes to the consolidated and separate financial statements**  
**For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**4.7 Leases**

Type	Description	Statement of financial position	Income statement
<b>Lessee Accounting</b>			
Single lessee accounting model	<p>All leases are accounted for by recognising a right-of-use asset and a lease liability except for:</p> <ul style="list-style-type: none"> <li>• leases of low value assets; and</li> <li>• leases with a duration of twelve months or less.</li> </ul> <p>All leases that meet the criteria as either a lease of a low value asset or a short term lease are accounted for on a straight-line basis over the lease term.</p>	<p>Lease liabilities:</p> <p>Initially measured at the present value of the contractual payments due to the lessor over the lease term, with the discount rate determined by reference to the rate implicit in the lease unless (as is typically the case for the Group) this is not readily determinable, in which case the Group's incremental borrowing rate on commencement of the lease is used. The Group's standardised funding transfer pricing rate is the base on which the incremental borrowing rate is calculated. Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments are expensed in the year to which they relate. On initial recognition, the carrying value of the lease liability also includes:</p> <ul style="list-style-type: none"> <li>• Amounts expected to be payable under any residual value guarantee;</li> <li>• The exercise price of any purchase option granted in favour of the Group, should it be reasonably certain that this option will be exercised;</li> <li>• Any penalties payable for terminating the lease, should the term of the lease be estimated on the basis of this termination option being exercised.</li> </ul> <p>Subsequent to initial measurement, lease liabilities increase as a result of interest charged at a constant rate on the balance outstanding and are reduced for lease payments made.</p> <p>Right-of-use assets:</p> <p>Initially measured at the amount of the lease liability, reduced for any lease incentives received, and increased for:</p> <ul style="list-style-type: none"> <li>• lease payments made at or before commencement of the lease;</li> <li>• initial direct costs incurred; and</li> <li>• the amount of any provision recognised where the Group is contractually required to dismantle, remove or restore the leased asset.</li> </ul> <p>The Group applies the cost model subsequent to the initial measurement of the right-of-use assets. The Group measures the right-of-use assets at cost less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of the lease liability.</p> <p>Termination of leases:</p> <p>When the Group or lessor terminates or cancels a lease, the right-of-use asset and lease liability are derecognised.</p>	<p>Interest expense on lease liabilities:</p> <p>A lease finance cost, determined with reference to the interest rate implicit in the lease or the Group's incremental borrowing rate, is recognised within interest expense over the lease year.</p> <p>Depreciation on right-of-use assets:</p> <p>Subsequent to initial measurement, the right-of-use assets are depreciated on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset should this term be shorter than the lease term unless ownership of the underlying asset transfers to the Group at the end of the lease term, whereby the right-of-use assets are depreciated on a straight-line basis over the remaining economic life of the asset. This depreciation is recognised as part of operating expenses.</p> <p>Termination of leases:</p> <p>On derecognition of the right-of-use asset and lease liability, any difference is recognised as a derecognition gain or loss together with termination or cancellation costs in profit or loss.</p> <p>Payments made under these leases, net of any incentives received from the lessor, are recognised in operating expenses on a straight-line basis over the term of the lease. When these leases are terminated before the lease year has expired, any payment required to be made to the lessor by way of a penalty is recognised as operating expenses in the year in which termination</p>
Reassessment and modification of leases	<p>Reassessment of lease terms and lease modifications that are not accounted for as a separate lease:</p> <p>When the Group reassesses the terms of any lease (i.e. it re-assesses the probability of exercising an extension or termination option) or modifies the terms of a lease without increasing the scope of the lease or where the increased scope is not commensurate with the stand-alone price, it adjusts the carrying amount of the lease liability to reflect the payments to be made over the revised term, which are discounted at the applicable rate at the date of reassessment or modification. The carrying amount of lease liability is similarly revised when the variable element of future lease payments dependent on a rate or index is revised.</p> <p>For reassessments to the lease terms, an equivalent adjustment is made to the carrying amount of the right-of-use asset, with the revised carrying amount being depreciated over the revised lease term. However, if the carrying amount of the right-of-use asset is reduced to zero any further reduction in the measurement of the lease liability, is recognised in profit or loss.</p>		
<b>Lessor accounting</b>			
Finance leases	Leases, where the Group transfers substantially all the risks and rewards incidental to ownership, are classified as finance leases.	Finance lease receivable, including initial direct costs and fees, are primarily accounted for as financing transactions in banking activities, with rentals and instalments receivable, less unearned finance charges, being included in loans and advances.	Finance charges earned within interest income are computed using the effective interest method, which reflects a constant year rate of return on the investment in the finance lease. The tax benefits arising from investment allowances on assets leased to clients are accounted for within direct taxation.
Operating leases	All leases that do not meet the criteria of a finance lease are classified as operating leases.	The asset underlying the lease continues to be recognised and accounted for in terms of the relevant Group accounting policies. Accruals for outstanding lease charges, together with a straight-line lease asset or liability, being the difference between actual payments and the straight-line lease income are recognised.	<p>Operating lease income net of any incentives given to lessees, is recognised on the straight-line basis, or a more representative basis where applicable, over the lease term and is recognised in operating income.</p> <p>When an operating lease is terminated before the lease year has expired, any payment received/(paid) by the Group by way of a penalty is recognised as income/(expense) in the year in which termination takes place.</p>
<b>IFRS 16 - Lessor lease modifications</b>			
Finance leases	<p>When the Group modifies the terms of a lease resulting in an increase in scope and the consideration for the lease increases by an amount commensurate with a stand-alone price for the increase in scope, the Group accounts for these modifications as a separate new lease. These lease modifications are accounted for as a separate new lease from the effective date of the modification and the net investment in the lease becomes the carrying amount of the underlying asset.</p> <p>All other lease modifications that are not accounted for as a separate lease are accounted for in terms of IFRS 9, unless the classification of the lease would have been accounted for as an operating lease had the modification been in effect at inception of the lease.</p>		
Operating leases	Modifications are accounted for as a new lease from the effective date of the modification.		

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

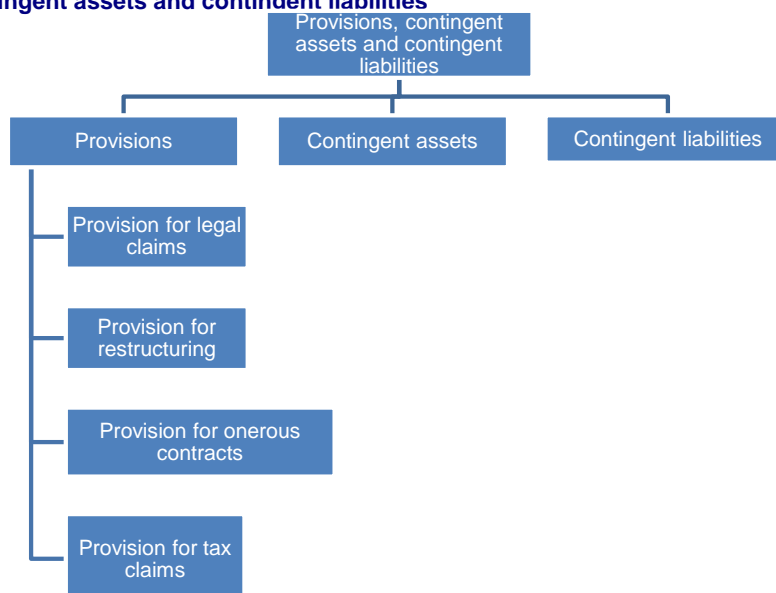

**4 Statement of significant accounting policies (continued)**

**4.8 Equity**

<b>Share issue costs</b>	Incremental external costs directly attributable to a transaction that increases or decreases equity are deducted from equity, net of related tax. All other share issue costs are expensed.
<b>Distributions to owners</b>	Distributions are recognised in equity in the year in which they are declared. Distributions declared after the reporting date are disclosed in the distributions note to the financial statements.

**4.9 Provisions, contingent assets and contingent liabilities**

<b>Provisions</b>	Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are determined by discounting the expected future cash flows using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability. The Group's provisions typically (when applicable) include the following:
-------------------	---

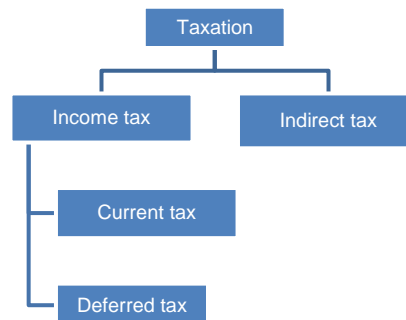

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

<b>Provisions (continued)</b>	<p>Provisions for legal claims Provisions for legal claims are recognised on a prudent basis for the estimated cost for all legal claims that have not been settled or reached conclusion at the reporting date. In determining the provision management considers the probability and likely settlement (if any). Reimbursements of expenditure to settle the provision are recognised when and only when it is virtually certain that the reimbursement will be received.</p> <p>Provision for restructuring A provision for restructuring is recognised when the Group has approved a detailed formal plan, and the restructuring either has commenced or has been announced publicly. Future operating costs or losses are not provided for.</p> <p>Provision for onerous contracts A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.</p> <p>Provision for tax claims Provisions for taxes claims relates to additional assessment on taxes, including withholding tax, value added tax, PAYE tax.</p>
<b>Contingent assets</b>	Contingent assets are not recognised in the financial statements but are disclosed when, as a result of past events, it is probable that economic benefits will flow to the Group, but this will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events which are not wholly within the Group's control.
<b>Contingent liabilities</b>	Contingent liabilities include certain guarantees (other than financial guarantees) and letters of credit and are not recognised in the financial statements but are disclosed in the notes to the financial statements.

**4.10 Taxation**

Type	Description, recognition and measurement	Offsetting
<b>Current tax-determined for current year transactions and events</b>	<p>Current tax comprises the expected tax payable on the taxable income or loss for the year and any adjustment to the tax payable in respect of previous years. The amount of current tax payable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividend.</p> <p>Current tax is recognised as an expense for the year and adjustments to past years except to the extent that current tax related to items that are charged or credited in OCI or directly to equity.</p> <p>Nigerian tax laws mandates a minimum tax assessment for companies having no taxable profits for the year or where the tax on profits is below the minimum tax. Minimum tax is computed at flat rate of 0.25% of turnover less franked investment.</p> <p>Further, the Nigerian tax laws mandates that where a dividend is paid out of profit on which no tax is payable due to either: (a) no total profit; or (b) the total profit is less than the amount of dividend paid, the company paying the dividend will be subjected to tax at 30% of the dividends paid, as if the dividend is the total profits of the company for the year of assessment to which the accounts, out of which the dividends paid relates.</p> <p>When applicable, minimum tax is recorded under current income tax in profit or loss.</p>

#### 4 Statement of significant accounting policies (continued)

Type	Description, recognition and measurement	Offsetting
<b>Deferred tax-determined for future tax consequences</b>	<p>Deferred tax is recognised in profit or loss except to the extent that it relates to a business combination (relating to a measurement year adjustment where the carrying amount of the goodwill is greater than zero), or items recognised directly as part of OCI.</p> <p>Deferred tax is recognised using the liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date and reflects uncertainty related to income taxes, if there is any. Deferred tax is not recognised for the following temporary differences:</p> <ul style="list-style-type: none"> <li>• the initial recognition of goodwill;</li> <li>• the initial recognition of assets and liabilities in a transaction that is not a business combination, which affects neither accounting nor taxable profits or losses; and</li> <li>• investments in subsidiaries, associates and jointly controlled arrangements (excluding mutual funds) where the Group controls the timing of the reversal of temporary differences and it is probable that these differences will not reverse in the foreseeable future.</li> </ul> <p>The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of the asset or liability and is not discounted.</p> <p>Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the unused tax losses can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.</p>	<p>Current tax assets and liabilities, deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.</p>
<b>Indirect taxation</b>	Indirect taxes are recognised in profit or loss, as part of other operating expenses.	N/A
<b>Dividend tax</b>	Taxes on dividends declared by the Group are recognised as part of the dividends paid within equity as dividend tax represents a tax on the shareholder and not the Group.	N/A

#### 4.11 Revenue and expenditure

Description	Recognition and measurement
<b>Net interest income</b>	Interest income and expense (with the exception of borrowing costs that are capitalised on qualifying assets, that is assets that necessarily take a substantial year of time to get ready for their intended use or sale and which are not measured at fair value) are recognised in profit or loss using the effective interest method for all interest-bearing financial instruments.

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

**4 Statement of significant accounting policies (continued)**

**4.11 Revenue and expenditure (continued)**

Description	Recognition and measurement
<b>Net interest income</b>	<p>In terms of the effective interest method, interest is recognised at a rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, where appropriate, a shorter year, to the net carrying amount of the financial asset or financial liability. Direct incremental transaction costs incurred and origination fees received, including loan commitment fees, as a result of bringing margin-yielding assets or liabilities into the statement of financial position, are capitalised to the carrying amount of financial instruments that are not at fair value through profit or loss and amortised as interest income or expense over the life of the asset or liability as part of the effective interest rate.</p> <p>Where the estimates of payments or receipts on financial assets or financial liabilities are subsequently revised, the carrying amount of the financial asset or financial liability is adjusted to reflect actual and revised estimated cash flows.</p> <p>The carrying amount is calculated by computing the present value of the adjusted cash flows at the financial asset or financial liability's original effective interest rate. Any adjustment to the carrying value is recognised in net interest income.</p> <p>When a financial asset is classified as Stage 3 impaired, interest income is calculated on the impaired value (gross carrying value less specific impairment) based on the original effective interest rate.</p> <p>Interest expense on lease liabilities: A lease finance cost, determined with reference to the interest rate implicit in the lease or the Group's incremental borrowing rate, is recognised within interest expense over the lease year.</p> <p>Dividends received on preference share investments classified as debt form part of the Group's lending activities and are included in interest income.</p>
<b>Net fee and commission revenue</b>	<p>Fee and commission revenue, including transactional fees, account servicing fees, investment management fees, sales commissions and placement fees are recognised as the related services are performed i.e at a point in time. Loan commitment fees for loans that are not expected to be drawn down are recognised on a straight-line basis over the commitment year.</p> <p>Loan syndication fees, where the Group does not participate in the syndication or participates at the same effective interest rate for comparable risk as other participants, are recognised as revenue when the syndication has been completed. Syndication fees that do not meet these criteria are capitalised as origination fees and amortised as interest income. The fair value of issued financial guarantee contracts on initial recognition is amortised as income over the term of the contract.</p> <p>Fee and commission expenses, included in net fee and commission revenue, are mainly transaction and service fees relating to financial instruments, which are expensed as the services are received. Expenditure is recognised as fee and commission expenses where the expenditure is linked to the production of fee and commission revenue.</p>
<b>Trading revenue</b>	<p>Trading revenue comprises all gains and losses from changes in the fair value of trading assets and liabilities, together with related interest income, expense and dividends.</p>
<b>Other revenue</b>	<p>Other revenue includes dividends on equity financial assets and re-measurement gains and losses from contingent consideration on disposals and purchases.</p> <p>Gains and losses on equity instruments designated at fair value through profit or loss are recognised within other revenue. This is however different from the trading revenue described above. Gains and losses on equity instruments classified as fair value through other comprehensive income (FVOCI) financial assets are reclassified from OCI to other revenue on derecognition or impairment.</p>
<b>Dividend income</b>	<p>Dividends are recognised in profit or loss when the right to receipt is established. Scrip dividends are recognised as dividends received where the dividend declaration allows for a cash alternative.</p>
<b>Management fees on assets under management</b>	<p>Fee income includes management fees on assets under management and administration fees. Management fees on assets under management are recognised over the year for which the services are rendered, in accordance with the substance of the relevant agreements.</p>
<b>Operating expenses</b>	<p>Expenses are recognized on an accrual bases regardless of the time of cash outflows. Expenses are recognized in the income statement when a decrease in future economic benefit related to a decrease in an assets or an increase of a liability has arisen that can be measured reliably.</p> <p>Expenses are recognized in the same reporting year when they are incurred in cases when it is not probable to directly relate them to particular income earned during the current reporting year and when they are not expected to generate any income during the coming years. Expenses that are not related to the income earned during the reporting year, but expected to generate future economic benefits, are recorded in the financial statements as assets.</p>

**Notes to the consolidated and separate financial statements  
For the year ended 31 December 2021**

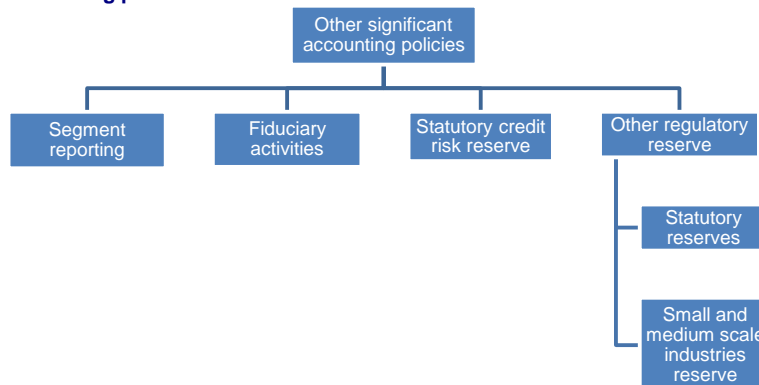

**4 Statement of significant accounting policies (continued)**

Interest in suspense (IIS) (refers to contractual interest which accrues on financial assets which are in default classified as non-performing) is presented as follows:

**IFRS 9 accounting treatment**

IFRS 9 requires that interest for financial assets classified as stage 3 (i.e. in default) only be calculated on the gross carrying amount less impairments (i.e. amortised cost less impairment balance). The Group has applied this requirement by suspending all contractual interest on such financial assets and recognising interest on the amortised cost balance utilising the financial assets' effective interest rate. IFRS 9 requires that the suspended contractual interest be recognised as part of the financial assets' gross carrying amount and be deducted as part of the reconciliation to the net carrying amount which is reported in the balance sheet. Whilst the IIS is recognised in the gross carrying amount it does not impact the net carrying amount of the financial asset as presented on the face of the statement of financial position. Given the IFRS 9 requirement that the gross carrying amount would include the contractual suspended interest on financial assets classified as stage 3, the Group reports the balance sheet interest in suspense account as part of stage 3 impairment when calculating the financial assets' net carrying amount. The Group has elected to continue to present upon the curing of the non-performing financial asset, this suspended contractual interest (previously unrecognised interest) within credit impairment line in the income statement.

**4.12 Other significant accounting policies**

<b>Segment reporting</b>	An operating segment is a component of the Group engaged in business activities, whose operating results are reviewed regularly by management in order to make decisions about resources to be allocated to segments and assessing segment performance. The Group's identification of segments and the measurement of segment results is based on the Group's internal reporting to management. Transactions between segments are priced at market-related rates.
<b>Fiduciary activities</b>	The Group commonly engages in trust or other fiduciary activities that result in the holding or placing of assets on behalf of individuals, trusts, post-employment benefit plans and other institutions. These assets and the income arising directly thereon are excluded from these financial statements as they are not assets of the Group. However, fee income earned and fee expenses incurred by the Group relating to the Group's responsibilities from fiduciary activities are recognised in profit or loss.
<b>Statutory credit risk reserve</b>	The statutory credit risk reserve represents a reserve component created when credit impairment on loans and advances as accounted for under IFRS using the expected loss model differs from the Prudential Guidelines set by the Central Bank of Nigeria.
<b>Statutory reserve</b>	Nigerian banking and pension industry regulations require the banking and pension subsidiaries to make an annual appropriation to a statutory reserve. For the banking subsidiary, an appropriation of 30% of profit after tax is made if the statutory reserve is less than paid-up share capital and 15% of profit after tax if the statutory reserve is greater than the paid up share capital. The pension subsidiary is required to transfer 12.5% of its profit after tax to a statutory reserve. Statutory reserve is not available for distribution to shareholders. See note 20.4 (b)(i).

### Notes to the consolidated and separate financial statements For the year ended 31 December 2021

#### 4 Statement of significant accounting policies (continued)

##### 4.13 Non-current assets held for sale and disposal Groups

Type	Description	Statement of financial position	Income statement
Non-current assets/disposal Groups that are held for sale	Comprising assets and liabilities that are expected to be recovered primarily through sale rather than continuing use (including regular purchases and sales in the ordinary course of business).	Immediately before classification, the assets (or components of a disposal Group) are remeasured in accordance with the Group's accounting policies and tested for impairment. Thereafter, the assets are measured at the lower of their carrying amount and fair value less costs to sell.  Assets and liabilities (or components of a disposal Group) are presented separately in the statement of financial position.	Impairment losses on initial classification as well as subsequent gains and losses on remeasurement of these assets or disposal Groups are recognised in profit or loss.  Property and equipment and intangible assets are not depreciated or amortised.

Notes to the consolidated and separate annual financial statements  
For the year ended 31 December 2021

## 4 Statement of significant accounting policies

## 4.14 New standards and interpretations not yet effective

<b>Pronouncement</b>	
<b>Title</b>	<b>IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (amendments)</b> The amendments address an inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. The amendments will be applied prospectively and are not expected to have a material impact on the Group's financial statements.
<b>Effective date</b>	Effective date of this standard deferred indefinitely
<b>Title</b>	<b>IFRS 17 Insurance Contracts</b> This standard replaces IFRS 4 Insurance Contracts which provided entities with dispensation to account for insurance contracts (particularly measurement) using local actuarial practice, resulting in a multitude of different approaches. The overall objective of IFRS 17 is to provide a more useful and consistent accounting model for insurance contracts among entities issuing insurance contracts globally. The standard requires an entity to measure insurance contracts using updated estimates and assumptions that reflect the timing of cash flows and any uncertainty relating to insurance contracts. A general measurement model (GMM) will be applied to long-term insurance contracts and is based on a fulfilment objective (risk-adjusted present value of best estimate future cash flows) and uses current estimates, informed by actual trends and investment markets. IFRS 17 establishes what is called a contractual service margin (CSM) in the initial measurement of the liability which represents the unearned profit on the contract and results in no gain on initial recognition. The CSM is released over the life of the contract, but interest on the CSM is locked in at inception rates. The CSM will be utilised as a "shock absorber" in the event of changes to best estimate cash flows. On loss making (onerous) contracts, no CSM is set up and the full loss is recognised at the point of contract inception. The GMM is modified for contracts which have participation features. An optional simplified premium allocation approach (PAA) is available for all contracts that are less than 12 months at inception. The PAA is similar to the current unearned premium reserve profile over time. The requirement to eliminate all treasury shares has been amended such that treasury shares held for a Group of direct participating contracts or investment funds are not required to be eliminated and can be accounted for as financial assets. These requirements will provide transparent reporting about an entities' financial position and risk and will provide metrics that can be used to evaluate the performance of insurers and how that performance changes over time. An entity may re-assess its classification and designation of financial instruments under IFRS 9, on adoption of IFRS 17. The amendment will be applied retrospectively and is not expected to have a material impact on the Group.
<b>Effective date</b>	1 January 2023.
<b>Title</b>	<b>IAS 1 Presentation of Financial Statements (amendments)</b> The amendment clarifies how to classify debt and other liabilities as current or non-current. The objective of the amendment is aimed to promote consistency in applying the requirements by helping entities determine whether, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendment also includes clarifying the classification requirements for debt an entity might settle by converting it into equity. These are clarifications, not changes, to the existing requirements, and so are not expected to affect entities' financial statements significantly. However, these clarifications could result in reclassification of some liabilities from current to non-current, and vice versa. The amendment will be applied retrospectively. The impact on the annual financial statements has not yet been fully determined.
<b>Effective date</b>	1 January 2023.
<b>Title</b>	<b>Onerous contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)</b> The amendments specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. The amendments apply for annual reporting periods beginning on or after 1 January 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other components of equity, as appropriate. The comparatives are not restated. The Group has determined that all contracts existing at 31 December 2021 will be completed before the amendments become effective.
<b>Effective date</b>	1 January 2022.
<b>Title</b>	<b>Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)</b> The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences – e.g. leases and decommissioning liabilities. The amendments apply for annual reporting periods beginning on or after 1 January 2023. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented.
<b>Effective date</b>	1 January 2023.
<b>Title</b>	<b>Annual improvements 2018-2020 cycle</b> The IASB has issued various amendments and clarifications to existing IFRS, none of which is expected to have a significant impact on the Group's annual financial statements.
<b>Effective date</b>	1 January 2022.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 5 Segment reporting

The Group has shifted the business to be future-ready and client centric. The reporting has changed to align to this principle. The client segments will be responsible for designing and executing the client value proposition strategy. Client segments will own the client relationship and create multi-product customer experiences to address life events distributed through our client engagement platforms. The principal reporting segments in the Group are as follows:

##### Business unit

---

**Business & Commercial clients** The business & commercial client (BCC) segment provides broad based client solutions for a wide spectrum of small- and medium-sized businesses as well as large commercial enterprises. Our client coverage support extends across a wide range of industries, Home services - Residential accommodation financing solutions, including related value added services.  
Vehicle and asset finance - Comprehensive finance solutions in instalment credit, fleet management and related services across our retail and business markets.

---

**Wholesale Client** The Wholesale Client (WC) segment serves large companies (multinational, regional and domestic), governments, parastatals and institutional clients across Africa and internationally. Our clients leverage our in-depth sector and regional expertise, our specialist capabilities and our access to global capital markets for advisory, transactional, trading and funding support.  
Global markets – Trading and risk management solutions across financial markets, including foreign exchange, money markets, interest rates, equities, credit and commodities.  
Transactional and lending products – Comprehensive suite of cash management, international trade finance, working capital and investor services solutions.  
Investment banking – Full suite of advisory and financing solutions, from term lending to structured and specialised products across equity and debt capital markets.

---

**Consumer & High Net Worth clients** The consumer & high net worth (CHNW) client segment is responsible for the end-to-end lifecycle of clients. CHNW services individual clients across Nigeria. We enable our clients' daily lives by providing relevant solutions throughout their life journeys.  
Card and payments - Credit card facilities to individuals and businesses. Merchant acquiring services. Enablement of digital payment capabilities through various products and platforms. Mobile money and cross-border businesses.  
Retail lending - Comprehensive suite of lending products provided to individuals and small and medium-sized businesses.  
Retail transactional - Comprehensive suite of transactional, savings, payment and liquidity management solutions.

---

An operating segment is a component of the Group engaged in business activities from which it can earn revenues, whose operating results are regularly reviewed by the Group's executive management in order to make decisions about resources to be allocated to segments and assessing segment performance. The Group's identification of segments and the measurement of segment results is based on the Group's internal reporting to management. Segment results include customer-facing activities and support functions.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 6 Key management assumptions

##### Use of assumptions

#### 6.1 Credit impairment losses on loans and advances

##### Determination of statutory credit risk reserves

Provisions under the prudential guidelines are determined using the time based provisioning regime prescribed by the Revised Central Bank of Nigeria (CBN) Prudential Guidelines. This is at variance with the expected loss model required by IFRS under IFRS 9. As a result of the differences in the methodology/provision regime, there will be variances in the impairments allowances required under the two methodologies.

Paragraph 12.4 of the revised Prudential Guidelines for Deposit Money Banks in Nigeria stipulates that Banks would be required to make provisions for loans as prescribed in the relevant IFRS Standards when IFRS is adopted. However, Banks would be required to comply with the following:

Impairment allowance for loans recognised in the profit and loss account should be determined based on the requirements of IFRS. However, the IFRS impairment allowance should be compared with provisions determined under prudential guidelines and the expected impact/changes in general reserves should be treated as follows:

\* Prudential Provisions is greater than IFRS impairment allowance; the excess provision resulting should be transferred from the general reserve account to a "regulatory risk reserve".

\* Prudential Provisions is less than IFRS impairment allowance; IFRS determined provision is charged to the statement of comprehensive income. The cumulative balance in the regulatory risk reserve is thereafter reversed to the general reserve account

The company's subsidiary Stanbic IBTC Bank, has complied with the requirements of the guidelines as follows:

	Note	31-Dec-21 N'million	31-Dec-20 N'million
<b>Statement of prudential adjustments</b>			
<b>Prudential Provision</b>			
Specific provision on loans and advances		12,141	19,020
General provision on loans and advances		18,513	12,593
Provision for other credit losses		11,413	11,745
		<b>42,067</b>	<b>43,358</b>
<b>IFRS Impairment allowance</b>			
12-month ECL	12.1	8,025	6,680
Lifetime ECL not credit-impaired	12.1	1,283	1,509
Lifetime ECL credit-impaired	12.1	15,907	21,964
Impairment on other financial assets and provision for other losses		11,413	11,745
- Provision for other asset	15	2,111	2,391
- Provision for contingent litigations	26	9,302	9,354
		<b>36,628</b>	<b>41,898</b>
Closing regulatory reserve		5,439	1,460
Opening regulatory reserve		1,460	-
<i>Appropriation: Transfer (to)/from retained earnings</i>		<b>3,979</b>	1,460

**Key management assumptions (Continues)**

**6.2 Expected credit loss on On-balance Sheet and Off-balance sheet exposures**

**Significant increase in credit risk**

The following are considered by the Group in determining whether there has been a significant increase in credit risk on a financial instrument since initial recognition:

- Change in the probability of default from initial recognition to the reporting date.
- A 30-day past due rebuttal, requiring exposures to be classified in stage 2. It is however not considered sufficient to only look at arrears data such as days past due in considering whether there is a significant increase in credit risk and the Group would need to assess for significant increase in credit risk through other means. Arrears data are used after exhausting all other methods of determining whether there has been a significant increase in credit risk.
- Other means of considering whether there is a significant increase in credit risk includes the evaluation of internal and external credit ratings as well as information from external credit bureaus. Information about the economic sector and geographical region of the borrower are also taken into account.
- Where a single customer has more than one loan with the Group (for example, a home loan, revolving facility, vehicle and asset finance, etc.), a one customer view is taken when considering whether there has been a significant increase in credit risk. In this instance, a significant increase in the customer's credit risk on one loan account is taken into account when assessing the customer's other loan accounts. If it is assessed that there is a significant increase in credit risk in one exposure, then there is a presumption that the customer's other loans also have a significant increase in credit risk.
- In terms of IFRS 9, the Group is required to incorporate both historical experience as well as forward looking information when assessing whether an instrument's credit risk has increased significantly since initial recognition. A useful reference tool that is used in the assessment of significant increase in credit risk is the exposure's credit rating.
- In the context of Covid-19 health crisis, the granting of moratoria and reduction in interest rate for all CBN intervention facilities as contained in the CBN guidelines published on 16 March 2020, with subsequent update on 27 May 2020, has not been considered, in isolation, as an indicator of a significant increase in credit risk leading to an automatic transfer to stage 2. Other moratoria that meet equivalent criteria to those defined in the CBN guidelines has followed the same treatment. Moratoria do not trigger the counting of past-due days as long as the new schedule of payment is respected

**Low credit risk financial instruments**

Management assesses whether an instrument would be considered as having a low credit risk. In this regard:

- If internal risk gradings are based on external credit risk ratings, all instruments within the 'investment grade' category would be considered as having a low credit risk.
- If internal risk gradings are not based on external credit risk ratings, internal ratings is utilised in order to determine a low credit risk threshold. The threshold reflects a low credit risk assumption from a market participant's perspective taking into account the exposure's terms and conditions.

**Default**

The Group has Wholesale Clients (WC) as well as Personal and Business Banking (PBB) exposures. Due to the different nature of financial instruments that the Group holds, the Group uses a single definition of default which applies to all financial assets, with implementation guidance for specific circumstances which would meet default in terms of this definition. Default is defined as follows:

- Based on objective evidence the counterparty is unlikely to pay amounts payable to the Group on due date or shortly thereafter without recourse to actions such as realisation of security; or
- the counterparty is past due (or, in the case of revolving facilities such as overdrafts, is in excess of the current limit) for more than 90 days (for the avoidance of doubt, the overdue period may be measured using either a 'days past due' or a 'number of missed payments or part thereof' approach.), on any material credit obligation to the Group, whichever occurs first.

**Write-off**

An impaired loan is written off once all reasonable attempts at collection have been made and there is no economic benefit expected from attempting to recover the balance outstanding.

**Modified financial assets**

A modification is a change to the contractual cash flows of a financial asset. It involves the renegotiation of the terms of the financial asset such that the contractual cash flows (amount, timing, basis, etc.) are changed or the contractual terms materially change the probability that the cash flows will be received (e.g. change in counterparty).

In calculating impairment losses, the Group assesses whether there has been a significant increase in the credit risk of modified financial assets that do not qualify for derecognition at the reporting date by comparing:

- the credit risk of the modified instrument at the reporting date based on the modified contractual terms; and
- the credit risk at initial recognition based on the original unmodified contractual terms.

**Incorporation of forward-looking information**

**Forward-looking information**

The process to include forward looking information into the expected credit loss impairment model when assessing whether a customer's credit risk has increased significantly, involves the following:

*Building a forward looking information IFRS model:* In this stage, a calculation model or expert driven approach is used to adjust the impairment requirement based on the forward looking macro-economic outlook.

*Macro-economic forecast:* In this stage, an alignment in the base / expected macro-economic outlook is created between the Group's stress testing, budgeting and forward looking information for the IFRS expected credit loss impairment model. The same economic base case outlook is used for all these processes and across the Group.

*Review of the outcome:* In this stage the outcome of the model is reviewed by Credit risk management committee (CRMC).

In certain instances, the assessment of significant increase in credit risk using forward looking information is done on a collective basis (i.e. portfolio of customers) and not on an individual basis. When demonstrated that a sufficient linkage between forward looking factors and a portfolio exist, a given factor is implemented at the appropriate level of aggregation.

**Forward-looking economic expectations applied in the determination of the ECL at the reporting date**

- Nigeria expected inflation rate
- Expected GDP growth rate
- Nigeria expected employment rate
- Prime lending rate

**6 Key management assumptions (continued)**

**6.3 Fair value of financial instruments**

The fair value of financial instruments, such as unlisted equity investments and certain derivatives, that are not quoted in active markets is determined using valuation techniques. Wherever possible, models use only observable market data. Where required, these models incorporate assumptions that are not supported by prices from observable current market transactions in the same instrument and are not based on available observable market data. Such assumptions include risk premiums, liquidity discount rates, credit risk, volatilities and correlations. Changes in these assumptions could affect the reported fair values of financial instruments.

Additional disclosures on fair value measurements of financial instruments are set out in notes 29.

**6.4 Share-based payments**

The Group has both cash and equity-settled share incentive schemes which are issued to qualifying employees based on the rules of the respective schemes. The Group uses the Black-Scholes option pricing model to determine the fair value of awards on grant date for its equity-settled share incentive schemes. The valuation of the Group's obligations with respect to its cash-settled share incentive scheme obligations is determined with reference to the parent and ultimate parent's share price, which is an observable market input. In determining the expense to be recognised for both the cash and equity-settled share schemes, the Group estimates the expected future vesting of the awards by considering staff attrition levels. The Group also makes estimates of the future vesting of awards that are subject to non-market vesting conditions by taking into account the probability of such conditions being met.

Refer to note 32.9 for further details regarding the carrying amount of the liabilities arising from the Group's cash-settled share incentive schemes and the expenses recognised in the income statement.

**6.5 Intangible assets**

Direct computer software development costs that are clearly associated with an identifiable and unique system, which will be controlled by the Group and have a probable future economic benefit beyond one year, are capitalised and disclosed as computer software intangible assets.

Computer software intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses. The assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The determination of the recoverable amount of each asset requires judgement. The recoverable amount is based on the value in use and calculated by estimating future cash benefits that will result from each asset and discounting these cash benefits at an appropriate pre-tax discount rate (see note 4.6).

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

---

#### 6 Key management assumptions (continued)

##### 6.6 Recognition of deferred tax assets:

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related future tax benefit will be realised. The most significant management assumption is the forecasts used to support the probability assessment that sufficient taxable profits will be generated by the entities in the Group in the future in order to utilise the deferred tax assets. The forecasts of taxable profits are determined based on approved budgets for future years and adjusted for any adjustments that management deems necessary and are supportable at the time of reporting.

The tax exempt status of income realised on Nigerian government securities is one of the major drivers for the negative taxable profit within Stanbic IBTC Bank PLC, which is the largest contributor to the deferred tax asset, through tax losses, in the Group. The uncertainty surrounding the extension or termination of the tax exempt status at the end of 2021 has made management conclude that not all tax losses carried forward should be recorded as deferred tax assets. The assessment of availability of future taxable profit against which carry forward tax losses can be utilised is disclosed under Note 16.

##### 6.7 Provisions

The Group make provisions for contingent items such as legal claims, fines, penalties and other tax penalties. The amount provided is based on the management best estimate of the amounts that will be required to settle the obligation in the event that it crystallises. Provisions is determined by discounting the expected future cash flows using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability. Any material difference in management best estimates will have an impact on the carrying amount of the provisions. Refer to note 26 for further details.

#### Use of Judgements

##### 6.8 Investment funds

The Group acts as fund manager to a number of investment funds. Determination of whether the Group controls such an investment fund usually focuses on the assessment of the aggregate economic interest of the Group in the fund and the investors' rights to remove the fund manager. For all the investment funds managed by the Group, the trust deed empowers the investors to vote for the removal of the fund manager without cause, but subject to approval of a vast majority of all unitholders, and the Group's aggregate economic interest in each case is less than 25%. As a result, the Group has concluded that it acts as agent for the investors in all cases, and therefore has not consolidated these funds.

Further disclosure in respect of investment funds in which the Group has an interest is contained in note 14.

##### 6.9 Depreciation and useful life of property and equipment

The estimation of the useful lives of assets is based on management's judgement. Any material adjustment to the estimated useful lives of items of property and equipment will have an impact on the carrying value of these items.

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

	Group		Company	
	31 Dec. 2021 N'million	31 Dec. 2020 N'million	31 Dec. 2021 N'million	31 Dec. 2020 N'million

**Maturity analysis**

The maturities represent periods to contractual redemption of the pledged assets recorded.

Maturing within 1 month	-	107,102	-	-
Maturing after 1 month but within 6 months	-	38,256	-	-
Maturing after 6 months but within 12 months	-	25,220	-	-
	<b>-</b>	<b>170,578</b>	<b>-</b>	<b>-</b>

**8.2 Pledged assets**

The assets pledged by the Group are strictly for the purpose of providing collateral to counterparties for various transactions. These transactions include assets pledged in connection with clearing/settlement activities of the Group.

To the extent that the counterparty is permitted to sell and/or repledge the assets in the absence of default, the assets are classified in the statement of financial position as pledged assets.

**Financial assets pledged as collateral for liabilities**

The carrying amount of total financial assets that have been pledged as collateral for liabilities (included in amounts reflected in 8.1 above) at 31 December 2021 was N182,333 million (Dec. 2020: N122,844 million). The transactions in respect of which the collaterals were pledged are as follows:

(i) N14,688 million (Dec 2020: N13,314 million) was pledged with the Central Bank of Nigeria with respect of real sector funding.

(ii) N125,723million (Dec 2020: N84,630 million) was pledged in respect of repurchase lending agreements. These transactions are conducted under terms that are usual and customary to standard lending, and securities borrowing and lending activities.

(iii) N41,922 million (Dec. 2020: N24,900 million) pledged with FMDQ in respect of OTC futures.

(iv) No amount (Dec. 2020: Nil) was pledged to Development Bank of Nigeria for onlending funds.

	<b>112,023</b>	<b>188,500</b>	-	-

**10 Derivative instruments**

All derivatives are classified as derivatives held for trading and measured at fair value through profit or loss.

**10.1 Use and measurement of derivative instruments**

In the normal course of business, the Group enters into a variety of derivative transactions for both trading and risk management purposes. Derivative financial instruments are entered into for trading purposes and for hedging foreign exchange and interest rate exposures. Derivative instruments used by the Group in both trading and hedging activities include swaps, forwards and other similar types of instruments based on foreign exchange rates and interest rates.

The risks associated with derivative instruments are monitored in the same manner as for the underlying instruments. Risks are also measured across the product range in order to take into account possible correlations.

The fair value of all derivatives is recognised on the statement of financial position and is only netted to the extent that there is both a legal right of set-off and an intention to settle on a net basis.

Swaps are transactions in which two parties exchange cash flows on a specified notional amount for a predetermined year.

The major types of swap transactions undertaken by the Group are as follows:

- (i) Foreign exchange swaps are contractual obligations between two parties to swap a pair of currencies. Foreign exchange swaps are tailor-made agreements that are transacted between counterparties in the Over-the-counter (OTC) market.
- (ii) Forwards are contractual obligations to buy or sell financial instruments or commodities on a future date at a specified price. Forward contracts are tailor-made agreements that are transacted between counterparties in the OTC market.

**10.2 Derivatives held-for-trading**

The Group trades derivative instruments on behalf of customers and for its own positions. The Group transacts derivative contracts to address customer demand by structuring tailored derivatives for customers. The Group also takes proprietary positions for its own account. Trading derivative products include the following derivative instruments:

**10.2.1 Foreign exchange derivatives**

Foreign exchange derivatives are primarily used to hedge foreign currency risks on behalf of customers and for the Group's own positions. Foreign exchange derivatives primarily consist of foreign exchange forwards.

**10.2.2 Non-deliverable foreign exchange derivatives contract**

Non-deliverable foreign exchange derivative contracts (NDFs) is a variation of foreign exchange derivatives described above. NDFs are cash settled and do not require physical delivery of foreign currency. The counterparties settle the difference between the contracted NDF price or rate and the prevailing spot price or rate on an agreed notional amount.

**10.2.3 Interest rate derivatives**

Interest rate derivatives are primarily used to modify the volatility and interest rate characteristics of interest-earning assets and interest-bearing liabilities on behalf of customers and for the Group's own positions. Interest rate derivatives primarily consist of swaps.

**10.3 Unobservable valuation differences on initial recognition**

Any difference between the fair value of the derivative financial instrument at initial recognition and the amount that would be determined at that date using a valuation technique in a situation in which the valuation is dependent on unobservable parameters is not recognised in profit or loss immediately but is recognised over the life of the instrument on an appropriate basis or when the instrument is redeemed. Unobservable valuation difference is disclosed under note 10.7.

**10.4 Fair values**

The fair value of a derivative financial instrument represents for quoted instruments the quoted market price and for unquoted instruments the present value of the positive or negative cash flows, which would have occurred if the rights and obligations arising from that instrument were closed out in an orderly market place transaction at year end.

**10.5 Notional amount**

The gross notional amount is the sum of the absolute value of all bought and sold contracts. The notional amounts have been translated at the closing rate at the reporting date where cash flows are receivable in foreign currency. The amount cannot be used to assess the market risk associated with the positions held but should be used only as a means of assessing the Group's participation in derivative contracts.

Regulatory prudential disclosures on loans and advances have been disclosed under note 6 and credit risk management– prudential guidelines disclosures.

Included in gross loans and advances to customers is an amount of N39,262 million (2020: N11,041 million) relating to CHNWC, BCC and WC instalment sale and finance leases. See note 12.2 for analysis of finance lease receivable.

The banking subsidiary has a standby contingency funding agreement with a Tier 1 bank under which the Tier 1 bank commits to provide up to N10 billion liquidity cover to the bank. The agreement took effect from 09 February 2017 and renewable annually. There was no draw down on the commitment during the year. See page 114 under "Liquidity Contingency" for further details.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 14 Involvement with unconsolidated investment funds

The table below describes the types of investment funds that the Group does not consolidate but in which it holds an interest. The funds are not consolidated because they are not controlled by the Group.

Type of Investment funds	Nature and purpose	Interest held by the Group
Mutual funds	To generate fees from managing assets on behalf of third party investors.	Investments in units issued by the funds
	These vehicles are financed through the issue of units to investors.	Management fees

The table below sets out an analysis of the investment funds managed by the Group, their assets under management, and the carrying amounts of interests held by the Group in the investment funds. The maximum exposure to loss is the carrying amount of the interest held by the Group.

S/N	Investment fund	Asset under management		Interest held by the Group	
		31 Dec. 2021	31 Dec. 2020	31 Dec. 2021	31 Dec. 2020

- (i) Amount represents a receivable from the company's registrar in respect of unclaimed dividends and forms part of the assets held against unclaimed dividend liabilities as disclosed in note 27. This is in accordance with new Securities and Exchange Commission (SEC) directives requiring transfer of unclaimed dividends previously held by the registrars to the company.

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

**15 Other assets (continued)**

- (ii) Deposit for investment relates to SIBTC Bank PLC's annual commitment towards Agri-Business/Small and Medium Enterprises Investment Scheme (AGSMEIS) based on CBN guidelines. The investment scheme represents 5% of annual profit after tax appropriated from reserves (see note 20.4(b)(ii)). An amount of N30.99 million (Dec 2020: N35.2 million) has been disbursed to small and medium scale enterprises through the Bank for the year ended 31 December 2021.
- (iii) Provision on other assets are computed using the simplified approach as stipulated by IFRS 9 and are all in stage 1.
- (iv) Account receivable includes fee receivables and short term receivables in respect of electronic payment transactions.
- (v) Amount relates to unsettled dealing balances as at end of the period.

	Group		Company	
	31 Dec. 2021 N million	31 Dec. 2020 N million	31 Dec. 2021 N million	31 Dec. 2020 N million
<b>Movement in expected credit loss for doubtful receivables</b>				
At start of year	2,391	2,379	20	566
Additions / (write back)	(60)	86	-	(546)
Amount written off	(220)	(74)	-	-
At end of December 2021	2,111	2,391	20	20

The Group has, based on a 5 year historical year, developed a matrix for its expected credit loss. The Group has arrived at this expectation by computing the average credit loss (on financial assets) as a percentage of the average gross financial asset balance. There was no movement between provision stages during the year ended 31 December 2021.

**20.4 Reserves**
**a) Merger reserve**

Amount in merger reserve which represents the difference between pre-restructuring share premium/share capital and post-restructuring share premium/share capital during the holding company restructuring have been reclassified to general reserves.

**b) Other regulatory reserves**

The other regulatory reserves includes statutory reserve and the small and medium scale industries reserve (SMEEIS) as described below.

**(i) Statutory reserves**

Nigerian banking and pension industry regulations require the Stanbic IBTC Bank PLC ("the bank") and Stanbic IBTC Pension Managers Ltd ("SIPML") that are subsidiary entities, to make an annual appropriation to a statutory reserve.

As stipulated by S.16(1) of the Banks and Other Financial Institution Act of 1991 (amended), an appropriation of 30% of profit after tax is made if the statutory reserve is less than paid-up share capital and 15% of profit after tax if the statutory reserve is greater than the paid up share capital. The bank (a subsidiary) transferred 15% of its profit after tax to statutory reserves as at the end of the period.

Section 69 of Pension Reform Act, 2004 requires SIPML to transfer 12.5% of its profit after tax to a statutory reserve.

**(ii) Agri-Business / Small and medium scale industries reserve (AGSMEEIS)**

The SMEEIS reserve is maintained to comply with the Central Bank of Nigeria (CBN) requirement that all licensed banks set aside a portion of the profit after tax in a fund to be used to finance equity investment in qualifying small and medium scale enterprises. Under the terms of the guideline (approved by the Bankers' Committee on 9 February 2017), participating banks shall set aside 5% of their PAT annually. A transfer of N2,614 million was made into the AGSMEEIS reserve, which represents the Bank's annual commitment under the scheme, for the year (Dec 2020: N2,974 million) (see note 15 (iii)).

**c) Fair value through OCI reserve**

This represents unrealised gains or losses arising from changes in the fair value of FVOCI financial assets which are recognised directly in the FVOCI reserve. For equity investment under this category, such changes cannot be recycled into income statement when the financial asset is derecognised or impaired.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 20.4 Reserves (continued)

##### d) Statutory credit risk reserve

When credit impairment on loans and advances as accounted for under IFRS using the expected loss model differ from the Prudential Guidelines set by the Central Bank of Nigeria the following adjustment is required.

(i) If the Prudential Provision is greater than IFRS impairment allowance; transfer the difference from the general reserve to a non-distributable regulatory reserve (statutory credit reserve).

(ii) If the Prudential Provision is less than IFRS impairment allowance; the excess charges resulting should be transferred from the regulatory reserve account to the general reserve to the extent of the non-distributable reserve previously recognized.

Analysis of the statutory credit risk reserve is disclosed under note 6.1.

##### e) Share based payment reserve

This represents obligations under the equity settled portion of Standard Bank South Africa's Group's share incentive scheme which enables key management personnel and senior employees to benefit from the performance of Stanbic IBTC Holdings Plc and its subsidiaries. This is not settled from Stanbic IBTC Holdings shares.

##### f) Retained earnings

This represents the cumulative undistributed profits of the company to date, which have not been reclassified to the other reserves.

#### 21 Dividend

The Directors recommended the approval of a final dividend of 200 kobo per share (31 December 2020: 100 kobo per share) for the year ended 31 December 2021. Withholding tax would be deducted at the time of payment.

<b>Other borrowings</b>	<b>136,434</b>	112,031	-	-

The terms and conditions of other borrowings are as follows:

On-lending borrowings are funding obtained from Development Financial Institutions and banks which are simultaneously lent to loan customers. The Group bears the credit risk on the loans granted to customers and are under obligation to repay the lenders. Specific terms of funding are provided below:

- i This represents US\$2.5 million on-lending facility obtained from African Development Bank. The facility was disbursed in two tranches of US\$1.25 million each. Tranche A is priced at 6-month LIBOR + 3.6%, while Tranche B is priced at 6-month LIBOR +1.9%. Both tranches expires on 09 June 2022 and are unsecured.
- ii The bank obtained a Central Bank of Nigeria (CBN) initiated on-lending naira facility from Bank of Industry in September 2010 at a fixed rate of 1% per annum on a tenor based on agreement with individual beneficiary customer. The facility was granted under the Power and Aviation Intervention Fund scheme and Restructuring and Refinancing Facilities scheme. Disbursement of these funds are represented in loans and advances to customers. Based on the structure of the facility, the bank assumes default risk of amount lent to its customers. The facility was not secured.
- iii The bank obtained dollar denominated long term on-lending facilities with floating rates tied to LIBOR from Standard Bank Isle of Man with average tenor of 5 years. The dollar value of the facility as at 31 December 2021 was USD219 million (Dec 2020: USD134 million). The facilities have different expiry dates with the longest expiring on 31 December 2024.
- iv. The bank obtained an interest free loan from the Central Bank of Nigeria (CBN) for the purpose of on - lending to customers under the Commercial Agricultural Credit Scheme (CACCS). The tenor is also based on agreement with individual beneficiary customer. Disbursement of these funds are represented in loans and advances to customers. Based on the structure of the facility, the bank assumes default risk of amount lent to its customers.
- v. This represents N1,835 million (Tranche 1), N1,543 million (Tranche 2) and N822 million (Tranche 3) on-lending facilities obtained from Nigeria Mortgage Refinance Company in June 2016, June 2019 and August 2019 respectively. Tranche 1 is priced at 15.5% while Tranche 2 and 3 are priced at 14.5%. Tranche 1 expires on 07 August 2028, Tranche 2 expires on 07 June 2033 and Tranche 3 expires on 07 August 2034.
- vi. The Bank obtained a real sector support funding of N11.7 billion from the Central Bank of Nigeria at an interest rate of 3% for 7 years. The facilities have different expiry dates with the longest expiring on 17 June 2027
- vii. This represents US\$75 million on-lending facility obtained in October 2020 from the CDC Group. The facility which is a senior unsecured debt is priced at 6-month Libor + 4.0% with a maturity date of 10 November 2027

The Group has not had any default of principal, interest or any other breaches with respect to its debt securities during the year ended 31 December 2021 (Dec 2020: Nil).

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

**(a) Legal**

In the conduct of its ordinary course of business, the Group is exposed to various actual and potential claims, lawsuits. The Group makes provision for amounts that would be required to settle obligations that may crystallise in the event of unfavourable outcome of the lawsuits. Estimates of provisions required are based on management judgment. See note 31.5 for further details.

**(b) Taxes & levies**

Provisions for taxes and levies relates to additional assessment on taxes, including withholding tax, value added tax, PAYE tax. These claims are expected to be settled in the next financial year.

**(c) Expected credit loss for off balance sheet exposures**

This relates to expected credit loss on off balance sheet exposures in accordance with IFRS 9 Financial Instruments and are expected to be carried in the books till the maturity of the transactions.

Sundry liabilities (viii)	48,304	8,459	76	748
	460,518	346,333	38,832	8,869
Current	428,951	333,234	34,947	5,715
Non-current	31,567	13,099	3,885	3,154
	460,518	346,333	38,832	8,869

(i) Collections and remittance payable includes N26bn (Dec 2020: N51bn) relating to balance held in respect of clearing and settlement activities for NIBSS, FMDQ over-the-counter foreign exchange transactions.

(ii) Unclaimed balances include demand drafts not yet presented for payment by beneficiaries.

(iii) Amount represents liability in respect of unclaimed dividends not yet claimed as at 31 December 2021 by shareholders after 15 months as per the Securities and Exchange Commission circular. The assets held for the liability are presented in note 11.1 and note 15 (ii).

(iv) In determining the fair value of derivative instruments such as Swap contracts, all valuation inputs used by management were not directly observable which gave rise to deferral Day one gain. Day one profit or loss could arise due to the fact that the counterparty credit risk, Own credit risk and Cross-Correlation Quanto Risk inherent in the swap contracts are not directly or are indirectly observable from current market transactions in the same instrument.

(v) Amount represents margin cash collateral for FX futures

(vi) Lease liabilities are initially measured at the present value of the contractual payments due to the lessor over the lease term,

(vii) Amount relates to unsettled dealing balances as at end of the year.

(viii) Included in sundry liabilities are non-financial institution Vostro account.

Financial investments	11	-	-	47,795	5,109	580,709	3,021	-	636,634	636,634
Loans and advances to banks	12	-	-	-	16,096	-	-	-	16,096	16,096
Loans and advances to customers	12	-	-	-	921,044	-	-	-	921,044	907,873
Other assets (see (a) below)		-	-	-	120,385	-	-	-	120,385	120,385
		<b>235,142</b>	<b>-</b>	<b>671,011</b>	<b>1,092,488</b>	<b>667,857</b>	<b>3,021</b>	<b>-</b>	<b>2,669,519</b>	<b>2,656,348</b>
<b>Liabilities</b>										
Derivative liabilities	10.6	25,364	-	-	-	-	-	-	25,364	25,364
Trading liabilities	9.2	112,023	-	-	-	-	-	-	112,023	112,023
Deposits from banks	22	-	-	-	-	-	-	431,862	431,862	431,862
Deposits from customers	22	-	-	-	-	-	-	1,126,535	1,126,535	1,126,535
Debt securities issued	24	-	-	-	-	-	-	47,419	47,419	47,419
Other borrowings	23	-	-	-	-	-	-	136,434	136,434	136,434
Other liabilities (see (b) below)		-	-	-	-	-	-	443,038	443,038	443,038
		<b>137,387</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>2,185,288</b>	<b>2,322,675</b>	<b>2,322,675</b>

<sup>1</sup> Carrying value has been used where it closely approximates fair values. Fair value estimates are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. Where available, the most suitable measure for fair value is the quoted market price. In the absence of organised secondary markets for financial instruments, such as loans, deposits and unlisted derivatives, direct market prices are not always available. The fair value of such instruments was therefore calculated on the basis of well-established valuation techniques using current market parameters.

- (a) Other assets presented in the table above comprise financial assets only. The following items have been excluded: prepayment, indirect / withholding tax receivable, and accrued income.
- (b) Other liabilities presented in the table above comprise financial liabilities only other than deferred revenue.
- (c) Assessment of the fair value is not material as the carrying amount closely resemble the fair value and over 70% of the assets matures within one year.

- (b) Other liabilities presented in the table above comprise financial liabilities only. The following items have been excluded: deferred revenue.
- (c) Assessment of the fair value is not material as the carrying amount closely resemble the fair value and over 70% of the assets matures within one year.

**29 Fair values of financial instruments**

The fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, fair values are determined using other valuation techniques.

**29.1 Valuation models**

The Group measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1 - fair values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

Level 2 - fair values are calculated using valuation techniques based on observable inputs, either directly (i.e. as quoted prices) or indirectly (i.e. derived from quoted prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 - fair values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Valuation techniques include discounted cash flow models, comparison with similar instruments for which market observable prices exist, Black-Scholes and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, bonds and equity prices, foreign exchange rates, equity prices and expected volatilities and correlations.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments;
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves;
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value;
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Group believes that a third party market participant would take them into account in pricing a transaction. For measuring derivatives that might change classification from being an asset to a liability or vice versa such as interest rate swaps, fair values take into account the credit valuation adjustment (CVA) when market participants take this into consideration in pricing the derivatives.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 29 Fair values of financial instruments

##### 29.2 Valuation framework

The Group has an established control framework with respect to the measurement of fair values. This framework includes a market risk function, which has overall responsibility for independently verifying the results of trading operations and all significant fair value measurements, and a product control function, which is independent of front office management and reports to the Chief Financial Officer. The roles performed by both functions include:

- verification of observable pricing
- re-performance of model valuations;
- review and approval process for new models and changes to models
- calibration and back-testing of models against observed market transactions;
- analysis and investigation of significant daily valuation movements; and
- review of significant unobservable inputs, valuation adjustments and significant changes to the fair value measurement of level 3 instruments.

Significant valuation issues are reported to the audit committee.

##### 29.3 Financial instruments measured at fair value - fair value hierarchy

The tables below analyse financial instruments carried at fair value at the end of the reporting year, by level of fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position. See note 4.5 on accounting policies on fair value.

Group	Note	Carrying amount N million	Level 1 N million	Level 2 N million	Level 3 N million	Total N million
<b>31 December 2021</b>						
<b>Assets</b>						
Cash and bank balances	7	623,216	-	623,216	-	623,216

	<b>1,781</b>	<b>363</b>	<b>2,144</b>

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

**29.4 Level 3 fair value measurement (continued)**

**(ii) Unobservable inputs used in measuring fair value**

The information below describes the significant unobservable inputs used at year end in measuring financial instruments categorised as level 3 in the fair value hierarchy.

Type of financial instrument	Fair value as at 31-Dec-2021 (N million)	Valuation technique	Significant unobservable input	Fair value measurement sensitivity to unobservable input
Unquoted equities	3,021 (2020: 3,049)	Dividend valuation method, Average maintainable earnings method, Weighted average maintainable earnings method amongst others	- Risk adjusted discount rate - Earning capitalization rate	A significant increase in the spread above the risk free rate would result in a lower fair value.
Derivative assets	11,369 (2020: 6,572)	Discounted cash flow	- Own credit risk (DVA) - Counterparty credit risk (CVA, basis risk and country risk premium) - USD / NGN quanto risk - Implied FX volatility	A significant move (either positive or negative) in the unobservable input will result in a significant move in the fair value.

**(iii) The effect of unobservable inputs on fair value measurement (sensitivity analysis)**

The table below indicates the valuation techniques and main assumptions used in the determination of the fair value of the level 3 assets and liabilities measured at fair value on a recurring basis. The table further indicates the effect that a significant change in one or more of the inputs to a reasonably possible alternative assumption would have on profit or loss at the reporting date.

	Valuation technique	Significant unobservable input	Variance in fair value measurement	Effect on OCI	
				Favourable Nmillion	Unfavourable Nmillion
<b>December 2021</b>					
Unquoted equities	Discounted cash flow	Risk adjusted discount rate	From (2%) to 2%	57	(59)
Derivative assets	Discounted cash flow	- Own credit risk (DVA) - Counterparty credit risk (CVA, basis risk and country risk premium) - USD / NGN quanto risk - Implied FX volatility	From (1%) to 1%	441	(445)
<b>December 2020</b>					
Unquoted equities	Discounted cash flow	Risk adjusted discount rate	From (2%) to 2%	237	(186)
Derivative assets	Discounted cash flow	- Own credit risk (DVA) - Counterparty credit risk (CVA, basis risk and country risk premium) - USD / NGN quanto risk - Implied FX volatility	From (1%) to 1%	627	(623)

**29.5 Financial instruments not measured at fair value - fair value hierarchy**

The following table set out the fair values of financial instruments not measured at fair value and analyses them by the level in the fair value hierarchy into which each fair value measurement is categorised.

	<b>1,850,850</b>	<b>-</b>	<b>1,850,850</b>	<b>-</b>	<b>1,850,850</b>

Fair value of loans and advances is estimated using discounted cash flow techniques. Input into the valuation techniques includes interest rates and expected cash flows. Expected cash flows are discounted at current market rates to determine fair value.

Fair value of deposits from banks and customers is estimated using discounted cash flow techniques, applying the rates offered for deposits of similar maturities and terms. The fair value of deposits payable on demand is the amount payable at the reporting date.

**30 Financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements**

IFRS requires financial assets and financial liabilities to be offset and the net amount presented in the statement of financial position when, and only when, the Group and company have a current legally enforceable right to set off recognised amounts, as well as the intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Accordingly, the following table sets out the impact of offset, as well as financial assets and financial liabilities that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they have been offset in accordance with IFRS.

It should be noted that the information below is not intended to represent the Group and company's actual credit exposure, nor will it agree to that presented in the statement of financial position.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 30 Financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements (continued)

Group	Gross amount of recognised financial assets <sup>1</sup> N million	Gross amounts of recognised financial liabilities offset in the statement of financial position <sup>2</sup> N million	Net amounts of financial assets presented in the statement of financial position N million	Financial instruments, financial collateral and cash collateral <sup>3</sup> N million	Net amount N million
<b>31 December 2021</b>					
<b>Assets</b>					
Derivative assets	33,339	-	33,339	(33,339)	-
Loans and advances to customers	14,155	-	14,155	(1,332)	12,823
	<b>47,494</b>	<b>-</b>	<b>47,494</b>	<b>(34,671)</b>	<b>12,823</b>

Group	Gross amount of recognised financial liabilities <sup>1</sup> N million	Gross amounts of recognised financial assets offset in the statement of financial position <sup>2</sup> N million	Net amounts of financial liabilities presented in the statement of financial position N million	Financial instruments, financial collateral and cash collateral <sup>3</sup> N million	Net amount N million
<b>31 Dec 2020</b>					
<b>Liabilities</b>

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

	Group		Company	
	31 Dec. 2021 N million	31 Dec. 2020 N million	31 Dec. 2021 N million	31 Dec. 2020 N million
<b>31 Contingent liabilities and commitments</b>				
<b>31.1 Contingent liabilities</b>				
Letters of credit	185,714	100,654	-	-
Bonds and Guarantees	104,418	112,968	-	-
	<b>290,132</b>	<b>213,622</b>	<b>-</b>	<b>-</b>

Bonds and Guarantees and letters of credit are given to third parties as security to support the performance of a customer to third parties. As the Group will only be required to meet these obligations in the event of the customer's default, the cash requirements of these instruments are expected to be considerably below their nominal amounts. The expected credit loss of N794 million (Dec 2020: N1,226 million) on this has been included in provisions (see note 26).

**31.2 Capital commitments**

Contracted capital expenditure	829	724	35	28
Capital expenditure authorised but not yet contracted	28,023	27,302	386	995
	<b>28,852</b>	<b>28,026</b>	<b>421</b>	<b>1,023</b>

The above commitments relates to capital expenditure on property plant and equipment and the expenditure will be funded from the Group's internal resources.

**31.3 Loan commitments**

As at 31 Dec 2021, the Group had loan commitments amounting to N114.37 billion (Dec 2020: N89.27 billion) in respect of various loan contracts. The expected credit loss on the off-balance sheet exposures amounts to N889 million (Dec 2020: N1,226 million).

**31.4 Third party funds under management and funds under administration**

Members of the Group provide discretionary and non-discretionary investment management services to institutional and private investors.

Commissions and fees earned in respect of trust and management activities performed are included in profit or loss.

Assets managed and funds administrated on behalf of third parties include:

	31 Dec. 2021 N million	31 Dec. 2020 N million
Pension funds	4,253,286	3,760,384
Unit Trusts / Collective investments	829,742	870,586
Trusts and Estates	63,186	59,399
Assets held under custody - custodial services	4,124,023	3,733,139
	<b>9,270,237</b>	<b>8,423,508</b>

Income earn in fiduciary capacity are disclosed in note 32.3

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 31.5 Legal proceedings

In the ordinary course of business the Group is exposed to various actual and potential claims, lawsuits and other proceedings that relate to alleged errors, omissions, breaches. The Directors are satisfied, based on present information and the assessed probability of such existing claims crystallising that the Group has adequate insurance cover and / or provisions in place to meet such claims.

The Group litigation portfolio as at 31 December 2021 consisted of 373 cases and aggregate value of monetary claims against the Stanbic IBTC Group was N118,012,784,378.45; USD\$4,438,678.78 & GB £74,284.64.

Included in the total number of litigation above is the case involving Stanbic IBTC Bank PLC as Appellant where the Court of Appeal, Lagos Division delivered Judgment on Monday 20 September 2021 and reduced the damages awarded by the High Court from N50billion to N5billion. The Bank being dissatisfied with the Judgment of the Court of Appeal, filed a Notice of Appeal and Motion for stay of execution of the Judgment. The Bank's Motion for stay of execution was granted by the Court of Appeal on 24 November 2021. The Bank has compiled and transmitted the records of appeal to the Supreme Court and the Bank's appeal is duly entered as SC/CV/1075/2021. The same Judgment holds in the CRC Credit Bureau appeal.

The claims against the Group are generally considered to have a low likelihood of success and the Group is actively defending same. Management believes that the ultimate resolution of any of the proceedings will not have a significantly adverse effect on the Group. Where the Group envisages that there is a more than average chance that a claim against it will succeed, adequate provisions are raised in respect of such claim. See note 26 for details of provisions.

Below is the distribution of cases across the hierarchy of courts;

<b>Court Hierarchy</b>	<b>Number of cases</b>
a) Magistrate, High Court, Federal High Court and National Industrial Court	324
b) Court of Appeal	38
c) Supreme Court	11

In addition the Bank subsidiary is involved in litigation against AMCON, please refer to note 31.6 for further details.

#### 31.6 Asset Management Corporation of Nigeria (AMCON) Clawback

The Bank had in December 2012 entered into an agreement with AMCON to purchase the Eligible Assets (non-performing loan) of a client, which the Bank had classified as "doubtful". AMCON confirmed its willingness to purchase the proposed Eligible Assets at a total consideration of about N10 billion, which sale/purchase was concluded in December of 2012. As a precondition for the sale, AMCON unequivocally stated that the pricing of the Eligible Bank Assets was subject to adjustment within twelve (12) months in line with AMCON guidelines after due diligence on information the Bank had supplied to AMCON.

AMCON by a letter dated October 4, 2017 informed the Bank of its intention to reprice the loan and claw back the sum of N5.7bn, being what was alleged to be excess overpaid consideration, as a result of what was felt was an overvaluation. The Bank in its response to the allegation, emphatically denied the allegations and provided evidence to AMCON to the contrary. The Bank noted that AMCON's attempt to reprice the sold Assets, were outside the 12-month claw-back period provided in AMCON's guidelines.

Notwithstanding all the clarifications made by the Bank, AMCON proceeded to apply to the Central Bank of Nigeria (CBN) to debit the Bank's account with the sum requested to be clawed back, plus possible accrued interest. Sequel to this, the CBN wrote to Stanbic IBTC on 31 July 2019, informing the Bank of AMCON's request to debit the Bank's account.

Accordingly, the Bank instructed its lawyers to institute a Legal action against AMCON, pursuant to which it obtained an interim injunction (ex-parte), restraining AMCON and the CBN from debiting its Account for the alleged claw-back sum. However, the Bank subsequently discovered that AMCON had earlier filed a suit at the Federal High Court, Lagos Division on the same subject matter. Consequently, the Bank discontinued its suit against AMCON and filed a Counter-Claim against AMCON in its suit. The case is currently adjourned to 14 February 2022 for settlement of issues. (see note 15).

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 32.10 Share-based payment transactions

The Group operates a number of share-based payment arrangements under which the entity receives services from employees as a consideration for equity instrument of the Group or cash settlement based on equity instrument of the Group.

At 31 December 2021, the Group had the following share-based arrangements.

- (a) Share appreciation rights based on equity instrument of Stanbic IBTC Holdings PLC (Stanbic IBTC Equity Growth Scheme) - cash settled
- (b) Share options and appreciation rights based on equity instrument of Standard Bank Group (Parent company share incentive schemes) - equity settled.
- (c) Deferred bonus scheme.
- (d) Cash settled deferred bonus scheme (CSDBS)
- (e) Performance reward plan (PRP)

The expenses and liabilities recognised in respect of the share based arrangements are as follows:

	31 Dec. 2021 N million	31 Dec. 2020 N million
<b>Expenses recognised in staff costs</b>		
<b>Expenses recognised in staff costs</b>		
Stanbic IBTC Equity Growth Scheme (credit)/charge	93	(307)
Parent company share incentive schemes**	850	-
Deferred bonus scheme (DBS)	39	(90)
	<b>982</b>	<b>(397)</b>
	<b>31 Dec. 2021</b>	<b>31 Dec. 2020</b>
	<b>N million</b>	<b>N million</b>
<b>Liabilities recognised in other liabilities</b>		
Stanbic IBTC Equity Growth Scheme	-	-
Deferred bonus scheme	1	687
	<b>1</b>	<b>687</b>

\*\*The parent company share incentive scheme is equity settled. As such, a corresponding increase in equity has been recognised. See Statement of changes in equity for further details.

#### (a) Stanbic IBTC Equity Growth Scheme

On 1 March 2010 and 1 March 2011, the Group granted share appreciation rights to key management personnel that entitles the employees to cash value determined based on the increase in share price of Stanbic IBTC Holdings PLC between grant date and exercise date.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 32.10 Share-based payment transactions (continued)

##### (a) Stanbic IBTC Equity Growth Scheme (continued)

The object and purpose of the scheme is to promote an identity of interest between the Group and its senior employees, to attract, retain and motivate skilled and competent personnel with high potential to influence the direction, growth and profitability of the Group by enhancing leadership commitment and drive to grow the Group market value and position in support of shareholder interests.

The terms and conditions of the grants are as follows.

Vesting category	year	% Vesting	Expiry
Type A	3, 4, 5	50, 75, 100	10 years

	Units	
	31 Dec. 2021	31 Dec. 2020
<b>Reconciliation</b>		
Units outstanding at beginning of the year	-	14,510,640
Granted	-	-
Forfeited	-	-
Exercised	-	(14,510,640)
Lapsed	-	-
<b>Units outstanding at end of the year</b>	-	-

The fair value of share appreciation rights is determined using Black-Scholes formula. The inputs used in the measurement of their fair value were as follows:

	31 Dec. 2021	31 Dec. 2020
Weighted average fair value at grant date (Naira) - Rights granted 1 March 2010	-	-
Weighted average fair value at grant date (Naira) - Rights granted 1 March 2011*	-	17.83
Expected life (years)	-	0.67
Expected volatility (%)	-	55.57
Risk-free interest rate (%)	-	2.33
Dividend yield (%)	-	9.92

\* The weighted average fair value is the exercise price as at the end of year

##### (b) Parent company share incentive schemes

###### Share options and appreciation rights

A number of employees of the Group participate in the Standard Bank Group's share schemes. Standard Bank Group (SBG) has two equity-settled schemes, namely the Group Share Incentive Scheme and the Equity Growth Scheme. The Group Share Incentive Scheme confers rights to employees to acquire ordinary shares at the value of the SBG share price at the date the option is granted. The Equity Growth Scheme was implemented in 2005 and represents appreciation rights allocated to employees. The eventual value of the right is effectively settled by the issue of shares equivalent in value to the value of the rights.

The two schemes have five different sub-types of vesting categories as illustrated by the table below:

	year	% vesting	Expiry
Type A	3, 4, 5	50, 75, 100	10 years
Type B	5, 6, 7	50, 75, 100	10 years
Type C	2, 3, 4	50, 75, 100	10 years
Type D	2, 3, 4	33, 67, 100	10 years
Type E	3, 4, 5	33, 67, 100	10 years

A reconciliation of the movement of share options and appreciation rights is detailed as follows:

**STANBIC IBTC HOLDINGS PLC**

36,026					

---

**32.10 Share-based payment transactions** (continued)

**(c) Deferred bonus scheme (DBS)**

It is essential for the Group to retain key skills over the longer term. This is done particularly through share-based incentive plans. The purpose of these plans is to align the interests of the Group, its subsidiaries and employees, as well as to attract and retain skilled, competent people.

The Group has implemented a scheme to defer a portion of incentive bonuses over a minimum threshold for key management and executives. This improves the alignment of shareholder and management interests by creating a closer linkage between risk and reward, and also facilitates retention of key employees.

All employees, who are awarded short-term incentives over a certain threshold, are subject to a mandatory deferral of a percentage of their cash incentive into the DBS. Vesting of the deferred bonus occurs after three years, conditional on continued employment at that time. The final payment of the deferred bonus is calculated with reference to the Standard Bank Group share price at payment date. To enhance the retention component of the scheme, additional increments on the deferred bonus become payable at vesting and one year thereafter. Variables on thresholds and additional increments in the DBS are subject to annual review by the remuneration committee, and may differ from one performance year to the next.

**32.10 Share-based payment transactions (continued)****Deferred bonus scheme 2012 (DBS 2012)**

In 2012, changes were made to the DBS to provide for a single global incentive deferral scheme across the Standard Bank Group (SBG). The purpose of the Deferred Bonus Scheme 2012 is to encourage a longer-term outlook in business decision-making and closer alignment of performance with long-term value creation.

All employees granted an annual performance award over a threshold have part of their award deferred. The award is indexed to the SBG's share price and accrues notional dividends during the vesting year, which are payable on vesting. The awards vest in three equal amounts at 18 months, 30 months and 42 months from the date of award. The final payout is determined with reference to the SBG's share price on vesting date.

<b>Units outstanding at end of the year</b>	<b>15,101</b>	<b>-</b>
Weighted average fair value at grant date (ZAR)	-	182.43
Expected life (years)	2.51	2.51

**(d) Cash settled deferred bonus scheme (CSDBS)**

Employees granted an annual performance award over a threshold have part of their award deferred. In addition the Group makes special awards of CSDBS to qualifying employees.

The award units are denominated in employee's host countries' local currency, the value of which moves parallel to the changes in the price of the SBG shares listed on the JSE and accrue notional dividends over the vesting year which are payable on vesting.

Awards vest in three equal tranches at 18 months, 30 months and 42 months from the date of award. Final payout is determined with reference to SBG share price on vesting date.

Weighted average fair value at grant date (ZAR)	142.06	152.64						
Expected life at grant date (years)	2.51	2.51						

**(e) Performance reward plan (PRP)**

A new performance driven share plan commenced in March 2014 which rewards value delivered against specific targets. The PRP incentivises a Group of senior executives to meet the strategic long-term objectives that deliver value to shareholders, to align the interests of those executives with those of shareholders and to act as an attraction and retention mechanism in a highly competitive marketplace for skills. The PRP operates alongside the existing conditional, equity-settled long-term plans, namely the EGS, GSIS and DBS.

**STANBIC IBTC HOLDINGS PLC**

**Notes to the consolidated and separate financial statements**

For the year ended 31 December 2021

**32.10 Share-based payment transactions** (continued)

**Performance reward plan (PRP)-continued**

The PRP is settled in shares to the employee on the applicable vesting dates together with notional dividends that are settled in cash. The shares that vest (if any) and that are delivered to the employee are conditional on the pre-specified performance metrics.

**STANBIC IBTC HOLDINGS PLC**  
**Notes to the consolidated and separate financial statements**  
**For the year ended 31 December 2021**

**38 Directors and staff related exposures**

The Group has some exposures in terms of loans and advances to employees and to customers that are affiliated to its present and past Directors. Loans granted to customers that are affiliated to Directors are granted at commercial rates while those granted to executive Directors and employees are granted at below-the-market rates. There were no non-performing director related exposures as at balance sheet date (2020: Nil). In cases where outstanding balance exceeds approved credit limit, no principal payment was due on the facility and the excess therefore relates to accrued interest.

In cases where outstanding balance exceeds approved credit limit, no principal payment was due on the facility and the excess therefore relates to accrued interest.

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

#### 39 Retirement benefit obligations

The Group operates a defined contribution pension scheme in line with the provisions of the Pension Reform Act 2014, with contributions based on the sum of employees' basic salary, housing and transport allowances in the ratio 8% by the employee and 10% by the employer. The amount contributed by the Group and remitted to the Pension Fund Administrators during the year was N2,053 million (December 2020: N2,038 million).

The Group's contribution to this scheme is charged to the income statement in the year to which it relates. Contributions to the scheme are managed by Stanbic IBTC Pension Managers Limited, and other appointed pension managers on behalf of the beneficiary staff in line with the provisions of the Pension Reform Act. Consequently, the Group has no legal or constructive obligations to pay further contributions if the funds do not hold sufficient assets to meet the related obligations to employees.

Details of transactions between the Group and the Group's post-employment contribution plans (that is, the contributory pension scheme) are listed below:

	31 Dec. 2021 N million	31 Dec. 2020 N million
Deposits held with the Group	1,858	14,132

## STANBIC IBTC HOLDINGS PLC

### Notes to the consolidated and separate financial statements

For the year ended 31 December 2021

---

#### 41 Compliance with banking and other regulations

The Group paid penalties to the Central Bank of Nigeria (CBN) & SEC during the year as follows:

- . Penalty of N1million paid for Administrative infractions during Retirement Savings Account Transfer 4th Quarter of 2020 as a result of failed validation attempts at the point of upload.
- . The CBN debited the Bank's position with the sum of N230 million for an alleged contravention of extant FX regulations from January 2013 to July 2020.
- . Penalty imposed by CBN following an alleged unfair termination of employment of former employee: The CBN imposed a penalty of N2 million on the Bank following an alleged unfair termination of employment of a former employee, whose employment was terminated for being unable to meet the performance criteria required to confirm his employment in line with policy.
- . The CBN debited the Bank's position with the sum of N2 million for an alleged Non-Compliance with CBN/CIBN Press Statement/Section 50 of BOFIA
- . The CBN debited the Bank's position with the sum of N200million for an alleged contravention of CBN circular with reference number BSD/DIR/GEN/LAB/14/001 on Cryptocurrency. The bank has written a letter of appeal for a review of the circumstances surrounding these accounts and a waiver of the N200 million fine imposed on the Bank.

The total penalties paid by the Group amounted to N435 million (Dec 2020: N277 million).

#### 42 Events after the reporting date

There were no events after the reporting date which could have a material effect on the financial position of the Group as at 31 Dec 2021 which have not been recognised or disclosed.

**43 Risk and capital management**

**Enterprise risk review**

**Overview**

Risk Management's objective continues to align with the Group's strategic focus "to be the leading end-to-end financial solutions provider in Nigeria through innovative and customer-focused people". Effective risk management is fundamental and essential to the achievement of the Group's strategic objectives. It is also one of the pillars of the institution's strategic value drivers which entails supporting our clients by doing the right business the right way and maintaining the highest possible standards of responsible business practice using frameworks that align with regulatory expectations and standard business practices as well as procedures.

The Risk function continues its oversight and advisory responsibilities by deploying a consistent, comprehensive and strategic approach to the identification, measurement, management and reporting of enterprise-wide risks across the Group. This is executed through proactive risk management practices which ensure that the business maintains the right balance in terms of the risk-return trade off whilst limiting the negative variations that could impact the Group's capital, earnings, risk assets and appetite levels in a constantly changing and dynamic operating environment. Furthermore, Risk continues to shape, drive and monitor activities relating to risk and conduct in the institution through various measures including strengthening the risk and control environment, monitoring risk appetite and governance standards across the institution and elevating risk awareness by deploying requisite compliance training programmes for all Stanbic IBTC employees with a standard process of monitoring and escalating deficiencies in meeting the required standards. This is also in line with the established code of conduct and ethics that all members of staff must adhere and attest to on an annual basis.

The Board sets the tone and risk appetite for the organization including the tolerance levels for key risks and ensure the right risk culture is established across the institution. These risks are however managed in accordance with a set of governance standards, frameworks and policies which align with the global and industry best practices.

The Group's integrated risk management architecture, as outlined in the Enterprise Risk Management (ERM) framework, supports the evaluation and prioritisation of the risk exposures and mitigation activities in line with the Group's approved risk appetite, through prudent management of risk exposures in a way that balances the risk premium and return on equity.

The overarching approach to managing enterprise-wide risk is based on the "Three Lines of Defense" principle which requires the first line (Business risk owners) to appropriately demonstrate ownership and accountability for risks and manage same closest to the point of incidence; second line (including Risk, Compliance, and Internal Control) to review and challenge as well as provide oversight and advisory functions; and the third line (Internal Audit) to conduct assurance that control processes are fit for purpose, are implemented in accordance with standard operating procedures, and operating effectively or as intended.

**Risk management framework**

**Approach and structure**

The Group's approach to risk management is based on governance processes that rely on both individual responsibility and collective oversight that is supported by a tailored Management Information System (MIS). This approach balances corporate oversight at senior management level with independent risk management structures in the business where the business unit heads, as part of the first line of defense, are specifically responsible for the management of risk within their businesses using appropriate risk management frameworks that meet required Group minimum standards.

An important element that underpins the Group's approach to the management of all risk is independence and appropriate segregation of responsibilities between Business and Risk. Risk officers report separately to the Head of Group Risk who reports to the Chief Executive Officer of Stanbic IBTC Group and also through a matrix reporting line to the Standard Bank Group (SBG).

All principal risks are supported by the Risk department.

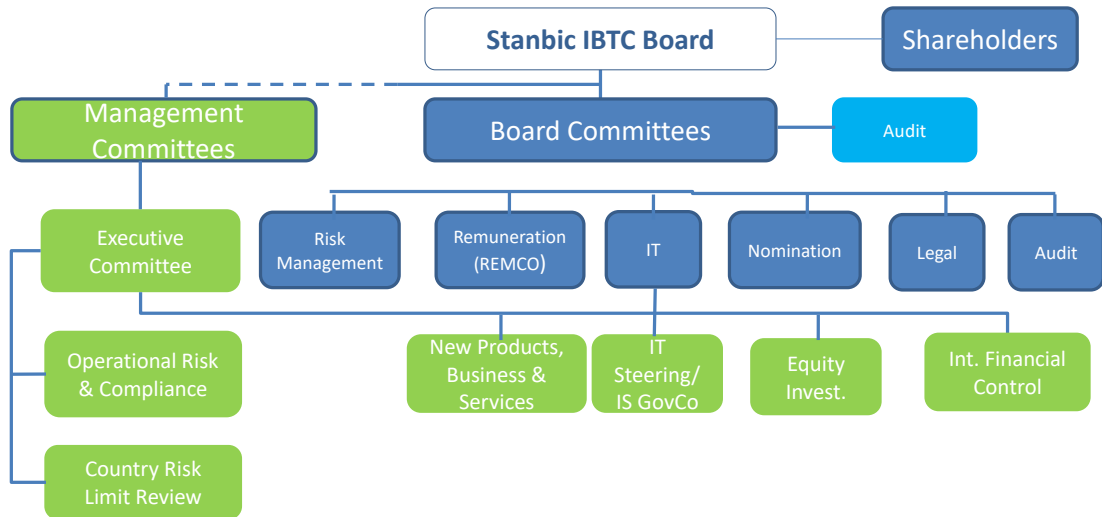

**Governance structure**

The risk governance structure provides a platform for the board, executive and senior management through the various committees to evaluate and debate material existential and emerging risks which the Group is exposed to, and assess the effectiveness of risk responses through the risk profiles of the underlying business units and functional areas (please refer to the pictorial representation of the Group risk governance structure below).

The risk-focused board committees include the statutory audit committee, board credit committee, board IT committee, board legal committee, and board risk management committee, while executive management oversight at the subsidiary and Group levels is achieved through management committees that focus on specific risks. Each of the board and management committees is governed by mandates that set out the expected committee's terms of reference.

Risk management framework

Governance structure<sup>a</sup>

<sup>a</sup>This is continuously evolving to meet changing needs.

**Risk governance standards, policies and procedures**

The Group has developed a set of risk governance standards for each principal risk including credit, market, operational, IT, liquidity and compliance risks. The standards define the acceptable conditions for the assumption of the major risks and ensure alignment and consistency in the manner in which these risks are identified, measured, managed, controlled and reported, across the Group.

All standards are supported by policies and procedural documents. They are applied consistently across the bank and are approved by the Board. It is the responsibility of the business unit executive management to ensure that the requirements of the risk governance standards, policies and procedures are implemented within the business units.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

**Risk appetite**

Risk appetite is an expression of the amount, type and tenure of risk that the Group is prepared to accept in order to deliver its business objectives. It is the balance of risk and return as the Group implements business plans, whilst recognising a range of possible outcomes.

The Board establishes the Group's parameters for risk appetite by:

- providing strategic leadership and guidance;
- reviewing and approving annual budgets and forecasts for the Group and each subsidiary; and
- regularly reviewing and monitoring the Group's performance in relation to set risk appetite.

The risk appetite is defined by several metrics which are then converted into limits and triggers across the relevant risk types, at both entity and business line levels, through an analysis of the risks that impact them.

**Stress testing**

Stress testing serves as a diagnostic and forward looking tool to improve the Group's understanding of its credit; market, liquidity and operational risks profile under event based scenarios.

Management reviews the outcome of stress tests and selects appropriate mitigating actions to minimize and manage the impact of the risks to the Group.

Residual risk is then evaluated against the risk appetite.

The Group's enterprise risk management framework is designed to govern, identify, measure, manage, control and report on the principal risks to which the Group is exposed. The principal financial risks are defined as follows:

**Credit risk**

Credit risk arises primarily in the Group operations where an obligor / counterparty fails to perform in accordance with agreed terms or where the counterparty's ability to meet such contractual obligation is impaired.

Credit risk comprises counterparty risk, wrong-way risk, settlement risk, country risk and concentration risk.

*Counterparty risk*

Counterparty risk is the risk of loss to the Group as a result of failure by a counterparty to meet its financial and/or contractual obligations to the Group. It has three components:

- primary credit risk which is the exposure at default (EAD) arising from lending and related banking product activities, including their underwriting;
- pre-settlement credit risk which is the EAD arising from unsettled forward and derivative transactions, arising from the default of the counterparty to the transaction and measured as the cost of replacing the transaction at current market rates; and
- issuer risk which is the EAD arising from traded credit and equity products, and including their underwriting.

*Wrong-way risk*

Wrong-way risk is the risk that arises when default risk and credit exposure increase together. There are two types of wrong-way risk as follows: specific wrong way risk (which arises through poorly structured transactions, for example, those collateralized by own or related party shares) and general wrong way risk (which arises where the credit quality of the counterparty may for non-specific reasons be held to be correlated with a macroeconomic factor which also affects the credit quality of the counterparty).

*Settlement risk*

Settlement risk is the risk of loss to the Group from a transaction settlement, where value is exchanged, failing such that the counter value is not received in whole or part.

*Country and cross border risk*

Country and cross border risk is the risk of loss arising from political or economical conditions or events in a particular country which reduce the ability of counterparties in that particular country to fulfill their obligations to the Group.

Cross border risks is the risk of restriction on the transfer and convertibility of local currency funds, into foreign currency funds thereby limiting payment by offshore counterparties to the Group.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

*Concentration risk*

Concentration risk refers to any single exposure or Group of exposures large enough to cause credit losses which threaten the Group’s capital adequacy or ability to maintain its core operations. It is the risk that common factors within a risk type or across risk types cause credit losses or an event occurs within a risk type which results to credit losses.

**Market risk**

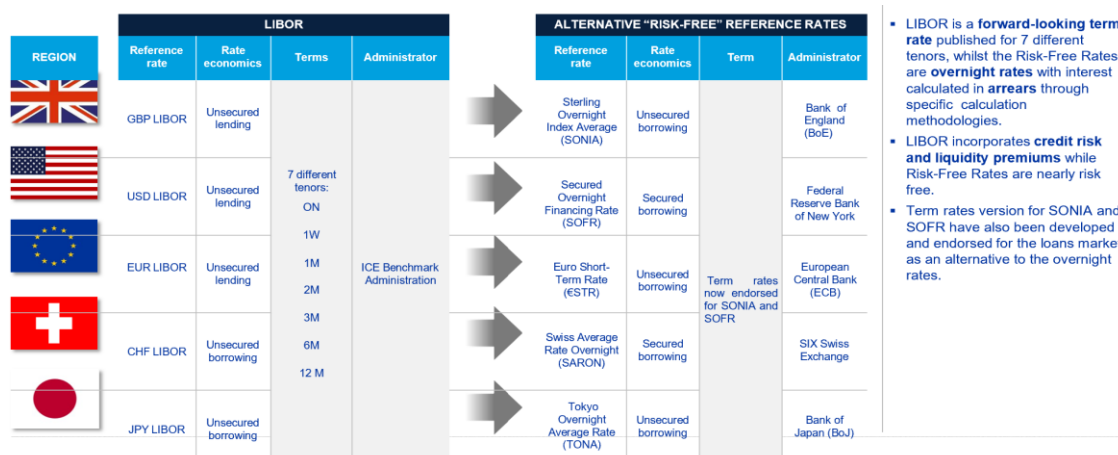

Market risk is defined as the risk of a change in the actual or effective market value or earnings of a portfolio of financial instruments caused by adverse movements in market variables such as equity, bond and commodity prices, foreign exchange rates, interest rates, credit spreads, recovery rates, correlations and implied volatilities in the market variables. Market risk covers both the impact of these risk factors on the market value of traded instruments as well as the impact on the Group’s net interest margin as a consequence of interest rate risk on banking book assets and liabilities.

**Managing interest rate benchmark reform and associated risks**

The Group adopted the interest rate benchmarks including the replacement of some interbank offered rates (IBORs) with alternative “risk-free” reference rates as part of its IBOR reform program. The Group’s main IBOR exposures as at 31 December 2021 were indexed to the Euro, GBP and USD LIBOR.

The alternative reference rates for Euro LIBOR adopted by the Group is the EURIBOR while the GBP and USD LIBOR alternative reference rates are the Sterling Overnight Index Average (SONIA) the Secured Overnight Financing Rate (SOFR) respectively.

Amendments to financial instruments with contractual terms indexed to the EUR and GBP LIBORs were transitioned such that they incorporate the new benchmark rates and the transitioning were completed by 31 December 2021. The transition of USD LIBOR exposures to the SOFR benchmark rate has been extended to 30 June 2023 by the Alternative Reference Rate Committee (ARRC). This only applies to certain USD LIBOR tenures such as (o/n, 1-month, 3-month, 6-month, 12-month). However, the Group is working to an internal timeline of 30 June 2022 for the transition of all legacy USD-LIBOR linked exposures.

In accordance with the transition provisions, the amendments have been adopted retrospectively to financial instruments only as the Group has no hedging transactions referencing these IBORs. Comparative amounts have not been restated, and there was no impact on the current period opening reserves amounts on adoption.

During the year, management established a steering committee, consisting of key finance, risk, IT, treasury, legal, marketing, credit, compliance and business segment personnel, to oversee the Group’s LIBOR transition plan. This steering committee put in place a transition project for those contracts which reference LIBOR to transition them to the alternative reference rates, with the aim of minimizing the potential disruption to business and mitigating operational and conduct risks and possible financial losses. This transition project considered changes to systems, processes, risk management and valuation models, as well as managing related tax and accounting implications.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

As at 31 December 2021, changes required to systems, processes and models have been identified and have been largely implemented. There have been general communications with counterparties on the IBOR reform and specific changes to contracts as required by the IBOR transition plan have also been agreed with and executed by clients.

**Financial instruments measured using amortized**

'Phase 2' of the amendments requires that, for financial instruments measured using amortized cost measurement (that is, financial instruments classified as amortized cost and debt financial assets classified as FVOCI), changes to the basis for determining the contractual cash flows required by interest rate benchmark reform are reflected by adjusting their effective interest rate. No immediate gain or loss is recognized. These expedients are only applicable to changes that are required by interest rate benchmark reform, which is the case if, and only if, the change is necessary as a direct consequence of interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis (that is, the basis immediately preceding the change).

Where some or all of a change in the basis for determining the contractual cash flows of a financial asset and liability does not meet the above criteria, the above practical expedient is first applied to the changes required by interest rate benchmark reform, including updating the instrument's effective interest rate. Any additional changes are accounted for in the normal way (that is, assessed for modification or derecognition, with the resulting modification gain / loss recognized immediately in profit or loss where the instrument is not derecognized).

**Effect of IBOR reform**

The Group's exposure to the effects of IBOR reform on its financial assets and liabilities are as set out in the table below;

Statement of financial position category	Value of assets and liabilities subject to IBOR reform, yet to transition at reporting date (N'million)		
	GBP LIBOR	USD LIBOR	EUR LIBOR
<b>Cash and balances with central banks</b>	-	74	-
<b>Derivative assets</b>	-	21	-
<b>Loans and advances</b>	2,627	398,962	67,159
<b>Deposits and debt funding</b>	-	(97,192)	-
<b>Subordinated debt</b>	-	(17,312)	-

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

**Liquidity risk**

Liquidity risk is defined as the risk that the Group, although balance-sheet solvent, cannot maintain or generate sufficient cash resources to meet its payment obligations in full as they fall due (as a result of funding liquidity risk), or can only do so at materially disadvantageous terms (as a result of market liquidity risk).

Funding liquidity risk refers to the risk that the counterparties, who provide the Group with funding, will withdraw or not roll-over that funding.

Market liquidity risk refers to the risk of a generalised disruption in asset markets that makes normal liquid assets illiquid and the potential loss through the forced-sale of assets resulting in proceeds being below their fair market value.

**Credit risk**

**Principal credit standard and policies**

The Group's Governance Standard, as reviewed regularly, sets out the broad overall principles to be applied in credit risk decisions and sets out the overall framework for the consistent and unified governance, identification, measurement, management and reporting of credit risk in the Group.

The Wholesale Client (WC), Business and Commercial Client and Consumer and High Networth Clients Global Credit Policies have been designed to expand the Group Credit Risk Governance Standard requirements by embodying the core principles for identifying, measuring, approving, and managing credit risk. These policies provide a comprehensive framework within which all credit risk emanating from the operations of the bank are legally executed, properly monitored and controlled in order to minimize the risk of financial loss; and assure consistency of approach in the treatment of regulatory compliance requirements.

In addition to the Credit Risk Governance Standard, WC, BCC and CHNWC Global Credit Policies, a number of related credit policies and documents have been developed, with contents that are relevant to the full implementation and understanding of the credit policies.

**Methodology for risk rating**

Internal counterparty ratings and default estimates that are updated and enhanced from time-to-time play an essential role in the credit risk management and decision-making process, credit approvals, internal capital allocation, and corporate governance functions. Ratings are used for the following purposes:

- Credit assessment and evaluation
- Credit monitoring
- Credit approval and delegated authority
- Economic capital calculation, portfolio and management reporting
- Regulatory capital calculation
- RARORC (Risk-Adjusted Return on Regulatory Capital) calculation
- Pricing: PDs, EADs, and LGDs may be used to assess and compare relative pricing of assets/facilities, in conjunction with strategic, relationship, market practice and competitive factors.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

**Methodology for risk rating (continued)**

The starting point of all credit risk assessment and evaluation lies in the counterparty risk grading, which is quantified and calculated in compliance with the Group’s credit rating policy and using such Basel-2 compliant models as are in current use and which are updated or enhanced from time to time.

Credit risk quantification for any exposure or portfolio is summarised by the calculation of the expected loss (EL), which is arrived at in the following way:

- Based on the risk grading foundation which yields the counterparty’s probability of default (PD), the nature and quantum of the credit facilities are considered;
- A forward-looking quantification of the exposure at default (EAD) is determined in accordance with Group standard guidelines.
- Risk mitigants such as security and asset recovery propensities are then quantified to moderate exposure at default to yield the loss given default (LGD).
- Finally, the EL is a function of the PD, the LGD and the EAD.

These parameters are in turn used in quantifying the required regulatory capital reserving, using the Regulatory Capital Calculator developed, maintained and updated in terms of Basel 2, and the economic capital implications through the use of Credit Portfolio Management’s (CPM’s) Economic Capital tools. Furthermore, bearing in mind the quantum of the facility and the risk/reward thereof, an appropriate consideration of Basel 2 capital requirements (where applicable) and the revenue and return implications of the credit proposal.

**Framework and governance**

Credit risk remains a key component of financial risks faced by any bank given the very nature of its business. The importance of credit risk management cannot be over emphasised as consequences can be severe when neglected. The Group has established governance principles to ensure that credit risk is managed effectively within a comprehensive risk management and control framework.

In reaching credit decisions and taking credit risk, both the credit and business functions must consistently and responsibly balance risk and return, as return is not the sole prerogative of business neither is credit risk the sole prerogative of credit. Credit (and the other risk functions, as applicable) and business must work in partnership to understand the risk and apply appropriate risk pricing, with the overall aim of optimising the bank’s risk adjusted performance.

The reporting lines, responsibilities and authority for managing credit risk in the Group are clear and independent. However, ultimate responsibility for credit risk rests with the board.

**Credit risk mitigation**

Credit risk mitigation is defined as all methods of reducing credit expected loss whether by means of reduction of EAD (e.g. netting), risk transfer (e.g. guarantees) or risk transformation.

Guarantees, collateral and the transaction structures are used by the Group to mitigate credit risks both identified and inherent though the amount and type of credit risk is determined on a case by case basis. The Group’s credit policy and guidelines are used in a consistent manner while security is valued appropriately and reviewed regularly for enforceability and to meet changing business needs.

The credit policy establishes and defines the principles of risk transfer, transformation and reduction. The processes and procedures for accepting, verifying, maintaining, and releasing collateral are well documented in order to ensure appropriate application of the collateral management techniques.

**Credit risk measurement**

A key element in the measurement of credit risk is the assignment of credit ratings, which are used to determine expected defaults across asset portfolios and risk bands. The risk ratings attributed to counterparties are based on a combination of factors which cover business and financial risks:

The Group uses the PD Master Scale rating concept with a single scale to measure the credit riskiness of all counterparty types. The grading system is a 25-point scale, with three additional default grades.

Group's rating	Grade description	Standard & Poor's	Fitch
SB01 - SB12/SB13	Investment grades	AAA to BBB-	AAA to BBB-
SB14 - SB21	Sub Investment grades	BB+ to CCC+	BB+ to CCC+
SB22 – SB25	Cautionary grade	CCC to C	CCC to C

**IFRS 7**

The tables that follow analyse the credit quality of loans and advances measured in terms of IFRS 9.

**Impairment model**

IFRS 9 requires the recognition of expected credit losses (ECL) rather than incurred losses under the previous IAS 39. This applies to all financial debt instruments held at amortised cost, fair value through other comprehensive income (FVOCI), undrawn loan commitments and financial guarantees.

**Staging of financial instruments**

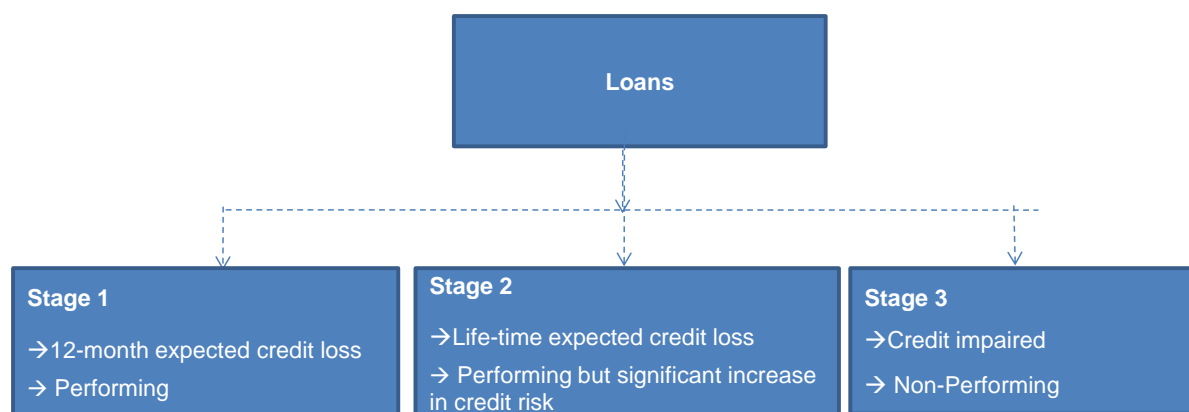

Financial instruments that are not already credit-impaired are originated into stage 1 and a 12-month expected credit loss allowance is recognised.

Instruments will remain in stage 1 until they are repaid, unless they experience significant credit deterioration (stage 2) or they become credit-impaired (stage 3).

Instruments will transfer to stage 2 and a lifetime expected credit loss allowance recognised when there has been a significant change in the credit risk compared with what was expected at origination.

Instruments are classified as stage 3 when they become credit-impaired.

The framework used to determine a significant increase in credit risk is set out below.

The accounting policies under IFRS 9 are set out in Note 4.3 Financial instruments. The main methodology principles and approach adopted by the Group are set out below;

**Approach to determining expected credit losses**

The accounting policies under IFRS 9 are set out in Note 4.3 Financial instruments. The main methodology principles and approach adopted by the bank are set out in the following table with cross references to other sections.

For portfolios that follow a standardised regulatory approach, the Group has developed new models where these portfolios are material.

**Incorporation of forward looking information**

The determination of expected credit loss includes various assumptions and judgements in respect of forward looking macroeconomic information.

**Significant increase in credit risk ('SICR')**

Expected credit loss for financial assets will transfer from a 12 month basis to a lifetime basis when there is a significant increase in credit risk (SICR) relative to that which was expected at the time of origination, or when the asset becomes credit impaired. On transfer to a lifetime basis, the expected credit loss for those assets will reflect the impact of a default event expected to occur over the remaining lifetime of the instrument rather than just over the 12 months from the reporting date.

SICR is assessed by comparing the risk of default of an exposure at the reporting date with the risk of default at origination (after considering the passage of time). 'Significant' does not mean statistically significant nor is it reflective of the extent of the impact on the Group's financial statements. Whether a change in the risk of default is significant or not is assessed using quantitative and qualitative criteria, the weight of which will depend on the type of product and counterparty.

The Group uses a mix of quantitative and qualitative criteria to assess SICR.

**IFRS 7 (Continue)**

**Assessment of credit-impaired financial assets**

Credit-impaired financial assets comprise those assets that have experienced an observed credit event and are in default. Default represents those assets that are at least 90 days past due in respect of principal and interest payments and/or where the assets are otherwise considered unlikely to pay.

Unlikely to pay factors include objective conditions such as bankruptcy, debt restructuring, fraud or death. It also includes credit-related modifications of contractual cash flows due to significant financial difficulty (forbearance) where the bank has granted concessions that it would not ordinarily consider.

**Modified financial assets**

Where the contractual terms of a financial instrument have been modified, and this does not result in the instrument being derecognised, a modification gain or loss is recognised in the income statement representing the difference between the original cash flows and the modified cash flows, discounted at the original effective interest rate. The modification gain/loss is directly applied to the gross carrying amount of the instrument.

If the modification is credit related, such as forbearance or where the Group has granted concessions that it would not ordinarily consider, then it will be considered credit-impaired. Modifications that are not credit related will be subject to an assessment of whether the asset's credit risk has increased significantly since origination by comparing the remaining lifetime probability of default (PD) based on the modified terms with the remaining lifetime PD based on the original contractual terms.

**Transfers between stages**

Assets will transfer from stage 3 to stage 2 when they are no longer considered to be credit-impaired. Assets will not be considered credit-impaired only if the customer makes payments such that they are paid to current in line with the original contractual terms. In addition:

- Loans that were subject to forbearance measures must remain current for 12 months before they can be transferred to stage 2;
- Retail loans that were not subject to forbearance measures must remain current for 180 days before they can be transferred to stage 2 or stage 1.

Assets may transfer to stage 1 if they are no longer considered to have experienced a significant increase in credit risk. This will occur when the original PD based transfer criteria are no longer met (and as long as none of the other transfer criteria apply). Where assets were transferred using other measures, the assets will only transfer back to stage 1 when the condition that caused the significant increase in credit risk no longer applies (and as long as none of the other transfer criteria apply).

**Governance and application of expert credit judgement in respect of expected credit losses**

The determination of expected credit losses requires a significant degree of management judgement which is being assessed by the Credit Risk Management Committee (CRMC).

\*This section relates to loans and advances in stage 1 and 2 with over due balances

**Renegotiated loans and advances**

Renegotiated loans and advances are exposures which have been refinanced, rescheduled, rolled over or otherwise modified due to weaknesses in the counterparty's financial position, and where it has been judged that normal repayment will likely continue after the restructure. Renegotiated loans that would otherwise be past due or impaired amounted to N10.0 billion as at 31 Dec 2021 (Dec 2020: N11.7billion).

**Collateral**

The table that follows shows the financial effect that collateral has on the Group's maximum exposure to credit risk. The table is presented according to Basel II asset categories and includes collateral that may not be eligible for recognition under Basel II but that management takes into consideration in the management of the Group's exposures to credit risk. All on- and off-balance sheet exposures which are exposed to credit risk, including non-performing assets, have been included.

Collateral includes:

- financial securities that have a tradable market, such as shares and other securities;
- physical items, such as property, plant and equipment; and
- financial guarantees, suretyships and intangible assets.

All exposures are presented before the effect of any impairment provisions.

In the retail portfolio, 31% (Dec 2020: 54%) is collateralised. Of the Group's total exposure, 89% (Dec 2020: 83%) is unsecured and mainly reflects exposures to well-rated corporate counterparties, bank counterparties and sovereign entities.

**Credit provisioning based on prudential guidelines**

In accordance with the Prudential Guidelines issued by the Central Bank of Nigeria, provision against credit risk is as follows.

**Non performing accounts**

Interest and/or principal outstanding for over:	Classification	Minimum provision
Pass due date but less than 90 days	Watchlist	0%
90 days but less than 180 days	Substandard	10%
180 days but less than 360 days	Doubtful	50%
Over 360 days	Lost	100%

When a loan is deemed uncollectible, it is written off against the related provision for impairments. Subsequent recoveries are credited to the provision for loan losses in the profit and loss account. If the amount of the impairment subsequently decreases due to an event occurring after the write-down, the release of the provision is credited as a reduction of the provision for impairment in the statement of profit or loss.

**Performing accounts**

A minimum of 2% general provision on performing loans is made in accordance with the Prudential Guidelines.

**Prudential guidelines disclosures**

Had the Prudential Guidelines been employed in the preparation of these financial statements, the impairments for loans and advances to customers as well as related disclosures, would have been made as follows:

	Group	
	31 Dec. 2021 N million	31 Dec. 2020 N million
<b>Prudential disclosure of loan and advances to customers</b>		
Gross customer exposure for loans and advances	946,259	655,292
Mortgage loans	4,781	4,237
Instalment sale and finance leases	35,791	10,962
Card debtors	1,270	1,202
Overdrafts and other demand loans	320,828	224,607
Other term loans	583,589	414,284
Interest in suspense	(2,738)	(739)
Credit impairments for loans and advances	(30,654)	(31,613)
Specific provision	(12,141)	(19,020)
General provision	(18,513)	(12,593)
<b>Net loans and advances to customers</b>	<b>912,867</b>	<b>622,940</b>
<b>Prudential disclosure of loan classification</b>		
Performing	925,921	628,800
Non performing loans	20,338	26,492
Substandard	4,140	1,835
Doubtful	10,630	11,642
Loss	5,568	13,015
Total performing and non performing loans	946,259	655,292
Adjustment for Interest in suspense and below-market interest staff loans	(2,738)	(739)
Customer exposure for loans and advances	943,521	654,553
Non-performing loan ratio (Regulatory)	2.15%	4.04%

**Liquidity risk**

**Framework and governance**

The nature of banking and trading activities results in a continuous exposure to liquidity risk. Liquidity problems can have an adverse impact on a Group's earnings and capital and, in extreme circumstances, may even lead to the collapse of a Group which is otherwise solvent.

The Group's liquidity risk management framework is designed to measure and manage the liquidity position at various levels of consolidation such that payment obligations can be met at all times, under both normal and considerably stressed conditions. Under the delegated authority of the board of Directors, the Asset and Liability Committee (ALCO) sets liquidity risk policies in accordance with regulatory requirements, international best practice and SBG stated risk appetite.

Tolerance limits, appetite thresholds and monitoring items are prudently set and reflect the Group's conservative appetite for liquidity risk. ALCO is charged with ensuring ongoing compliance with liquidity risk standards and policies. The Group must, at all times, comply with the more stringent of Standard Bank imposed tolerance limits or regulatory limits.

**Liquidity and funding management**

A sound and robust liquidity process is required to measure, monitor and manage liquidity exposures. The Group has incorporated the following liquidity principles as part of a cohesive liquidity management process:

- structural liquidity mismatch management;
- long-term funding ratio;
- maintaining minimum levels of liquid and marketable assets;
- depositor restrictions;
- local currency loan to deposit ratio;
- foreign currency loan to deposit ratio;
- interbank reliance limit;
- intra-day liquidity management;
- collateral management;
- daily cash flow management;
- liquidity stress and scenario testing; and
- funding plans;
- liquidity contingency planning.

The cumulative impact of these principles is monitored, at least monthly by ALCO through a process which is underpinned by a system of extensive controls. The latter includes the application of purpose-built technology, documented processes and procedures, independent oversight and regular independent reviews and evaluations of the effectiveness of the system.

The Group ensures that the banking entity (Stanbic IBTC Bank PLC) is within the regulatory liquidity ratio of 30% on a daily basis.

Liquidity ratio	December-21	December-20
Minimum	99.07%	104.95%
Average	114.73%	131.28%
Maximum	126.45%	177.34%
As at year end	105.35%	148.93%

The minimum, average and maximum liquidity ratios presented in the table above are derived from daily liquidity ratio computations.

**Structural liquidity mismatch management**

The mismatch principle measures the Group's liquidity by assessing the mismatch between its inflow and outflow of funds within different time bands on a maturity ladder. The structural liquidity mismatch is based on behaviourally-adjusted cash flows which factors a probability of maturity into the various time bands. As expected cash flows vary significantly from the contractual position, behavioural profiling is applied to assets, liabilities and off-balance sheet items with an indeterminate maturity or drawdown year.

A net mismatch figure is obtained by subtracting liabilities and netting off-balance sheet positions from assets in each time band. The Group's liquidity position is assessed by means of the net cumulative mismatch position, while its liquidity mismatch performance is an aggregation of the net liquidity position in each successive time band expressed as a percentage of total funding related to deposits.

**Maintaining minimum levels of liquid and marketable assets**

Minimum levels of prudential liquid assets are held in accordance with all prudential requirements as specified by the regulatory authorities. The Group needs to hold additional unencumbered marketable assets, in excess of any minimum prudential liquid asset requirement, to cater for volatile depositor withdrawals, draw-downs under committed facilities, collateral calls, etc.

The following criteria apply to readily marketable securities:

- prices must be quoted by a range of counterparties;
- the asset class must be regularly traded;
- the asset may be sold or repurchased in a liquid market, for payment in cash; and
- settlement must be according to a prescribed, rather than a negotiated, timetable.

**Depositor concentration**

To ensure that the Group does not place undue reliance on any single entity as a funding source, restrictions are imposed on the short dated (0 – 3 months term) deposits accepted from any entity. These include:

- the sum of 0 – 3 month deposits and standby facilities provided by any single deposit counterparty must not, at any time, exceed 10% of total funding related liabilities to the public; and
- the aggregate of 0 – 3 month deposits and standby facilities from the 10 largest single deposit counterparties must not, at any time, exceed 20% of total funding related liabilities to the public.

Concentration risk limits are used to ensure that funding diversification is maintained across products, sectors, and counterparties. Primary sources of funding are in the form of deposits across a spectrum of retail and wholesale clients. As mitigants, the Group maintains marketable securities in excess of regulatory requirements in order to create a buffer for occasional breaches of concentration limits.

**Loan to deposit limit**

A limit is put in place, restricting the local currency loan to deposit ratio to a maximum specified level, which is reviewed yearically. Similarly, in order to restrict the extent of foreign currency lending from the foreign currency deposit base, a foreign currency loan to deposit limit, which is also referred to as own resource lending, is observed. As mitigants, the Group maintains high levels of unencumbered marketable and liquid assets in excess of regulatory benchmark. The CBN requires all Bank to maintain a minimum loan to deposit ratio of 65% by December 2021. This ratio is subject to review quarterly. The Bank subsidiary LDR as at 31 December 2021 was 72.08% ( Dec 2020 68.57%)

## STANBIC IBTC HOLDINGS PLC

### Risk and capital management (continued) For the year ended 31 December 2021

#### Intra-day liquidity management

The Group manages its exposures in respect of payment and settlement systems. Counterparties may view the failure to settle payments when expected as a sign of financial weakness and in turn delay payments to the Group. This can also disrupt the functioning of payment and settlement systems. At a minimum, the following operational elements are included in the Group's intra-day liquidity management:

- capacity to measure expected daily gross liquidity inflows and outflows, including anticipated timing where possible;
- capacity to monitor its intra-day liquidity positions, including available credit and collateral;
- sufficient intra-day funding to meet its objectives;
- ability to manage and mobilise collateral as required;
- robust capacity to manage the timing of its intra-day outflows; and
- readiness to deal with unexpected disruptions to its intra-day liquidity flows.

#### Daily cash flow management

The Group generates a daily report to monitor significant cash flows. Maturities and withdrawals are forecast at least three months in advance and management is alerted to large outflows. The report, which is made available to the funding team, ALM and market risk also summarises material daily new deposits as well as the interbank and top depositor reliance (by value and product).

The daily cash flow management report forms an integral part of the ongoing liquidity management process and is a crucial tool to proactively anticipate and plan for large cash outflows.

#### Interbank reliance

Interbank funding traditionally is seen as the most volatile and least stable source of funding, easily influenced by market sentiment and prone to flight under stress situations. Consequently, to ensure prudent liquidity management is enforced, the Group restricts the local currency interbank funding as a proportion of the local currency funding base to a maximum of 15% of the total currency funding base.

#### Liquidity stress testing and scenario testing

Anticipated on- and off-balance sheet cash flows are subjected to a variety of the Group specific and systemic stress scenarios in order to evaluate the impact of unlikely but plausible events on liquidity positions. Scenarios are based on both historical events, such as past emerging markets crises, past local financial markets crisis and hypothetical events, such as an entity specific crisis. The results obtained from stress testing provide meaningful input when defining target liquidity risk positions.

#### Maturity analysis of financial liabilities by contractual maturity

The tables below analyse cash flows on a contractual, undiscounted basis based on the earliest date on which the Group can be required to pay (except for trading liabilities and trading derivatives) and may therefore not agree directly to the balances disclosed in the consolidated statement of financial position.

Derivative liabilities are included in the maturity analysis on a contractual, undiscounted basis when contractual maturities are essential for an understanding of the derivatives' future cash flows. All other derivative liabilities are treated as trading instruments and are included at fair value in the redeemable on demand stage since these positions are typically held for short periods of time.

The following tables also include contractual cash flows with respect to off-balance sheet items which have not yet been recorded on-balance sheet. Where cash flows are exchanged simultaneously, the net amounts have been reflected.

#### Liquidity contingency plans

The Group recognises that it is not possible to hold sufficiently large enough quantity of readily available liquidity to cover the least likely liquidity events. However, as such events can have devastating consequences, it is imperative to bridge the gap between the liquidity the Group chooses to hold and the maximum liquidity the Group might need.

The Group's liquidity contingency plan is designed to, as far as possible, protect stakeholder interests and maintain market confidence in order to ensure a positive outcome in the event of a liquidity crisis. The plan incorporates an extensive early warning indicator methodology supported by a clear and decisive crisis response strategy. Early warning indicators span Group specific crises, systemic crises, contingency planning, and liquidity risk management governance and are monitored based on assigned frequencies and tolerance levels. The crisis response strategy is formulated around the relevant crisis management structures and addresses internal and external communications, liquidity generation, operations, as well as heightened and supplementary information requirements.

#### Foreign currency liquidity management

A number of indicators are observed to monitor changes in either market liquidity or exchange rates. Foreign currency loans and advances are restricted to the availability of foreign currency deposits.

#### Funding strategy

Funding markets are evaluated on an ongoing basis to ensure appropriate Group funding strategies are executed depending on the market, competitive and regulatory environment. The Group employs a diversified funding strategy, sourcing liquidity in both domestic and offshore markets, and incorporates a coordinated approach to accessing capital and loan markets across the Group.

Concentration risk limits are used within the Group to ensure that funding diversification is maintained across products, sectors, geographic regions and counterparties.

Primary funding sources are in the form of deposits across a spectrum of retail and wholesale clients, as well as long-term capital and loan markets. The Group remains committed to increasing its core deposits and accessing domestic and foreign capital markets when appropriate to meet its anticipated funding requirements.

#### Depositor concentrations

	Dec 2021 %	Dec 2020 %
Single depositor	2	5
Top 10 depositors	11	15

### Risk and capital management (continued) For the year ended 31 December 2021

#### Market risk

The identification, management, control, measurement and reporting of market risk is categorised as follows:

#### Trading market risk

These risks arise in trading activities where the bank acts as a principal with clients in the market. The Group's policy is that all trading activities are contained within the bank's Wholesale Clients (WC) trading operations.

#### Banking book interest rate risk

These risks arise from the structural interest rate risk caused by the differing re-pricing characteristics of banking assets and liabilities.

#### Foreign currency risk

These risks arise as a result of changes in the fair value or future cash flows of financial exposures due to changes in foreign exchange rates.

#### Equity investment risk

These risks arise from equity price changes in unlisted investments, and managed through the equity investment committee, which is a sub-committee of the executive committee.

The primary objective of the Group's investment in equity securities is to hold the investments for the long term for strategic purposes. Management is assisted by external advisers in this regard. All the Groups investments are designated as at FVOCI, as they are not held for making short term profit.

#### Framework and governance

The board approves the market risk appetite and standards for all types of market risk. The board grants general authority to take on market risk exposure to the asset and liability committee (ALCO). ALCO sets market risk policies to ensure that the measurement, reporting, monitoring and management of market risk associated with operations of the bank follow a common governance framework. The bank's ALCO reports to EXCO and also to the board risk management committee.

The in-country risk management is subject to SBG oversight for compliance with Group standards and minimum requirements.

The market risk management unit which is independent of trading operations and accountable to ALCO, monitors market risk exposures due to trading and banking activities. This unit monitors exposures and respective excesses daily, report monthly to ALCO and quarterly to the board risk management committee.

#### Market risk measurement

The techniques used to measure and control market risk include:

- daily foreign currency trading position
- daily VaR;
- back-testing;
- PV01; and
- annual net interest income at risk.

#### Daily foreign currency trading position

The board on the input of ALCO, sets limits on the level of exposure by currency and in aggregate for overnight positions. The latter is also aligned to the foreign currency trading position limit as specified by the regulators, which is usually a proportion of the Groups'

#### Daily value-at-risk (VaR)

VaR is a technique that estimates the potential losses that may occur as a result of market movements over a specified time period at a predetermined probability.

VaR limits and exposure measurements are in place for all market risks the trading desk is exposed to. The bank generally uses the historical VaR approach to derive quantitative measures, specifically for market risk under normal market conditions. Normal VaR is based on a holding period of one day and a confidence level of 95%. Daily losses exceeding the VaR are likely to occur, on average, 13 times in every 250 days.

The use of historic VaR has limitations as it is based on historical correlations and volatilities in market prices and assumes that future prices will follow the observed historical distribution. Hence, there is a need to back-test the VaR model regularly.

#### VaR back-testing

The Group and the banking business back-test its foreign currency, interest rate and credit trading exposure VaR model to verify the predictive ability of the VaR calculations thereby ensuring the appropriateness of the model. Back-testing exercise is an ex-post comparison of the daily hypothetical profit and loss under the one-day buy and hold assumption to the prior day VaR. Profit or loss for back-testing is based on the theoretical profits or losses derived purely from market moves both interest rate and foreign currency spot moves and it is calculated over 250 cumulative trading-days at 95% confidence level.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

**Stress tests**

Stress testing provides an indication of the potential losses that could occur in extreme market conditions. The stress tests carried out include individual market risk factor testing and combinations of market factors on individual asset classes and across different asset classes. Stress tests include a combination of historical and hypothetical simulations.

**PV01**

PV01 is a risk measure used to assess the effect of a change of rate of one basis point on the price of an asset. This limit is set for the fixed income, money market trading, credit trading, derivatives and foreign exchange trading portfolios.

**Other market risk measures**

Other market risk measures specific to individual business units include permissible instruments, concentration of exposures, gap limits, maximum tenor and stop loss triggers. In addition, only approved products that can be independently priced and properly processed are permitted to be traded.

Pricing models and risk metrics used in production systems, whether these systems are off-the-shelf or in-house developed, are independently validated by the market risk unit before their use and periodically thereafter to confirm the continued applicability of the models. In addition, the market risk unit assesses the daily liquid closing price inputs used to value instruments and performs a review of less liquid prices from a reasonableness perspective at least fortnightly. Where differences are significant, mark-to-market adjustments are made.

**Annual net interest income at risk**

A dynamic forward-looking annual net interest income forecast is used to quantify the banks' anticipated interest rate exposure. This approach involves the forecasting of both changing balance sheet structures and interest rate scenarios, to determine the effect these changes may have on future earnings. The analysis is completed under both normal market conditions as well as stressed market conditions.

**Analysis of Value-at-Risk (VaR) and actual income**

The table below highlights the historical diversified normal VaR across the various trading desks. The minimum and maximum trading diversified normal VaR stood at N93m and N803m respectively with an annual average of N374m which translates to a conservative VaR limit utilisation of 14.9% on average.

**Diversified Normal Var Exposures (N'million)**

Desk	Maximum	Minimum	Average	31-Dec-21	31-Dec-20	Limit

## STANBIC IBTC HOLDINGS PLC

### Risk and capital management (continued)

For the year ended 31 December 2021

#### Analysis of PV01

The table below shows the PV01 of the money markets banking and the individual trading books as at period end. The money markets trading book PV01 exposure increased to N2.3m from that of the previous year mainly due to increased T-bills position as well as an increase in the duration of the book, the money markets banking book PV01 exposure stood at N6.5m lower than that of the previous year as a result of the sale of T-bills, while the fixed income trading book PV01 exposure decreased to N237 from that of previous year largely on the back of the sale of bonds. Overall trading PV01 exposure was N2.5m against a limit of N16.6m thus reflecting a very conservative exposure utilisation.

PV01 (NGN'000)	31-Dec-21	31-Dec-20	Limit
Money market trading book	2,301	1,447	8,000
Fixed income trading book	237	1,907	6,000
Credit trading book	-	-	2,050
Derivatives trading book	-	-	539
Total trading book	2,537	3,354	16,589
Money market banking book	6,477	14,163	27,588

#### Interest rate risk in the banking book

Interest rate risk in the banking book (IRRBB) can be defined as the reduction in banking book net interest income due to changes in interest rates arising from the different re-pricing characteristics of banking book assets and liabilities. IRRBB is further divided into the following sub-risk types:

- Repricing risk referring to the timing differences in the maturity (fixed rate) and repricing (floating rate) of assets and liabilities.
- Yield curve risk arising when unanticipated shifts in the yield curve have adverse effects on the Group's income.
- Basis risk arising from the imperfect correlation in the adjustment of the rates earned and paid on different instruments with otherwise similar repricing characteristics.
- Optionality risk arising from the options embedded in bank asset and liability portfolios, providing the holder with the right, but not the obligation, to buy, sell, or in some manner alter the cash flow of an instrument or financial contract.
- Endowment risk referring to the interest rate risk exposure arising from the net differential between interest rate insensitive assets such as non-earning assets and interest rate insensitive liabilities such as non-paying liabilities and equity.

#### Approach to managing interest rate risk on positions in the banking book

Banking-related market risk exposure principally involves the management of the potential adverse effect of interest movements on banking book earnings (net interest income and banking book mark-to-market profit or loss).

The Group's approach to managing IRRBB is governed by prudence and is in accordance with the applicable laws and regulations, best international practice and the competitive situation within which it operates in financial markets. Interest rate risk is transferred to and managed within the bank's treasury operations under supervision of ALCO.

The table below summarizes the Group's interest rate gap position:

As at 31 December 2021	Note	Carrying	Rate Sensitive	Non-rate sensitive
<b>Assets N'million</b>				
Cash and balances with central banks	7	653,070	-	653,070
Pledged Assets	8	182,335	-	182,335
Derivative Assets	10.6	41,212	-	41,212
Financial Investment	11	636,634	-	636,634
Loans and advances to Banks	12	16,102	-	16,102
Loans and advances to Customers (Gross)	12	946,259	901,609	44,650
Other financial assets		120,385	-	120,385
		<b>2,595,997</b>	<b>901,609</b>	<b>1,694,388</b>
<b>Liabilities</b>				
Derivative liabilities	10.6	25,364	-	25,364
Trading liabilities	9.2	112,023	-	112,023
Deposits from banks	22	431,862	-	431,862
Deposits from customers	22	1,126,535	-	1,126,535
Debt securities issued	24	47,419	17,312	30,107
Other borrowings	23	136,434	112,064	24,370
Other liabilities (see (b) below)		443,038	-	443,038
		<b>2,322,675</b>	<b>129,376</b>	<b>2,193,299</b>
Total interest repricing gap		273,322	772,233	(498,911)

#### Measurement of IRRBB

The analytical technique used to quantify IRRBB is an earnings based approach. A dynamic, forward-looking net interest income forecast is used to quantify the bank's anticipated interest rate exposure. Desired changes to a particular interest rate risk profile are achieved through the restructuring of on-balance sheet repricing or maturity profiles. All assets and liabilities are allocated to gap intervals based on either their repricing or maturity characteristics. However, assets and liabilities for which no identifiable contractual repricing or maturity dates exist are allocated to gap intervals based on behavioural profiling.

The impact on net interest income due to interest rate changes cover 12 months of forecasting and allows for the dynamic interaction of payments, new business and interest rates. The analyses are done under stressed market conditions in which the banking book is subjected to an upward 300 basis points and downward 300 basis points (2019: 300 basis points) parallel rate shocks for local currency and 100 basis points upward and downward parallel rate shocks for foreign currency positions. The table below shows the sensitivity of the bank's net interest income in response to standardised parallel rate shocks.

31 December 2021		NGN	USD	Other	Total
<b>Increase in basis points</b>		300	100	100	
Sensitivity of annual net interest income	NGNm	14,220	1,332	196	15,747
<b>Decrease in basis points</b>		300	100	100	
Sensitivity of annual net interest income	NGNm	(16,007)	(629)	5	(16,631)
31 December 2020		NGN	USD	Other	Total
<b>Increase in basis points</b>		300	100	100	
Sensitivity of annual net interest income	NGNm	17,372	685	196	18,253
<b>Decrease in basis points</b>		300	100	100	
Sensitivity of annual net interest income	NGNm	(9,873)	(314)	5	(10,182)

#### Hedging of endowment risk

IRRBB is predominantly the consequence of endowment exposures, being the net exposure of non-rate sensitive liabilities and equity less non-rate sensitive assets. The endowment risk is hedged using marketable liquid instruments in the same currency as the exposure as and when it is considered opportune. Hedge decisions are made by ALCO following careful consideration of the interest rate views to be hedged against, including magnitude, direction, timing and probability, and the exposure to be hedged.

**Risk and capital management (continued)**  
**For the year ended 31 December 2021**

**Market risk on equity investment**

The Group's equity and investment risk committee (SEIRC) has governance and oversight of all investment decisions. The committee is tasked with the formulation of risk appetite and oversight of investment performance. In this regard, a loss trigger is in place for the non-strategic portion.

**Exposure to currency risks**

The Group takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The board sets limits on the level of exposure by currency and in aggregate for both overnight and intra day positions, which are monitored daily. The table below summarises the Group's exposure to foreign currency exchange risk as at 30 June 2021.

**Concentrations of currency risk – on- and off-balance sheet financial instruments**

<b>At 31 December 2021</b>	<b>Naira</b>	<b>US Dollar</b>	<b>GBP</b>	<b>Euro</b>	<b>Others</b>	<b>Total</b>

GBP (10% movement)	(3)	3	(2)	2
EUR (5% movement)	1	(1)	1	(1)

## STANBIC IBTC HOLDINGS PLC

### Risk and capital management (continued) for the year ended 31 December 2021

#### Basel II framework

The Basel II framework stipulates a minimum level of capital that banks must maintain to ensure that they can meet their obligations, cover unexpected losses; and can, very importantly, promote public confidence. It also specifies comprehensive disclosure requirements for banks operating under the framework.

"The Basel II framework is based on three pillars:

- Pillar I - Minimum Capital Requirements. This details various approaches to measure and quantify capital required for the three major risk components that a bank faces: credit risk, market risk and operational risk. Stanbic IBTC has adopted the Standardized Approach for Credit and Market Risk and the Basic Indicator Approach for Operational Risk.
- Pillar II - Supervisory Review. This is structured along two separate but complementary stages; the Internal Capital Adequacy Assessment Process (ICAAP) and the Supervisory Review and Evaluation process (SREP). The bank conducts a self-assessment of its internal capital requirements via the ICAAP whilst the Central Bank of Nigeria (CBN) conducts its assessment of the bank via the SREP.
- Pillar III – Market Discipline allows market participants access information on risk exposure and risk management policies and procedures through disclosures. The bank through this Pillar III Disclosures report provides an overview of its risk management practices in line with the CBN Guidance Notes on Pillar III Disclosures.

The Pillar III Disclosures Report is published and made available through the bank's website at [www.stanbicibtcbank.com](http://www.stanbicibtcbank.com).

#### Capital management

##### Capital adequacy

The Stanbic IBTC Group manages its capital base to achieve a prudent balance between maintaining capital ratios to support business growth and depositor confidence and providing competitive returns to shareholders. The capital management function is designed to ensure that Stanbic IBTC Group and its principal subsidiaries are capitalized in line with the Group's risk appetite and target ratios, both of which are approved by the board for legal and regulatory compliance purposes. The Group ensures that its actions do not compromise sound governance and appropriate business practices and it eliminates any negative effect on payment capacity, liquidity and profitability.

The regulatory capital requirement for entities within the Group are as follows:

SN	Name of Entity	Primary Regulator	Minimum Capital Requirement
1	Stanbic IBTC Holdings	Central Bank of Nigeria	N38.57 billion*
2	Stanbic IBTC Bank	Central Bank of Nigeria	N25 billion
2.1	Stanbic IBTC Financial Services Limited	-	Nil
2.2	Stanbic IBTC Nominees Limited	Central Bank of Nigeria	Nil
3	Stanbic IBTC Pension Managers Limited	National Pension Commission	N5 billion
4	Stanbic IBTC Asset Management Limited	Securities & Exchange Commission	N155 million
5	Stanbic IBTC Capital Limited	Securities & Exchange Commission	N400 million
6	Stanbic IBTC Trustees Limited	Securities & Exchange Commission	N300 million
7	Stanbic IBTC Stockbrokers Limited	Nigerian Stock Exchange	N300 million
8	Stanbic IBTC Insurance Brokers Limited	National Insurance Commission	N5 million
9	Stanbic IBTC Insurance Limited	National Insurance Commission	N8 billion
10	Stanbic IBTC Ventures Limited	-	Nil
11	Stanbic IBTC Financial Services Limited	-	N100 million

\*Sum of the stakes of Stanbic IBTC Holdings PLC in the minimum paid up capital of all the subsidiaries

## STANBIC IBTC HOLDINGS PLC

### Risk and capital management (continued) for the year ended 31 December 2021

The Central Bank of Nigeria (CBN) on 29 August 2014 issued Guidelines for Licensing and Regulation of Financial Holding Companies in Nigeria ("Guidelines"). According to the Guidelines, a financial holding company shall have a minimum paid up capital which shall exceed the sum of the minimum paid up capital of all its subsidiaries, as may be prescribed from time to time by the sector regulators. A review of the capital level as at the end of the period shows that Stanbic IBTC Holdings is in compliance with the regulation of having minimum paid up capital which exceeds the aggregate of the minimum paid up capital of all its subsidiaries;

<i>Figures in N'million</i>	<b>Minimum Share Capital</b>	<b>% Holding</b>	<b>Holdco Share</b>
Bank	25,000	100%	25,000
Pension	5,000	88.24%	4,412
Asset Management	155	100%	155
Capital	400	100%	400
Trustees	300	100%	300
Stockbroking	300	100%	300
Insurance Brokers*	5	75%	4
Insurance	8,000	100%	8,000
Ventures	-	100%	-
Financials	-	100%	-
	<b>39,160</b>		<b>38,571</b>
Holdco Company (Share Capital and Reserves)			<b>117,620</b>
Surplus/(Deficit)			<b>79,049</b>

\*Stanbic IBTC Holdings has 75% direct and 25% indirect shareholdings in Stanbic IBTC Insurance Brokers Limited.

The Group's capital management aims to facilitate the allocation and use of capital, such that it generates a return that appropriately compensates shareholders for the risks incurred. Capital is actively managed and forms a key component of the Group's budget and forecasting process. The capital plan is also tested under a range of stress scenarios as part of the Group's recovery plan and the Internal Capital Adequacy Assessment Process (ICAAP) for the bank. The ICAAP is an extensive internal assessment of the quality and robustness of the bank's governance, risk management, capital management and financial planning frameworks, and an assessment of the resilience of the bank's business model under stress. Monitoring and reporting of risks also occurs at the Group level to ensure compliance with Group standards.

The Group's capital management function is governed primarily by the Asset and Liability Committee (ALCO), a management level sub-committee that oversees the risks associated with capital management. It is also governed at the board level through the Board Risk Management Committee (BRMC). The principal governance document is the capital management framework.

The Group manages its capital levels to support business growth, maintain depositor and creditor confidence, create value for shareholders and ensure regulatory compliance.

#### Regulatory Capital

The Central Bank of Nigeria (CBN) adopted the Basel III capital framework with effect from 01 November 2021. The Group and its banking subsidiary have established processes and necessary measures to ensure full compliance with the requirements of the Basel III capital framework since it was adopted.

Regulatory capital is divided into two tiers:

- Tier 1 capital which comprises Common Equity Tier 1 (CET1) and Additional Tier 1 (AT1) capital. CET1 includes share capital, share premium, retained earnings and reserves created by appropriations of retained earnings. Deferred tax asset, intangible assets and total investment in subsidiaries are deductible in arriving at CET1 capital. AT1 capital is made up of perpetual non-cumulative preference shares, perpetual non-callable bonds and related instruments.

### Risk and capital management (continued) for the year ended 31 December 2021

Tier 2 capital which includes subordinated debts and other comprehensive income. 50% of total investment in subsidiaries is - deductible in arriving at Tier 2 capital. Subordinated debt at the end of the period is described as follows:

- USD denominated term subordinated non-collateralised facility of USD40 million obtained from Standard Bank of South Africa effective 05 February 2021. The facility expires on 05 February 2031 and is repayable at maturity. Interest on the facility is payable semi-annually at LIBOR (London Interbank Offered Rate) plus 4.82%.

Total eligible Tier 2 Capital as at 31 December 2021 was N21.69 billion (December 2020: N21.51 billion).

#### Capital Adequacy

The Group's capital adequacy is measured by both regulatory capital and economic capital. Economic capital measures and reports all quantifiable risks on a consistent risk-adjusted basis.

Regulatory capital adequacy is measured based on Pillar 1 of the Basel II capital framework. Capital adequacy ratio is calculated by dividing the capital held by total risk-weighted assets. Risk weighted assets comprise computed risk weights from credit, operational and market risks associated with the business of the Group. Notional risk weighted asset for market risk is calculated using the standardised approach while operational risk is determined using the basic indicator approach. Management monitors the capital adequacy ratio on a proactive basis.

Throughout the year under review, the banking subsidiary operated above its capital adequacy ratio risk appetite limit and well over the minimum regulatory capital adequacy ratio of 10% as mandated by CBN.

#### Leverage Ratio

This is non-risk based capital measure introduced in the CBN Basel III guidelines to act as a supplementary measure to the risk-based capital requirements. The leverage ratio is calculated as capital measure divided by exposure measure and is expressed as a percentage. The capital measure is the Tier I capital of banks while the exposure measure comprises on-balance sheet exposures, derivatives, securities financing transactions and off-balance sheet exposures. Banks are required to maintain a minimum leverage ratio of 4% at all times.

#### Regulatory Recommended transition adjustments of IFRS 9

The Central Bank of Nigeria issued a letter to all banks and discount houses on 18 October 2018 recommending transitional arrangements to cushion the impact of IFRS 9 expected credit loss on transition date on capital adequacy ratio.

Banks are required to hold static the adjusted Day One impact and amortize on a straight-line basis over the four-year transition period. The impact of the transitional adjustments has been incorporated into the Group's (and bank's) capital plan, which covers a three-year horizon and shows adequate capitalization during these periods.

\*Capital adequacy ratio decreases by 50bps under the Basel III guidelines compared to Basel II largely as a result of decrease in the amount of non-controlling interest that can be recognised due to the new recognition methodology. The Basel III guidelines were released on 02 September 2021 by the CBN to further strengthen the resilience of Nigerian banks by increasing the minimum requirement for high quality capital which can absorb losses on a going concern basis, and by requiring banks to build up additional capital buffers to cushion against future unexpected losses. The implementation of the Basel III guidelines commenced with a parallel run with the Basel II guidelines effective from November 2021 for an initial period of six months which may be extended by another three months subject to the milestones achieved by banks based on CBN supervisory expectations.

**Annexure C: COVID-19 impact on the Group for the year ended 31 December 2021**

The coronavirus pandemic, which was first detected in China (late 2019), has infected more than 400 million people and caused over 5.5 million fatalities around the globe. The pandemic forced governments to implement lockdowns and restriction to movement, which negatively impacted economic activities during the year. The International Monetary Fund (IMF) estimated that the global economy contracted by 3.5% in 2020

In response to the economic downturn owing to the pandemic, global economies and countries with fiscal space resorted to fiscal stimulus to boost retail and economic activities. Fiscal stimulus in emerging market economies averaged about 5% of GDP, while for developed markets the stimulus was mostly higher than 10% of GDP.

Also, central banks across most economies engaged in some form of monetary policy easing either by way of slashing interest rates or asset purchase program and in some cases, both. These actions were aimed at making borrowing cheaper, encourage spending as well as improve production to boost the economy. Most significantly the US Fed slashed its policy rate to 0 - 0.25% range, from 1.50 -1.75% before the pandemic, while also providing up to \$2.3 trillion in lending to support households, employers, financial markets, and state and local governments.

Nigeria was not immune to the ravaging human and economic impact of COVID-19. The corona virus which was first detected on the 27th of February 2020 in Nigeria, had infected over 134,000 people and caused over 1,500 fatalities in Nigeria as at 31st December 2020. In order to curb the spread of the virus, the federal government initially implemented a total lockdown in Lagos, Abuja and Ogun state. While other state governments also implemented restrictions. The impact of these restrictions was evident in the significant drop in the private sector activities in the month of April. The Stanbic IBTC Purchasing Market Index (PMI) declined to 37.1 in April-20, signifying contraction, from 53.8 recorded in March-20. The PMI reading has however recovered slightly to 51.8 in December 2021.

The country witnessed significant drop in revenue following the triple impact of price war between Saudi and Russia in early March, loss of demand due to the pandemic and OPEC+ agreement to unprecedented production cut. Unsurprisingly following drop in oil prices and the significant slowdown in economic activities owing to the lockdowns and restrictions, the country slipped into recession in Q3 after its GDP contracted for the second consecutive quarter this year. Q3 Real GDP contracted for the second quarter by 3.62% leading to a cumulative 9 months contraction of 2.48%

CBN in response to the challenging economic trend through the Monetary policy committee (MPC) cut the Monetary policy rate (MPR) by 100bps to 12.5% in May 2020 and a further 100bps cut in September to close the year at 11.5%. It devalued the currency by 24% in the official market and announced a combined NGN3.5trn stimulus intervention fund targeted at the health and manufacturing sectors as well as households.

Liquidity risks, capital deterioration, asset quality decline, business risk and operational risk are some of the principal risks and uncertainties that businesses in the financial sector face as a result of the current COVID-19 pandemic.

Like most Financial Institutions, Stanbic IBTC's operations and performance was fairly hit by the COVID-19 pandemic, though the twin effect of a well-positioned balance sheet and diversified business lines cushioned the impact.

Apart from cost savings on some expense lines such as training, marketing and advertising expenses, the Group had some incremental expenses on donations as disclosed in the directors' reports. However, increased allowance for expected credit loss is the major incremental non-arbitrary impact of COVID-19 on the financial performance of the Group as shown below:

<b>Impact of COVID-19 on Loan and advances</b>	<b>31 Dec. 2021</b>	<b>31 Dec. 2020</b>
	<b>N million</b>	<b>N million</b>
Lifetime ECL credit impaired	-	3,645
COVID-19 related debt relief extension/restructure: Gross amount restructured	-	73,308
Outstanding balance at year-end	-	50,106

The Group is endowed with strong and diversified funding base and this supports our ability to sustain the business throughout this crisis and take advantage of market opportunities as they arise.

The Group remains adequately capitalised with a capital adequacy ratio (CAR) of 20.8% and under further stress scenarios undertaken by the institution in line with CBN's ICAAP policy, CAR remains strong and well above regulatory thresholds. Also, liquidity ratio stood at 104.71% as at 31 Dec 2021 (regulatory minimum is 30%).

The significant doubt associated with the current uncertainties related to COVID-19 virus currently does not result in a material uncertainty related to such events or conditions that may cast significant doubt on the Group's ability to continue as a going concern in the foreseeable future. Notwithstanding, the Group will closely monitor the emerging impact of the pandemic to ensure that they are appropriately mitigated. There was no other event after the end of the reporting period which could have a material effect on the financial statements of the Group for the year ended 31 December 2021 which has not been adjusted for, or disclosed in, the financial statements.
